Just what motivates a writer to write, anyway? Is it a need to expiate past experiences, an apprehension for the direction of the future, a need to slough off inner thoughts not acceptable to voice out loud? The Cathedral Mall plays out in a real-life futuristic city constructed around a mall which provides everything, including stores, clinics, restaurants and bookstores. The suburbs are called "passageways" and go from the city to the end of civilization, out where the city ends, and war begins. Sandoval and Sandra are hunted for trying to exit La Catedral Mall without making a purchase, a capital offense in a world where buying is a religion. "Buy for your future. Buying is our future." Chants a muezzin-type crier over the sound system of the mall named La Catedral which may have been a synagogue in the past. Sandoval gets to the city limits and there sees people who try unsuccessfully to enter, where he finds he can no longer be the person he was and seeks refuge in his father's writings which spoke of another past, another world. A meld of science fiction and social commentary. A novel for the new millennium.

The unbuttoned, unkempt, unlikely fiction of Pierre Siniac is a slap in the face of the traditional crime novel, and The Collaborators is his best and most hilarious book...

Dr Jacob Chikuhwa continues with his academic analysis of both the political and economic developments in Zimbabwe. Supported by well researched historical narrative and economic data, Zimbabwe: The End of the First Republic examines the triumphs and tribulations of the Zimbabwean national project leading to the adoption of a home-grown constitution and the July 31, 2013 elections. Although the war of liberation led to Zimbabwe's independence in 1980, it has not established democracy, functioning health and education systems and equal opportunities for Zimbabweans. What Zimbabweans experience is decay of infrastructure with very little in the state coffers despite abundant natural resources. The theme on economic performance focuses on numerous failed economic blueprints that began with the Economic Structural Adjustment Programme during the early 1990s. The haphazard land-reform programme and the exploitation of mineral resources take centre stage. While Zimbabwe is poised to supply 25% of world diamond output, the way tenders are being awarded for the diamond mining has highlighted the need for accountability and transparency. Before the coalition government was formed in 2009, the country had gone from being one of Africa's strongest economies to one of its weakest — as Zimbabweans grappled with hyperinflation, mass unemployment and widespread poverty. Although the Short Term Emergency Recovery Programme brought some semblance of economic stability, the way indigenisation and economic empowerment are being carried out make investors shun the southern African country. Chikuhwa's economic study focuses on how corruption and a lack of transparency and accountability in Zimbabwe's governance have intensified social problems, crime and poverty, and have alienated the IMF and World Bank as well as potential foreign investors. This study, rich in statistical data and heartfelt commentary, will serve as a useful introduction for those studying Zimbabwe's recent history and economic development and entrepreneurs looking for investment opportunities.

Una aportación innovadora a la ética de la información: en este libro se demuestra que el silencio también habla. «Anoche fue encontrado el cadáver de Eustasio Peláez en una calle del polígono industrial C-40. Momentos antes se había visto por el lugar a Higinio Gurméndez, con el que tenía un litigio por unas tierras». Puede ocurrir que esos dos hechos sean ciertos, y que sin embargo se derive de ellos una interpretación falsa. Porque el lector entenderá algo que no se ha dicho... pero se ha querido decir. ¿Qué debe hacer un juez en un caso así? ¿Se puede condenar a un periodista por contar hechos verdaderos? Álex Grijelmo ha escrito ya siete libros sobre periodismo y sobre divulgación lingüística, pero éste es distinto de los anteriores. En La información del silencio, no se trata tanto de introducir al lector en el conocimiento del mundo de la lengua #aunque ese propósito también se consigue# como de construir una teoría sólida sobre las manipulaciones informativas basadas en trucos de silencio: esa forma de decir callando, de contar medias verdades. Tras un recorrido lleno de ejemplos para explicar los significados del silencio tanto en el cine como en la literatura, en la retórica, en la música..., la obra se centra en la rama de la lingüística conocida como pragmática, que estudia el sentido de lo que decimos más allá de su significado. Y edifica así un armazón teórico para aplicarlo en los últimos capítulos, referidos ya al periodismo y a sus trampas. Este libro constituye, por tanto, una aportación innovadora a la ética de la información, porque demuestra que el silencio también habla, y que el silencio puede mentir; y que los jueces no lo escuchan.
