This 2005 book describes in much detail both how and why franchising works. It also analyses the economic tensions that contribute to conflict in the franchisor-franchisee relationship. The treatment includes a great deal of empirical evidence on franchising, its importance in various segments of the economy, the terms of franchise contracts and what we know about how all these have evolved over time, especially in the US market. A good many myths are dispelled in the process. The economic analysis of the franchisor-franchisee relationship begins with the observation that for franchisors, franchising is a contractual alternative to vertical integration. Subsequently, the tensions that arise between a franchisor and its franchisees, who in fact are owners of independent businesses, are examined in turn. In particular the authors discuss issues related to product quality control, tying arrangements, pricing, location and territories, advertising, and termination and renewals.

The lack of a harmonised franchise regime or dispute resolution system across the major jurisdictions means that this is not a simple exercise from a legal perspective. In addition, many jurisdictions require specific pre-contractual disclosure and/or registration. In addition to classic legal questions, efficient tax planning is required to secure success. In parallel, the book reviews questions on data protection and intercultural communication during a franchise partnership as well as financing possibilities from various national perspectives. Uniquely, this title applies and reflects general practical and technical franchising know-how to specific franchised industries and highlights typical sector-by-sector questions and solutions in an international franchise context.

during which our family, church, friends, and community came together in love and support for our son, Wade Altman. At only nine years of age, during a normal, rambunctious, and mischievous childhood, Wade began having symptoms. Our shock at this turned into an aggressive search for treatment and a need to reach God for healing. My precious wife, Lisa, already a prayer warrior, turned the volume on high! As for me, I returned to Jesus on my face before Him at the altar. There was nowhere else to go. Wade bravely faced our decision for his care, as did our courageous daughter, Blakely. This writing is also a testimony of the power of prayer as you will read about many miracles, before, during, and after the transplant and even to this day. I believe we can add two passages of scripture to the summary of Wade's Story And we know that in all things God works for the good of those who love Him, who have been called according to His purpose. (Romans 8:28) Trust in the Lord with all your heart and lean not on your own understanding. (Proverbs 3:5)
