When Bruno Sacco walked through the doors on his first day at Mercedes-Benz on 13 January 1958, it is highly unlikely that his Daimler-Benz colleagues could ever imagine that this nervous young man would not only revolutionize design but would change the way design and innovation connected with brand tradition forever. Bruno Sacco is one of the most influential automotive designers of the late twentieth century; many models launched during his era now characterize the Mercedes-Benz brand. When Nik Greene asked Bruno Sacco to assist with this book, he replied humbly "No-one designs a car alone, and more to the point, I never, for one minute, wanted to. From the moment I became Head of Design, I put down my pens and became a manager of minds." With over 330 photographs and illustrations, this book includes an

overview of the early days of functional vehicle design and the influence of safety on design evolution. The protagonists of Daimler-Benz design from Hermann Ahrens to Paul Bracq are covered. Design philosophy and innovation under Bruno Sacco is discussed along with the Sacco-designed cars and, finally, the Bruno Sacco legacy.

Ever since their introduction in 1972, the S-Class saloons from Mercedes-Benz have been considered the pinnacle of automotive excellence. For most of that time, ownership of an S-Class - at least, of a reasonably recent one - has been symbolic of material success and of restrained yet impeccable good taste. Several other car makers have nibbled at the edges of the S-Class market, but none has produced a viable and lasting alternative to the big Benz. Mercedes-Benz S-Class 1972-2013 charts the evolution and success of the series, from the W116 model, the first to be designed from the ground up as a large luxury saloon, through to the C126 coupe, one of the all-time Mercedes-Benz classic designs. Topics covered include: development and production of the W126 saloons and classic W126 coupes; the W140 saloons in the 1990s; the 140 coupes, the W220 models and the elegant 215 coupes; the W221 models, introduced at the Frankfurt International Motor Show in 2005; the C216 coupes and the future of Mercedes-Benz S-Class. Superbly illustrated with 288 colour photographs.

The W201 was a compact saloon designed to address both concerns about fuel economy generated by the first oil crisis in the 1970s and competition for sales from the BMW 3 Series. Many doubted that Mercedes could deliver a compact car whilst retaining their traditional qualities. But the W201 soon won them over. For here was a car that was a real Mercedes in the tradition of the time - it was just smaller. With around 200 photographs, the book features the reasons behind the need to build a new compact saloon in the 1980s. It covers the styling, engineering and specification changes introduced over the lifetime of the model; gives full technical specifications, including paint and interior trim choices and

production tables and vehicle number sequences. The story of Mercedes' long and exciting struggle to win the German Touring Car Championship with the 190 is covered. There is a chapter on the special US variants and, finally, a chapter on buying and owning a 201-series Mercedes.

The Mercedes 126 S-Class of 1979-91 remains the most successful premium class saloon in the company's history and is considered by many to be one of the best cars in the world. More than quarter of a century after the last one left the factory, close to a quarter of all 126s remain registered throughout the world. This book will enable you to avoid the most common pitfalls and faults that otherwise can ruin the ownership of a 'Sonderklasse'. Packed with the sort of advice only normally obtainable from years of experience, it will act as your own personal marque expert. Specifications and valuations are included along with a detailed guide to buying the best car at the right price, and finally, how to keep your 126 fresh and reliable. This practical and instructional manual will be a valuable addition to the bookshelf of anyone owning, or aspiring to own, a 126, and is fully illustrated with 250 colour photographs.

The Mercedes 126 S-Class of 1979-1991 remains the most successful premium saloon in the company's history and is considered by many to be one of the best cars in the world. "You don't simply decide to buy an S-Class: it comes to you when fate has ordained that your life should take that course. The door closes with a reassuring clunk - and you have arrived," said the sales brochure of the first real Sonderklasse, the W116. With over 300 colour photos and production histories and specifications for both Generation One and Two models, this is an essential resource for anyone with an interest in this timeless car. The book covers an overview of the key personalities who drove the development of this model; the initial 116 Sonderklasse and its subsequent evolution; the history and personality of each model and finally detailed analysis of the different engines - both petrol and diesel. This essential resource explores both the technical and social sides of how this legend was born and is superbly illustrated with 314 colour photographs.

