The book that serves as the basis for the popular “Harrison’s Podclass” podcast series! This outstanding collection of internal medicine Q&A is perfect for prepping for board or shelf exams, getting in multiple “reps” of self directed learning, and increasing your understanding of clinical reasoning. It’s packed with 1,000+ high-quality clinical vignettes, with expert, on-point explanations for correct and incorrect answers. Harrison’s Principles of Internal Medicine Self-Assessment and Board Review reflects all the specialties of internal medicine, and has been exhaustively revised and updated to reflect hundreds of never-before published Q&A in board-style format. This great resource will bolster your understanding of pathophysiology, epidemiology, differential diagnosis, clinical decision making, and therapeutics. Illustrations, radiographs, and pathology slides are included throughout. Each question is accompanied by a complete answer and explanation, and cross-referenced to Harrison’s Principles of Internal Medicine for deeper-dive understanding. 325 full-color photos and illustrations Clinical vignettes and Q&A presented in board-style format Content consistent with board exam blueprint in internal medicine Aligned with Harrison’s Principles of Internal Medicine, the global authority in medicine Explanations for correct and incorrect answer choices

This long-awaited, richly illustrated text fills a critical need in the dermatology literature. For the first time, this one-stop resource examines the most critical dermatologic topics in an easy-to-follow, full-color format. Ideal as a quick reference for residents on rounds or dermatologists taking their written Board or recertification exams, *Dermatology: A Pictorial Review* is also invaluable as a visual guide to differential diagnosis for clinicians. *Dermatology: A Pictorial Review* features: Over 300 color photographs that illuminate the full scope of dermatologic conditions seen in clinical practice Up-to-date coverage that reflects the very latest thinking and research perspectives in the field A far-reaching overview of skin problems that are of concern across medical specialties, from vascular tumors and lesions to viral diseases An emphasis on need-to-know

dermatological conditions such as infections, reactions to medications, dermatitis, and blistering Easy-to-read content that contains minimal text for maximum clarity And much more! With its full-color pictorial review format and streamlined question and answer organization, *Dermatology: A Pictorial Review* optimizes the study of dermatology. It's the quickest, most convenient way to prepare dermatologic exam questions-and a practical, diagnosis-speeding resource that belongs on every dermatologist's shelf.

Hundreds of real questions from past board exams provide the preparation you need for certification or recertification. This is a study guide for 350 board questions from past ABA exams. It also includes the most thoroughly researched, evidence-based answers of any guide.

The best cases in neuroimaging-the definitive review for any type of neuroimaging examination *Neuroimaging: Cases and Key Points* is the must-have resource that offers one-stop, essential preparation for neuroimaging examinations. This unique review utilizes a step-by-step approach to case-based learning that assures more thorough retention of material, and reinforces your understanding of even the most difficult topics. Coverage reflects all the recent advances of clinical importance, so you can assimilate critical new information easily into your examination preparation activities and daily practice. It's the ultimate tool to prepare for certification and recertification/maintenance of certification, or for use as a clinical refresher! **FEATURES:** The go-to guide that helps you use CTs or MRIs to identify critical neurology problems-from brain tumors and spinal cord injuries to multiple sclerosis Well-illustrated case-based approach Skill-sharpening references to both normal and altered anatomy in neuroimaging studies Complete survey of current developments in clinical neurology

An all-in-one review for the cardiology boards – complete with a CD-ROM with 600+ board-style questions *McGraw-Hill Specialty Board Review: Cardiology* is the ideal cardiology primer – whether you're studying for board certification or seeking a thorough review of current thinking in cardiovascular medicine. You'll find everything you need in one all-inclusive package: a CD-ROM with hundreds of board-style questions and thorough explanations; bulleted practical points at the beginning of each chapter; tables, charts, graphs, references and suggested reading; and more than 1000 illustrations – many in full color. Everything you need to pass the boards or keep abreast of this ever-changing field:

Coverage of all specialty topics in general cardiology -- from prevention and imaging to heart failure Companion CD-ROM with 600+ questions in the exam style with detailed answer explanations Streamlined bulleted presentation and numerous tables and charts Suggested Reading or references at the end of each chapter Content that reflects mainstream thinking rather than a limited single-center perspective Content that spans all major areas of Cardiology: General Topics, Pulmonary, Preventive Cardiology, Coronary Artery Disease, Acute Coronary Syndrome, Intervention, Imaging, Heart Failure, Electrophysiology,

