"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

h1 How Hollywood cashed in on the latest tech boom-and changed the face of Silicon Valley. A decade later, Kutcher is perhaps the brightest in a firmament of star investors from Beyoncé and Jay-Z to Jennifer Lopez and Alex Rodriguez. Bartering credibility and connections in exchange for early (and often discounted) access to the world's most coveted investment opportunities, this diverse group changed the face of venture capital while amassing portfolios packed with companies like Airbnb, Spotify, and Uber. But how did two once-dissonant universes-Silicon Valley and Hollywood-become intertwined? Forbes senior editor Zack O'Malley Greenburg told the first chapter of Kutcher's transformation for the magazine's cover story in 2016. Now he offers a lively, page-turning account of how this motley crew of talent managers, venture capitalists, and celebrities helped the creative class forge a brand-new blueprint for generational wealth. Through extensive reporting and exclusive interviews with more than 100 key players-including Shaq, Nas, Joe Montana, Sophia Bush, Steve Aoki, Tony Gonzalez, and dozens of behind-the-scenes power brokers-Greenburg sheds light on the unlikely group that fundamentally transformed the value of fame.

Valve train systems control the gas exchange in a combustion engine, which means that they represent a significant opportunity for optimizing the combustion process. Since they draw energy from the crankshaft, an efficient valve train contributes greatly to improving overall efficiency. The components of the valve train system are subjected to high loads. In addition to wear due to mechanical forces increasing combustion pressures and temperatures, in particular, place greater demands on the materials and heat dissipation of components on the combustion side. This technical book clearly and thoroughly presents a holistic understanding of the valve train system.

"I'm not a businessman-I'm a business, man." --Jay-Z Some people think Jay-Z is just another rapper. Others see him as just another celebrity/mega-star. The reality is, no matter what you think Jay-Z is, he first and foremost a business. And as much as Martha Stewart or Oprah, he has turned himself into a lifestyle. You can wake up to the local radio station playing Jay-Z's latest hit, spritz yourself with his 9IX cologne, slip on a pair of his Rocawear jeans, lace up your Reebok S. Carter sneakers, catch a Nets basketball game in the afternoon, and grab

dinner at The Spotted Pig before heading to an evening performance of the Jay-Z-backed Broadway musical Fela! and a nightcap at his 40/40 Club. He'll profit at every turn of your day. But despite Jay-Z's success, there are still many Americans whose impressions of him are foggy, outdated, or downright incorrect. Surprisingly to many, he honed his business philosophy not at a fancy B school, but on the streets of Brooklyn, New York and beyond as a drug dealer in the 1980s. Empire State of Mind tells the story behind Jay-Z's rise to the top as told by the people who lived it with him- from classmates at Brooklyn's George Westinghouse High School; to the childhood friend who got him into the drug trade; to the DJ who convinced him to stop dealing and focus on music. This book explains just how Jay-Z propelled himself from the bleak streets of Brooklyn to the heights of the business world. Zack O'Malley Greenburg draws on his one-on-one interviews with hip-hop luminaries such as DJ Clark Kent, Questlove of The Roots, Damon Dash, Fred "Fab 5 Freddy" Brathwaite, MC Serch; NBA stars Jamal Crawford and Sebastian Telfair; and recording industry executives including Craig Kallman, CEO of Atlantic Records. He also includes new information on Jay-Z's various business dealings, such as: *The feature movie about Jay-Z and his first basketball team that was filmed by Fab 5 Freddy in 2003 but never released. *The Jay-Z branded Jeep that was scrapped just before going into production. *The real story behind his association with Armand de Brignac champagne. *The financial ramifications of his marriage to Beyonce. Jay-Z's tale is compelling not just because of his celebrity, but because it embodies the rags-to-riches American dream and is a model for any entrepreneur looking to build a commercial empire.
