

## Mcgraw Hill Teacher Edition

Revised edition of author's Personal financial literacy, copyrighted 2010.

Students develop the vocabulary, background information and thinking skills they need to read content-area textbooks and learn new information. Corrective Reading Comprehension develops: The thinking tactics used by successful readers-applying prior knowledge, making inferences and analysing evidence. Students learn literal and inferential skills necessary to read content-area textbooks and learn new information. Reasoning and analysis strategies are taught in content-rich contexts, enabling students to transfer newly learned skills to many subject areas. Writing activities include exercises to help students become more facile with mechanics and paragraph form as well as prompts that elicit their imagination. Students build a solid foundation of concepts and skills upon which comprehension thrives.

Your students will engage in their first guided practice with fresh reading selections every week! Students can directly interact with text by underlining, circling, and highlighting text to support answers with text evidence.

Decoding C. The skills are divided into four principal areas: Word-Attack Skills, Selection Reading, Fluency Assessment, and Workbook Exercises.

McGraw-Hill My Math develops conceptual understanding, computational proficiency, and mathematical literacy. Students will learn, practice, and apply mathematics toward becoming college and career ready.
