"The book is very timely and it has good case studies for students to discuss in class. It has chapters on race- and gender-related issues. You can use it as the main textbook, or you can assign it as supplementary reading material." —Ivy Shen, PhD. Southeast Missouri State University Politics and the Media: Intersections and New Directions examines how media and political institutions interact to shape public thinking and debates around social problems, cultural norms, and policies. From the roles of race and gender in American politics to the 2020 elections and the global coronavirus pandemic, this is an extraordinary moment for politicians, the news media, and democracy itself. Drawing from years of experience as an active political media analyst, an award-winning journalist and professor of politics and the media, Jane Hall explores how media technologies, practices, and formats shape political decision-making; how political forces influence media institutions; and how public opinion and media audiences are formed. Students will gain an understanding of these issues through a combination of scholarship, in-depth interviews, and contemporary case-studies that will help them develop their own views and learn to express them constructively.
