When photo-journalist Kelly Sheffield is offered the chance to travel to Greenland for coverage of American science teams, she grabs it. Not only is it a dream assignment, it also means she'll have a chance to reconnect with the compelling Jordan Westgate, the glaciologist studying the melting ice cap. Jordan hasn't forgotten Kelly, nor has she forgotten that she'd found it hard, all those years ago, to firmly reject the inappropriate overtures from a student. This Kelly—self-assured, successful, and even more attractive—is a threat to Jordan's equilibrium, something she simply can't allow. Kelly finds the frozen landscape a match for Jordan's chilly attitude. But Greenland is a surprising land of beauty and danger where even the iciest heart can melt. From the award-winning author of *Not Every River* and *Spring Tide*.

Pain is the body's way of communicating that something is wrong. Muscle pains are among the most commonly reported pain. Pain may be due to stress, overuse, improper body mechanics and fatigue. A revolutionary, self-treatment method was developed to deal with pain. It effectively relieves chronic pain without the need for drugs or surgery. It only takes a few minutes each day to provide long-lasting relief of pain. This method is called the MELT method. MELT means Myofascial Energetic Length Technique. This technique was developed by Sue Hitzmann, and aims to restore the supportive function of the body's connective tissues particularly in the muscles, bones and skin. By restoring and enhancing the function of the connective tissues, chronic pain is eliminated, muscle and bone performance is improved, and stress is decreased. Accumulated stress comes from repetitive movements such as sitting, standing and lifting related to everyday life. Get your copy of The MELT Method today and start to live pain free.
