S6 Tutoring Academy is a leading tutoring company specialising in preparation for 11+ exams for state grammar schools, and private common entrance exams. The company has positioned itself at the forefront of revision with their new publication of S6 English and Maths guides. These test papers have been developed to improve preparation for students aged 9-11, to help them obtain the essential skills they need to succeed, particularly in light of the recent introduction of the new-style 11+ exams. The Maths guide, 11+ Style Test Papers: Maths, covers a range of topics to develop their methods and reasoning skills using mathematical language, diagrams and charts to build confidence and competence within the subject. In conjunction with these papers, S6 Tutoring Academy has also created an online hub that supports study and further practice so that children can be fully prepared with the knowledge, understanding and exam skills required to be successful in the 11+ tests and similar entrance exams. The use of mock exams lets children prepare in a manner that normal revision does not allow. Each book includes five exams that will provide children with much-needed confidence ahead of their real exams.

Focusing on good progression from Reception to Year 6, Maths 5–11 provides a clear and concise presentation of the fundamental knowledge that all primary mathematics teachers need. It provides readers with practical knowledge for the planning and assessment necessary to employ the theories expressed in the book. Ranging from number sense and place value to looking in depth at the various aspects of fractions and mathematical reasoning, this book explores: mathematical connections inside and outside of the curriculum; the relation of mathematics to other primary subjects such as science, geography, and art; mathematics teaching practices from high-performing jurisdictions across the world; the progression of learning from primary school to secondary school; the 'big ideas' in mathematics; and activities that provide strategies for children to use responsively and creatively. Helping primary teachers and mathematics coordinators improve and enhance their mathematical subject knowledge and pedagogy, Maths 5–11 will re-instil an excitement about teaching mathematics among its readers.
