When *The Konso of Ethiopia* was first published in 1972, the American Anthropologist described it as 'a work which is destined to become a classic'. The Konso are one of the most important peoples of East Africa, and the author was able to revisit them in 1997. As a result he discovered large amounts of entirely new material, and has been able to produce a completely revised edition that takes account of all the research on the Konso of the last thirty-five years. The result is the definitive account of a truly fascinating people, whose traditional culture is fast disappearing.

Poland's luminaries might include Lech Walesa and Frédéric Chopin and yet, what does one find at the most holy spot of the country? The monument of one Adam Mickiewicz. But who is this person? Poland boasts delicious food, a beautiful landscape, it's the country of the thousand lakes of Masuria, the Tatra Mountains, and of the melancholic Masovian Lowlands. Its biggest attraction however, are its people. For the past thousand years, they have been stuck between the Germans and the Russians – no wonder they are simultaneously pessimistic and have an absurd sense of humour. No wonder, too, that Polish people emigrate in masses! Current estimations suggest that there are nearly two million Poles living in the UK and in Ireland, along with several millions in the USA and in Australia. In fact, Chicago is the world's second biggest Polish populated city! This book is meant for anybody who has already travelled from the North to the South Pole, and is still unsure of where to travel to next year. But it is also well suited to readers who prefer to stay in merry old England because they already have a big circle of Polish acquaintances. If this is you, do you actually understand all the mannerisms and quirks of your Polish friends? Why is your friend Marek so reluctant to shake hands when greeting you at the door? Why does Anna hold a button on her blouse whenever she sees a chimney sweeper? This book will give you the answers to these questions and more. And if you happen to have recently met a beautiful Polish lady (or even a handsome Polish man!), this book is truly for you. It will teach you all the secrets to win their hearts, including – but not limited to – the most important grammar secrets of the complex Polish tongue. There is only one thing this book cannot do for you though: the Polish wedding. This one you will have to survive all by yourself. Good luck with it! P.S.: Let me give you one piece of advice for your married life: Between August and October, it is unlikely your wife or husband will join you at the football stadium, her /his favourite hobby is mushroom picking! But what do YOU know about mushrooms? Cholera jasna....

The present volume offers an overview of collecting and displaying Islamic art during the long nineteenth century. A section of the volume focuses on the figure of the Swiss collector Henri Moser Charlottenfels. Special attention is given to little-known collections in Eastern Europe and beyond. L'ouvrage fournit un panorama du collectionnisme d'art islamique au cours du long XIXe siècle, en mettant l'accent sur la figure d'Henri Moser Charlottenfels et des collections méconnues situées en Europe central, et au-delà.

"Slavery throughout the capitalist world-economy expands. The old zones in one way or another reach their limits and the new zones break through: to become part of the new division of labor (in the 19th century). In that sense The Second Slavery would encompass both decline and renewal of slaveries. I never intended the idea to apply just to Cuba, Brazil, and the cotton South as some people seem to take it. For me it is a concept of world economy and Cuba, Brazil, and the South are the obvious examples of those zones that break through. They permit us to think about slavery in a more dynamic way, but there is much more work to be done. From this perspective I would be more inclined to include Reunion, Mauritius and some parts of India, Ceylon and Java as well as British Guiana, than the older French and British Caribbean islands." -- contributor Dale Tomich, Binghamton U., New York \*\*\* The Second Slavery includes the following essays: African Slaves and the Atlantic: A Cultural Overview \* The End of the British Atlantic Slave Trade or the Beginning of the Big Slave Robbery, 1808-1850 \* Peasant or Proletarian: Emancipation and the Struggle for Freedom in British Guiana in the Shadow of the Second Slavery \* The End of the "Second Slavery" in the Confederate South and the "Great Brigandage" in Southern Italy: A Comparative Study \* Puerto Rico: "Atlantización" and Culture during the "Segunda Esclavitud" \* The Second Slavery: Modernity, Mobility, and Identity of Captives in Nineteenth-Century Cuba and the Atlantic World \* Commodity Frontiers, Conjuncture and Crisis: The Remaking of the Caribbean Sugar Industry, 1783-1866 \* The Aftermath of Abolition: Distortions of the Historical Record in Machado de Assis' Counselor Aires' Memorial \* The Second Slavery: Modernity in the 19th-Century South and the Atlantic World. "Surrounded by enemies including ISIS and hostile Turkish forces, the people in Syria's Rojava region are carving out one of the most radically progressive societies on the planet. Visitors have been astounded by the success of their project, a communally organised democracy which considers women's equality indispensable, has a deep-reaching ecological policies, and rejects reactionary nationalist ideology. This form of organization, labeled democratic confederalism, is both fiercely anti-capitalist and boasts a self-defense capacity which is keeping ISIS from their gates. Drawing on their own firsthand experiences of working and fighting in the region, the authors provide the first detailed account of a revolutionary experiment and a new vision of politics and society in the Middle East and beyond"--Back cover.

