This completely rewritten edition of the bestselling *The Employment Interview Handbook* provides a comprehensive review of various streams of research into employment interviewing, including: the validity and fairness of interview outcomes; assessment of person-organization fit; factors affecting the interviewer's decision-making process; and applicant perspectives on the process of interviewing, including impression management. The book concludes with a summary of the volume's implications for theory building, research methods and effective practice.

The Radical Right and the Murder of John F. Kennedy: Stunning Evidence in the Assassination of the President Harrison E. Livingstone's major new book, the fifth of his works on the death of JFK, brings together for the first time all of the central evidence demonstrating a domestic Right Wing conspiracy rooted in Texas which assassinated the President on November 22, 1963. The book represents forty years of work. The book discusses in great detail the actual medical evidence and the forgery of the autopsy photographs and X-rays, which Mr. Livingstone first exposed, the alteration of the autopsy report, the framing of the designated patsy, Lee Harvey Oswald, and the substitution and fabrication of every single piece of evidence. It discusses the role played in the murder by some of the most powerful men in the country: Lyndon Johnson, J. Edgar Hoover, and Richard Nixon, as well as the rich oil men and companies who backed them. It then describes the cover-ups by the media, the major investigations over the years, the FBI, and the mind-control cooperation at work in the case to misdirect researchers and the public. The book describes in great detail the people and companies in Texas who planned and carried out the assassination. It names names. One recent investigation in the 90s followed Mr. Livingstone's preceding work and reinvestigated with the witnesses both he and the official investigations had talked to, but this time took into consideration their documentation and what they had actually said, and in a chapter this is his stunning new evidence from the U.S. government under President Clinton that is blowing the lid off the case. Mr. Livingstone first revealed to the Washington press corps in 1998 that there has been such a secret investigation, and spoke for fifty minutes when the Assassination Records Review Board gave their final press conference. As a result, Mr. Livingstone was on all major TV networks and on the "Today" show (NBC) with Katie Couric the next morning. The book also contains the story of Dallas doctor Charles Crenshaw's law suit and the depositions of the editor and writer of the *Journal of American Medical Association* who libeled him in articles in 1992. Dr. Crenshaw's book about trying to save Kennedy at Parkland Hospital shortly after the shooting came out on the same day as Mr. Livingstone's major work on the medical evidence, *High Treason 2*, were JAMA's targets, and the depositions contain much discussion of Mr. Livingstone's major impact on the JFK case. This new book is to be followed closely by a sixth

book entirely about the Zapruder film, called *The Hoax of the Century: Decoding the Forgery of the Zapruder Film*. Doctors often lack the skills needed to give them a competitive edge over their colleagues. Despite being academically gifted they leave medical school after six years ill equipped to attain their own career goals. Management skills that are often the most basic to those working for private companies are left out of their undergraduate training. Some simple tips, strategies and well researched advice will empower doctors to develop their own unique career pathway and help them achieve success in their professional life. This book is for all newly qualified doctors. It systematically and logically examines the entire hospital doctor and GP career process from start to finish, dispelling common myths and advising doctors on how to break down their career into sections and tackle them one at a time. Planning a career should be like sitting an exam. Each chapter is devoted to one aspect of the career pathway from how to choose the right job for you through to FY1, FY2 and ST jobs, and covering application forms, exams, the interview process, audit and finally publications. This book helps to answer specific questions such as: Should I apply for jobs in multiple deaneries to increase my chances of success? What do those questions on the application form really mean? Exactly what type of questions will come up in my interview? Which postgraduate exam should I choose, how will I get through it and when should I sit it? How can I excel in an audit and make a difference to my department? How do I get published and which journals should I choose? Brimming with sound practical advice, hints, tips with its readily accessible style and approach, this text is an essential purchase for all doctors embarking on their career.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

This volume is a collection of 18 papers on the communication of certainty and uncertainty. The first part introduces recent theoretical developments and general models on the topic and its relations with modality, subjectivity, intersubjectivity, epistemicity, evidentiality, hedging, mitigation and speech acts. In the second part, results from empirical studies in medical and supportive contexts are presented, all of which are based on a conversational analysis approach. These papers report on professional dialogues including advice giving in gynecological consultations, breaking diagnostic bad news to patients, emergency calls, addiction therapeutic community meetings and bureaucratic-institutional interactions. The final part concerns the qualitative and quantitative analysis of corpora, addressing scientific writing (both research and popular articles) and academic communication in English, German, Spanish and Romanian. The collection

is addressed to scholars concerned with the topical issues from a theoretical and analytical perspective and to health professionals interested in the practical implications of communicating certainty or uncertainty.

The past several decades have seen an explosion of interest in narrative, with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts. As accounts of what happened to particular people in particular circumstances and with specific consequences, stories have come to be viewed as a basic human strategy for coming to terms with time, process, and change. However, the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars, teachers, and students to have access to a comprehensive reference resource.

Police officers are invested with awesome powers and may use physical force to take a citizen into custody. These powers help the police enforce laws and control suspects, but they also have the potential to be abused. The police must be responsive and accountable about crime and safety, but they must also be responsive and accountable to the law and the rights of citizens. Police abuse of power has a long and unfortunate history in the United States, often because of the failure to develop meaningful procedures to ensure police accountability. This book introduces the reader to a unit of the police department that has been secretive and lacking transparency, despite being an integral part of policing for a number of years. Noble and Alpert clearly explain the structure and function of internal affairs or professional compliance units and provide guidance for establishing an effective unit that will benefit both the police and the community. One recent trend is to make internal affairs more proactive than reactive. The authors provide comprehensive coverage of this trends objectives: implement procedures to identify and modify improper actions by police officers; change policies and procedures that negatively affect citizens quality of life; take appropriate action so that the misconduct of a few officers does not detract from the overall mission and reputation of the agency; and conduct fair, thorough, and accurate investigations to protect police employees against false accusations of misconduct.

The Premed Playbook: Guide to the Medical School Interview is the only book needed to prepare premed students for their medical school interviews. Through interviews with Admissions Committee members and others, Dr. Gray has compiled the most comprehensive book on this subject. Premed students want to know what to expect, but more importantly they need to see examples of what successful applicants have done. *The Premed Playbook* not only gives them close to 600 potential interview questions, it also gives them real answers and feedback from interview sessions that Dr. Gray has held with students. Warren Commission hearings.

Rudolf Hess was Adolf Hitler's Deputy Führer until, in 1941, he flew to Scotland, ostensibly to negotiate peace between Germany and Britain. Captured by the British, he was held for the rest of the war, before being convicted of war crimes at the Nuremberg Trials in 1946. Desmond Zwar collaborated with Col. Burton C. Andrus, who was Commandant of Nuremberg Prison during the Trials, for his book *The Infamous of Nuremberg*, and with Col. Eugene K. Bird, US Governor of Spandau Prison (where Hess was

held for over forty years), for *The Loneliest Man in the World*. For reasons of practicality, neither of these books told the full story, which is now revealed for the first time in *Talking to Rudolf Hess*. As well as his interviews with Hess and others, Zwar tells the incredible story of how this book came to be written, including how Hess hid proofs in his underpants, how Bird was sacked and how the CIA tried to recover the transcripts.

The President's Commission on the Assassination of President Kennedy, known unofficially as the Warren Commission, was established by President Lyndon B. Johnson through Executive Order 11130 on November 29, 1963 to investigate the assassination of United States President John F. Kennedy that had taken place on November 22, 1963. This book includes the Commission's report, which was based on the investigation, as well as all the supporting documents collected during the investigation, and the testimony or depositions of 552 witnesses.
