First published in 1999, this volume examines the inclusion of disabled children as a category of children in need under the Children Act 1989 and as eligible for assessments of need under the NHS and Community Care Act 1990 has drawn renewed attention to the plight of these children and their families. This book presents the findings from a study of parents whose child has cerebral palsy. The research undertaken at the cost of social policy change focuses on the apparent gap between the well-argued proposals for community care and the experiences of carers. A bewildering picture emerges of inadequate services and treatments from the health, education and social services in the public, voluntary and private sectors. Parents experience isolation and stress as they explore ways to improve the quality of their children's lives by experimenting with unregulated and under-researched treatments for an incurable physical condition. The conclusion that there has been deterioration in provision for these families is a serious indictment on current social policy direction.

Utopia should be understood as a method rather than a goal. This book rehabilitates utopia as a repressed dimension of the sociological and in the process produces the Imaginary Reconstitution of Society, a provisional, reflexive and dialogic method for exploring alternative possible futures.

Develop High-Level Awareness and Mental Strategies to Advance into Massive Success! There is an infinite amount of material out there on how to succeed, how to make money, how to trade stocks, how to grow your business, how to enhance your career, etc. Nowadays, we have no shortage of people teaching others how to be successful. The majority of people who read and take courses on "how to" material never actually succeed with it. That is a sad fact, because many people could have the beautiful and successful lives they want, but they are missing some key components that would get them results. Success opportunities may be presenting themselves to you every day, but the problem is they are in a language in which you may not be fluent. The point of this book is to teach you how to become "fluent" in the language of success and opportunity, so you can step out and receive this new world you can now perceive with full clarity and understanding. This book covers creating real success from scratch. It does not matter if you are at "knowledge" scratch, financial scratch, or "entry level job" scratch. It does not matter if you filed bankruptcy yesterday. In fact, being "at scratch" is perfectly okay because it has nothing to do with becoming successful. Where you are starting from means nothing, as long as you open your mind to the concepts I will be sharing with you to sculpt the right psychology to produce success and opportunity.

For half a century from the 1930s to the 1980s, the celebrated Canadian animator Norman McLaren made films at a prodigious rate - his output averaged about one film every year. The innovative nature of his films won him worldwide acclaim, honours and prizes (including an Oscar™). Curiously, there has been a dearth of serious literature that focuses on the film work of Norman McLaren. One reason for this has been the difficulty in identifying constants through McLaren's work. The very scope of McLaren's innovations together with the varied purposes of his films meant that McLaren's films appeared incongruent. There is, for example, the shocking violence of Neighbours and the gentle whimsy of Hen Hop; the didacticism of Canon or Rhythmic and the scintillating abstract energy of Begone Dull Care; the functionalism of Book Bargain and the sublime beauty of Pas de deux. By looking at the nature and span of McLaren's innovations, and by putting his work in the context of his own ambitions and of his era, Terence Dobson approaches the

puzzles that are set by the film work of Norman McLaren. On the way, the encounter with McLaren's movies - which features a detailed analysis of some of his chief works - provides a pivotal view of one of the major film-makers of the twentieth century.

When it comes to big dreams and schemes, young Chuck Lambert would give Walter Mitty a run for his money. In fact, Chuck's biggest dream of all is really out of this world. Because he's got his eyes on a prize in the sky. Chuck wants to buy a planet of his own. . . . Madman Murphy, the King of Planetary Realtors, is more than happy to oblige. He's got a whole galaxy of planets for sale. All Chuck needs is money . . . and a lot of it. Eleven years later, saving every penny he can scrape up, Chuck's dream comes true. He takes possession and takes off for Planet 19453X. . . . One problem: Madman Murphy has sold Chuck a world of trouble. Because on Planet 19453X the water is undrinkable, the air is unbreathable, and the laws of physics don't apply. Has Chuck's dream turned into a nightmare? Not quite. As he's about to discover, sometimes, to fulfill your true desire, it's simply a matter of digging a little deeper. . . . By the time *A Matter of Matter* appeared in 1949, L. Ron Hubbard's stature as a writer was well established. As author and critic Robert Silverberg puts it: he had become a "master of the art of narrative." Hubbard's editors urged him to apply his gift for succinct characterization, original plot, deft pacing and imaginative action to the genre of science fiction and fantasy. The rest is Sci-Fi history. Also includes the science fiction adventures, *The Conroy Diary*, in which the man who opens up the universe to mankind also opens himself to charges of fraud and tax evasion; *The Obsolete Weapon*, the story of an American GI involved in the 1943 invasion of Italy who slips back in time and finds himself fighting a different kind of battle—as a gladiator in ancient Rome; and *The Planet Makers*, in which a great deal is at stake for the engineers who make planets habitable, but one of them has a surprising plan all his own. "... this is a real corker, pulp fiction at its most entertaining."—Booklist * An International Book Awards Finalist

"Character" has become a front-and-center topic in contemporary discourse, but this term does not have a fixed meaning. Character may be simply defined by what someone does not do, but a more active and thorough definition is necessary, one that addresses certain vital questions. Is character a singular characteristic of an individual, or is it composed of different aspects? Does character--however we define it--exist in degrees, or is it simply something one happens to have? How can character be developed? Can it be learned? Relatedly, can it be taught, and who might be the most effective teacher? What roles are played by family, schools, the media, religion, and the larger culture? This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of researchers who have undertaken the systematic classification and measurement of widely valued positive traits. They approach good character in terms of separate strengths—authenticity, persistence, kindness, gratitude, hope, humor, and so on—each of which exists in degrees. *Character Strengths and Virtues* classifies twenty-four specific strengths under six broad virtues that consistently emerge across history and culture: wisdom, courage, humanity, justice, temperance, and transcendence. Each strength is thoroughly examined in its own chapter, with special attention to its meaning, explanation, measurement, causes, correlates, consequences, and development across the life span, as well as to strategies for its deliberate cultivation. This book demands the attention of anyone interested in psychology and what it can teach about the good life.

This is the story of the Outfit, the secretive organized crime cartel that began its reign in prohibition-era Chicago before becoming the real puppet master of Hollywood, Las Vegas, and Washington D.C. The Outfit recounts the adventures and exploits of its bosses, Tony 'Joe Batters' Accardo (the real Godfather), Murray 'The Camel' or 'Curly' Humphreys (one of the greatest political fixers and union organizers this country has ever known), Paul 'The Waiter' Ricca, and Johnny Rosselli (the liaison between the shadowy world and the outside world). Their invisibility was their strength, and what kept their leader from ever spending a single night in jail. The Outfit bosses were the epitome of style and grace, moving effortlessly among national political figures and Hollywood studio heads-until their world started to crumble in the 1970s. With extensive research including recently released FBI files, the Chicago Crime files of entertainer Steve Allen, first-ever access to the voluminous working papers of the Kefauver Committee, original interviews with the members of the Fourth Estate who pursued the Outfit for forty years, and exclusive access to the journals of Humphrey's widow, veteran journalist Gus Russo uncovers sixty years of corruption and influence, and examines the shadow history of the United States.

The resulting investigation flooded the small South Texas community with reporters and lawyers. The heavily scrutinized legal battle divided the city, but it did ultimately produce changes in school bus safety that continue to save lives today. Juan Carmona navigates the complicated legacy of the tragic accident and its aftermath.
