Humanity has reached the stars, joining the vast galactic community of alien species. But beyond the fringes of explored space lurk the Reapers, a race of sentient starships bent on “harvesting” the galaxy’s organic species for their own dark purpose. The Illusive Man, leader of the pro-human black ops group Cerberus, is one of the few who know the truth about the Reapers. To ensure humanity’s survival, he launches a desperate plan to uncover the enemy’s strengths—and weaknesses—by studying someone implanted with modified Reaper technology. He knows the perfect subject for his horrific experiments: former Cerberus operative Paul Grayson, who wrested his daughter from the cabal’s control with the help of Ascension project director Kahlee Sanders. But when Kahlee learns that Grayson is missing, she turns to the only person she can trust: Alliance war hero Captain David Anderson. Together they set out to find the secret Cerberus facility where Grayson is being held. But they aren’t the only ones after him. And time is running out. As the experiments continue, the sinister Reaper technology twists Grayson’s mind. The insidious whispers grow ever stronger in his head, threatening to take over his very identity and unleash the Reapers on an unsuspecting galaxy. This novel is based on a Mature-rated video game.

Mass Effect is set in a rich and diverse universe hundreds of years in our future. The challenge of creating a plausible vision for humanity and a galaxy of ancient and exotic alien races was given to BioWare's talented art and design teams. They began in a formless void and shaped their worlds, their races, and their civilizations to finish with a living breathing setting exclusive to the Xbox 360. From a massive space citadel whose origins are lost in time to the utilitarian clothing of frontier colonists, each component, whether small or colossal, anomalous or common, within Mass Effect's universe need to be brought to detailed life. In this stunning volume, take an exclusive step back to when this universe was still forming in this compilation of art, images, and commentary taken directly from the artists' sketchbooks as they created the universe of Mass Effect.