Valvular Heart Disease, Congenital Heart Disease, Aorta and Vascular Diseases, Special Topics (Cardiac Tumors, HIV and Heart, Infective Endocarditis). The first all-in-one review book for the combined Internal Medicine/Pediatrics curriculum -- filled with evidence-based cases! Internal Medicine/Pediatrics: Case-Based Review is the first book to deliver what medical/pediatric residents truly need: a definitive look at the combined Internal Medicine/Pediatrics residency program. This complete review package brings the Internal Medicine and Pediatrics curricula together, giving you a unified overview of the disciplines that you can't find anywhere else. This one-of-a-kind guide surveys all the clinical topics taught to med/peds residents, making it indispensable for use as a Morning Report resource, for family practice residents, for clerkship students, and for USMLE Step 3 preparation. Features Completely case-based, with over 60 clinical case presentations that feature challenging, instructive, or best-practice scenarios Each case includes case presentation, physical examination, laboratory studies, case resolution, Q&As, and discussion -- and opens a window on the real world of clinical practice The perfect companion to the study guides for the internal medicine and pediatric certification and board exams Authored by a program director for a major Internal Medicine/Pediatrics residency program and a chief resident in a Combined Medicine/Pediatrics Residency Program The ONLY review book for the Neonatal-Perinatal Medicine board exam This comprehensive review for the Neonatal-Perinatal Medicine board exam includes everything test takers need for exam success: thorough concept reviews, full-color illustrations, highlighted key points, and case-based Q&A. The content is weighted to match that of the exam, so students know they are spending just the right amount of time on each topic. The authors of the book are uniquely qualified to create such as book as they currently run exam review workshops and have many years of experience preparing residents and physicians for the examination. This is a particularly valuable entry into the McGraw-Hill Medical test prep line as neonatology is the most popular pediatric subspecialty. Includes 4-color insert of neonatal dermatology and infectious disease illustrations Each chapter includes clinical vignettes with board-style Q&A Featuring hundreds of multiple-choice questions and full-color illustrations, Anatomic Pathology Board Review serves as a comprehensive resource for both certification and recertification exams. This fully updated medical reference book contains chapters covering general pathology, the major organ systems, and ancillary diagnostic techniques, as well as important topics including immunohistochemistry, cytopathology, and molecular diagnostics. It's the perfect tool to help you be as prepared as possible for the Anatomic Pathology boards! Consult this title on your favorite e-reader, conduct rapid searches, and adjust font sizes for optimal readability. Understand why an answer is correct or incorrect with help from brief explanations accompanying each. Access coverage of all of the major organ systems and ancillary diagnostic techniques. Prepare for the boards with updated coverage of all of the most important topics on the

anatomic pathology board exam, as well as over 900 MCQs, 835 full-color illustrations, and a format that mimics that of the actual test. Easily find specific diagnostic entities through a new Index to Images and Topics. Get a clearer view of critical material thanks to an improved design and larger illustrations.

A quick-hit Q&A review for the Obstetrics and Gynecology Board Exam
Obstetrics and Gynecology Board Review: Pearls of Wisdom: Third Edition is a quick, active-recall review of the most important information to know when preparing for residency in-service examinations and the Ob/Gyn boards. 5200+ rapid-fire questions cover all topics on the board exam Powered with performance-improving pearls and other potent learning aids Like "flashcards in a book," the rapid-fire Q&A format facilitates study alone or with a partner. Only correct answers are given to focus study and improve memory retention and exam-day performance. The third edition is completely revised based on the core curriculum, and includes a new primary care chapter. Basic science coverage has been de-emphasized and more "most/least likely" questions have been added to simulate the current board-exam format. Intense, Targeted, Exam-Focused Like other volumes in the Pearls of Wisdom series, this book ensures your best possible performance on the board exam in the shortest possible study time. There is no easier or faster way to guarantee that you perform you best on exam day! BULL'S-EYE HITS on ob/gyn board topics--the meaningful and the frequently tested TOOLS TO IMPRINT YOUR MEMORY--pearls, drills, mnemonics, visual imagery, even humor, and other tested learning aids RAPID RESULTS--rapid-fire, to-the-point Q&As quickly embed the facts you need to know and enhance quick recall NO CONFUSING WRONG ANSWERS to clutter your memory