Designed by Mercedes's head of design Bruno Sacco, the W124 range immediately became the benchmark by which medium-sized car models were judged in the late

This volume is about Pope Francis, the diplomat. In his eight years of pontificate, Pope Francis as a peacemaker has propagated the ideas of human and divine cooperation to build a global human fraternity through his journeys outside the Vatican. This book discusses his endeavours to connect and develop a common peaceful international order between countries, faith communities, and even antagonistic communities through a peaceful journey of human beings. The book analyses his speeches, and meetings as a diplomat of peace, including his visits to Cuba and the United States, and his mediations for peace in Colombia, Myanmar, Kenya, Egypt, Turkey, Jordan, Jerusalem, the Central African Republic, Sri Lanka, and Bangladesh. It discusses the role of Pope Francis as mediator in different circumstances through his own writings, letters, and

Vatican documents; his encounters with world leaders; as well as his contributions to a universal understanding on inter-faith dialogue, climate change and the environment, and human migration and the refugee crisis. The volume also sheds light on his ideas on a post-pandemic just social order, as summarised in his 2020 encyclical. A definitive work on the diplomacy and the travels of Pope Francis, this volume will be of great interest to scholars and researchers of religious studies, peace and conflict studies, ethics and philosophy, and political science and international relations. It will be of great interest to the general reader as well.

Nothing says summer like driving a convertible. The car without a roof has always been a symbol for luxury and laissez-faire. And it still holds true today: everybody who's anybody drives "topless." The larger four-seater convertibles in particular have always been highly sought after--but they are difficult to build and have usually been made as coupés for this reason. Mercedes-Benz has always been a pioneer in this area. 'Mercedes-Benz: The Grand Cabrios & Coupes' gives us a peek at the long-standing partnership between Mercedes-Benz and Stuttgart-based photographer, Rene Staud. Carefully staged photos show graceful curves and precision down to the finest details that convey the company's dedication to a very special kind of driving pleasure. This volume presents the most important convertibles and related coupes from 100 years of Daimler automotive history. A special highlight is Daimler's new flagship, a convertible based on the new S-class that is being rolled out at the 2015 IAS. Even though summer eventually comes to an

end, and sunny days can give way to showers, this book stands for everlasting convertible adventures. AUTHOR: Photographer Rene Staud made a breakthrough with the development of his Magicflash lighting technology; this type of surface lighting helps him greatly in his ad photos for top-shelf automakers. Staud and his team continue to develop new ways to meet the highest demands of the industry in both creativity and service. He has amassed 35 years of experience in ad photography; and has literally built the image of many companies with his photos. SELLING POINTS: * Open this glorious photo book and experience the classic Mercedes-Benz convertibles and the newest models in such realistic detail, you'll want to touch them * Elegantly-staged cars that made automotive history * Breathtaking curves that make "driving topless" a delight

Two very different brothers, grow up in a close Italian-American family in a small town in Westchester County, New York. The responsible younger brother aids his reckless brother through the trials of his life. The book traces the journey of each brother through the 1960's to the present day, relating their careers, loves, and relationship with one another and the women in their lives. The story begins hundreds of years earlier with a glimpse of ancestors past, revealing very famous ties and ultimately leads to the curious events in the lives of both brothers. The simple life in the old country contributes to the paths both brothers take. There is a strong connection to Asia where one brother faces the horrors of the war in Vietnam and the other travels to China for adventure and inspiration. Cultures and

national heritage enrich the human interactions and connections between friends, families and lovers and show that different backgrounds are less important to relationships than human emotions.

This detailed and beautifully illustrated book covers the Mercedes-Benz 107 series, which ran from 1971 to 1989. Codenamed W460, the iconic Mercedes-Benz G-Wagen, with its boxy, square edged no frills look, set out to be Stuttgart's answer to the Range Rover. However, by going back to Gottlieb Daimler's premise of "Nothing but the best," it quickly took its place throughout the world as "The Best 4X4." This Essential Buyer's Guide will navigate you through the various model changes, starting from the simple hand-built W460, through to the more luxurious market of the W463. You will find details of model changes, engine specifications, and issues that you may come across when looking to buying one of the best purpose-made vehicles around. Nik Greene has written many feature articles and regular copy for popular classic car and club magazines in the UK and France, and his passion for Mercedes cars has steered him towards researching and writing for one of the elite motor manufacturers. Having restored many cars, his present stable of cars includes the Mercedes W126 S-Class 560SE and his beloved Mercedes G-Wagen, as well as several classic Citroens and Renaults.