Prussia as a nation-state, as a cultural state, as a military power: beyond these one-dimensional ideas, Ottmar Ette's new book unfolds the picture of a multi-perspective Prussia. From Anton Wilhelm Amo, the first black philosopher to matriculate at a Prussian university, to Frederick the Great's projection of the Prussian polity onto New Spain and the reign of Moctezuma, to the Dutch philosopher Cornelius de Pauw, who published his works in French in Berlin and fueled

the worldwide Berlin debate about the New World, from the Jewish salon of Rahel Varnhagen to Heinrich von Kleist's imagination of the Haitian Revolution to Adelbert von Chamisso and Alexander von Humboldt, who was not considered a "true" Prussian: Buried traditions of a history that have been expatriated from the common image of Prussia come to life. Ottmar Ette tells of mobile Prussians whose relationships arrange themselves into Prussia as a mobile. This book is a translation of the original German 1st edition *Mobile Preußen* by Ottmar Ette, published by Springer-Verlag GmbH Germany, part of Springer Nature in 2019. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). A subsequent human revision was done primarily in terms of content, so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.

From a New York Times bestselling author comes "the riveting pick-me-up we all need right now" (People), that argues that humans thrive in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success. If there is one belief that has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It's a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed primarily by self-interest. But what if it isn't true? International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of *Homo sapiens*. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn't merely optimistic—it's realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity's kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling. "The Sapiens of 2020." —The Guardian "Humankind made me see humanity from a fresh perspective." —Yuval Noah Harari, author of the #1 bestseller *Sapiens* Longlisted for the 2021 Andrew Carnegie Medal for Excellence in Nonfiction One of the Washington Post's 50 Notable Nonfiction Works in 2020

An introduction to the geography, history, government, people, and economy of Europe's farthest outpost.

From the turn of the twentieth century to the 1950s, a group of transgender people on both sides of the Atlantic created communities that profoundly shaped the history and study of sexuality. By exchanging letters and pictures among themselves they established private networks of affirmation and trust, and by submitting their stories and photographs to medical journals and popular magazines they sought to educate both doctors and the public. *Others of My Kind* draws on archives in Europe and North America to tell the story of this remarkable transatlantic transgender community. This book uncovers threads of connection between Germany, the United States, and the Netherlands to discover the people who influenced the work of authorities like Magnus Hirschfeld, Harry Benjamin, and Alfred Kinsey not only with their clinical presentations, but also with their personal relationships. It explores the ethical and analytical challenges that come with the study of what was once private, secret, or unacceptable to say. With more than 170 colour and black and white illustrations, including many stunning, previously unpublished photographs, *Others of My Kind* celebrates the faces, lives, and personal networks of those who drove twentieth-century transgender history.

Lawrence Lessig, "the most important thinker on intellectual property in the Internet era", masterfully argues that never before in human history has the power to control creative progress been so concentrated in the hands of the powerful few, the so-called Big Media. Never before have the cultural powers- that-be been able to exert such control over what we can and can't do with the culture around us. Our society defends free markets and free speech; why then does it permit such top-down control? To lose our long tradition of free culture, Lawrence Lessig shows us, is to lose our freedom to create, our freedom to build, and, ultimately, our freedom to imagine.

This engaging study tells the fascinating story of the only European empire to relocate its capital to the New World.

