Bigger than swine flu, and infinitely more deadly, stress is the emotional pathogen that eventually touches us all. It is the modern pandemic, costing the world billions of dollars every year, and seems to have a hand in almost every disease, from insomnia to

cancer, flatulence to strokes. As Hans Selye, the pioneer of stress research, so aptly said, "Everyone knows what stress is, but nobody really knows." If you are stressed, then you know what it feels like. Yet we often don't understand the source of our stress, or what that stress is doing to us, physically, emotionally or spiritually. And we usually don't know how to fix our stress either - to take control back and reduce our stress levels, or harness the stress to help us live fuller lives. This book is not a sure-fire, quick-fix, seven step process that will adjust your aura or realign your chi. It is not meant to be a new set of curtains for your crumbling psyche. But it will help you rebuild your coping skills and overcome old stressors, future problems, and the inevitable failure that comes with making long-term life changes. Immunize yourself against the emotional pathogen of stress. You will live a healthier, productive and more meaningful life, where you will truly experience life abundantly!

In this book, first published in 1953, Harold Sherman makes clear how we can attune our minds to the God Consciousness within through proper exercise of meditation, faith, prayer and intuition. By learning how to develop these faculties, we can help to rid ourselves of the loneliness and insecurity we feel. This makes us strong within, and with this new strength we can at last begin to know the joy of living a full life! * The book contains many highly interesting case histories of men and women who have had unusual, supernormal experiences. For those who are skeptical of the extrasensory powers of the mind, Harold Sherman gives many fascinating illustrations of his own adventures in the realm of mind. * He also reveals how to relax body and mind, how to picture in consciousness what is desired, how to cause the creative power within to bring this picture to pass in

real life through right use of the power of prayer supported by faith. Five basic prayers are presented, designed to reach the God Consciousness and to place the individual in such attunement that he can attract anything to him. * The reader of this book will also find a technique of healing so clearly set forth that he will immediately begin using its methods in his own life. * From Norman Vincent Peale, author of *The Power of Positive Thinking*: "I have just read your book, *Know Your Own Mind*. It is in the best tradition of the Harold Sherman books, and I find it enlightening, interesting, and helpful. You have a sound philosophy and understand of life and people." * From Ernest Holmes, founder of *Science of Mind*: "*Know Your Own Mind* is really a wonderful book. It very understandingly presents the high workings of the mind and the functioning of the intuition. I particularly like your idea that God speaks to man through the intuition. I can wholeheartedly well recommend *Know Your Own Mind* to all who are in search of self-development through coming better to understand its mental and spiritual truths. No one could study your book without deriving great benefit and self-advancement." -ERNEST HOLMES, founder of *Science of Mind*