With 'Biogeography and Ecology in South America' as the general theme, a total of twenty-nine contributions by thirty authors is offered here in two volumes, being volumes 18 and 19 of the *Monographiae Biologicae*. Most of these discussions deal with decidedly specialist themes and the editors have been particularly concerned to ensure that the authors enjoyed the greatest possible freedom in the preparation of their work in order that different points of view and interpretations, together with some questions of controversy, may be clarified. This also applies, of course, to the several chapters in which general themes (geographical substance, climate, geology, vegetation, amongst others) are discussed. Since the amount of material available is too great to enable one to aspire to a presentation of the complete biogeographical and ecological picture, this procedure seems expedient. However, these two volumes could well be regarded as being a preparatory work for just such a complete description. Each of the separate technical contributions refers to the continent as a whole, in order to characterise it as such from the viewpoint of the specialist. For this reason it was necessary to forgo special discussions of particular regions or types of landscape, although South America of all places is remarkably rich in unique regional phenomena, the altiplano of Peru and Bolivia, the relict forests of Fray Jorge, the shrub formations of Tierra del Fuego, the lakes of the High Andes, for example.

Special interest tourism is one of the fastest growing segments within the tourism industry. A more mature travelling public is increasingly seeking experiences which satisfy a whole spectrum of interests. Accordingly, there is a need for new tourism products, services and experiences that cater to these markets. Special interest tourism incorporates various sectors such as regional, urban, community, environmental, cruise, heritage, cultural, sex and educational tourism, all of which are discussed in this new text. Special interest tourism products operate within a broad industry framework affecting the social, political, environmental and economic context of the tourism region and tourist market. The authors discuss special interest tourism strategies, policies and initiatives introduced in Australia and internationally. The text combines theory and industry applications to illustrate the diversity of tourism product and development as it relates to special interest tourism.

Black Robe , an account of the 17th-century encounter between the Huron and Iroquois the French called "Les Sauvages" and the French Jesuit missionaries the native people called "Blackrobes," is Brian Moore's most striking book. No other novel has so well captured both the intense--and disastrous--strangeness of each culture to one another, and their equal strangeness to our own much later understanding. Thomas Derale, a mild-mannered businessman from Chicago, embodies leadership's greatest secret: his companies make fortunes, his people love him, and his customers are willing to wait weeks just to do business with him. At age 55, though, Derale is dying, and through a series of final encounters with key people in his life - primarily his wife, Maggie, and Joe, who regards Thomas as his mentor - we learn about his life, his unique business insights, and the true impact the man and his work has had on the people around him. A business parable with a difference, THE BIG FIVE FOR LIFE is a story of great leadership, savvy decision-making and is a powerful reminder that successful leaders are not just in the business of business - they are in the business of life.

A modern-day glimpse into the surprising reality of life in Iran. Iran: A destination that is seldom seen by westerners yet often misunderstood. A country that simultaneously “enchants and enrages” those who visit it. A place where leading a double life has become the norm. In Couchsurfing in Iran, award-winning author Stephan Orth spends sixty-two days on the road in this mysterious Islamic republic to provide a revealing, behind-the-scenes look at life in one of the world’s most closed societies. Through the unsurpassed hospitality of twenty-two hosts, he skips the guidebooks and tourist attractions and travels from Persian carpet to bed to cot, covering more than 8,400 kilometers to recount “this world’s hidden doings.” Experiencing daily what he calls the “two Irans” that coexist side by side—the “theocracy, where people mourn their martyrs” in mausoleums, and the “hide-and-seek-ocracy, where people hold secret parties and seek worldly thrills instead of spiritual bliss”—he learns that Iranians have become experts in navigating around their country’s strict laws. Though couchsurfing is officially prohibited in Iran—the state fears spies would be able to travel undetected through the country—more than a hundred thousand Iranians are registered with online couchsurfing portals. And thanks to these hospitable, English-speaking strangers, Orth gets up close and personal with locals, peering behind closed doors and blank windows to uncover the inner workings of a country where public show and private reality are strikingly opposed.

Eduard von Keyserlings (1855 - 1918) Erzählung "Seine Liebeserfahrung" erschien 1906. Wie für sein Spätwerk typisch, zeichnet er darin leicht ironisierend und resignativ, aber in großer Stimmungsdichte die moribunde Adelsgesellschaft des Fin de siècle.
