

## Message To The Blackman In America

This title addresses the creation of God, the New World, and what's referred to as the "metaphysical" side of Elijah Muhammad's teaching. It eloquently delves into the subject of form and spirit in the simplest terms. The relationship of Jesus, Joseph and Mary is given a critical analysis as it relates to blacks in America.

For more than 30 years, messenger Elijah Muhammad has been teaching the so-called Negroes of America on the proper foods to eat to improve their mental power, physical appearance, for prevention of illness, curing of ailments and prolonging life. Given the humble, economic conditions of the blacks in America, an inexpensive, yet highly nutritional diet was given to them by Elijah Muhammad. Before the health craze that has swept the country, Elijah Muhammad and the Nation of Islam were head of the curve as far back as the early 30's. This is the second of two books written with this simple, yet revolutionary way of eating.

Yakub is a Black Scientist introduced to the public by Elijah Muhammad. Elijah Muhammad told of his history as being the father of mankind or the maker of the white race. This teaching proved to be one of the most explosive within the Nation of Islam's theological and mathematical doctrine. Thought to be a myth, especially among those who gravitated more towards Orthodox Islam, which by the way, don't accept Elijah Muhammad as being authentic, but since the cloning of the sheep Dolly and other organic species, the facts that Elijah Muhammad attributed to this man cannot be discounted unless we all suddenly agree that "Dolly" never happened.

Do you know who - and what - you are? Do you know who you're meant to be? Do you know how to find the answers to questions like these? Knowledge of Self is the result of a process of self-discovery, but few of us know where to begin when we're ready to start looking deeper. Although self-actualization is the highest of all human needs, it is said that only 5% of people ever attain this goal. In the culture of the Nation of Gods and Earths, commonly known as the Five Percent, students are instructed that they must first learn themselves, then their worlds, and then what they must do in order to transform their world for the better. This often intense process has produced thousands of revolutionary thinkers in otherwise desperate environments, where poverty and hopelessness dominate. Until now, few mainstream publications have captured the brilliant yet practical perspectives of these luminary men and women. Knowledge of Self: A Collection of Writings on the Science of Everything in Life presents the thoughts of Five Percenters, both young and old, male and female, from all over the globe, in their own words. Through essays, poems, and even how-to articles, this anthology presents readers with an accurate portrait of what the Five Percent study and teach, as well as sound direction on how to answer timeless questions like: Who am I, and why am I here? Why is there so much injustice in the world, and what can be done about it? Who is God and where on Earth is he? How do I improve myself without losing myself? Why are people of color in the situations they're in? What can we do about the global problems of racism and poverty?

For thousands of years, the people who did not have the knowledge of the person, or reality of God, worshipped their own ideas of God. He has been made like many things other than what He really is.... We therefore can reason that if we don't know the Creator, then we don't understand His Creation or the laws and principles that govern it. All prophets, sages, gurus and persons of knowledge was, is and shall be governed and subject to these laws; this should clue us in on the fact that these same natural laws of the Creator can serve as a criteria or standard of judgment. If what you believe doesn't correspond to this standard - which transcends time and geography - it has no place in it. In other words, the only way a person can walk on water is symbolically or the water would have to be ice; otherwise, it doesn't correspond to the Creator's law governing this creation. It then fits into the category of untruths. This book teaches you about the house rules.

A white writer recounts his experiences in the American South following treatments that darkened his skin and shares his thoughts on the problems of prejudice and racial injustice.

A compelling dual biography of two complex men, Malcolm X and Dr Martin Luther King.

This title is the first of two volumes of a comprehensive overview of the Nation of Islam's policies, positions and practices.

Since the Nation of Islam has been known to the public, the question of Elijah Muhammad's teacher has been at the top of the inquirer's want to know list. His disappearance and the never ending insistence by Elijah Muhammad, that his teacher was in fact God in person. This title examines Elijah Muhammad's historical, empirical as well as theological positions regarding Master Fard Muhammad's birth and whereabouts. The arguments are quite enlightening.

This groundbreaking study of race, religion and popular culture in the 21st century United States focuses on a new concept, "Muslim Cool." Muslim Cool is a way of being an American Muslim—displayed in ideas, dress, social activism in the 'hood, and in complex relationships to state power. Constructed through hip hop and the performance of Blackness, Muslim Cool is a way of engaging with the Black American experience by both Black and non-Black young Muslims that challenges racist norms in the U.S. as well as dominant ethnic and religious structures within American Muslim communities. Drawing on over two years of ethnographic research, Su'ad Abdul Khabeer illuminates the ways in which young and multiethnic U.S. Muslims draw on Blackness to construct their identities as Muslims. This is a form of critical Muslim self-making that builds on interconnections and intersections, rather than divisions between "Black" and "Muslim." Thus, by countering the notion that Blackness and the Muslim experience are fundamentally different, Muslim Cool poses a critical challenge to dominant ideas that Muslims are "foreign" to the United States and puts Blackness at the center of the study of American Islam. Yet Muslim Cool also demonstrates that connections to Blackness made through hip hop are critical and contested—critical because they push back against the pervasive phenomenon of anti-Blackness and contested because questions of race, class, gender, and nationality continue to complicate self-making in the United States.

Woodson's classic work of criticism explores how the education received by blacks has failed to give them an appreciation of themselves as a race and their contributions to history. Woodson puts forward a program that calls for the educated to learn about their past and serve the black community. (Education/Teaching)

Just this once . . . Please let me get away with it just this once . . . Tobey wants a better life - for him and his girlfriend Callie Rose. He wants nothing to do with the gangs that rule the world he lives in. But when he's offered the chance to earn some money just for making a few 'deliveries', just this once, would it hurt to say 'yes'? One small decision can change everything . . . The fourth novel in Malorie Blackman's powerful Noughts & Crosses sequence.

True Islam's 1997 cult classic is back in print in a new, revised edition. The Book of God has been called 'the bible of the Black God,' as it presents a wide range of scientific, historical, and scriptural evidence demonstrating that the Original Black Man is the God of the world's religious traditions, from the religious traditions of the Ancient Near and Far East such as Kemet (Egypt) and India to the Biblical religions and Islam. The Book of God answers such questions as: How is the Black Man God and what does this mean? What is God's relationship to spirit and matter? What does Albert Einstein's mathematical revelation E=mc2 have to do with the Reality of God? If the Original Black Man is God, Who is the Original Black Woman? Is there evidence of the reality of the Twenty Four Scientists? Who is Master Fard Muhammad? Was he

actually an ex-con named Wallie Ford who served time in San Quentin on a drug charge? And more. The Book of God also demonstrates that: The God of the ancient religious traditions around the world was a self-created Black God. The Six Days of Creation in the book of Genesis chronicles the Black God's Six Trillion year evolution. The ancient sacred texts of the Original Man and Woman from around the world agree with the Hon. Elijah Muhammad's Teaching on God. The fields of Genetics and Hebrew Sacred Tradition converge to reveal that the Essence of the Creator inhabits the very genetic makeup of the Original Man and Woman. The Secret of the ancient Mysteries, the Masonic Lodge and Shrine, and the Church of Rome is the Reality of the Black God. Astrophysical evidence and ancient tradition converge to support the Hon. Elijah Muhammad's teaching on the Deportation of the Moon by a Black God. And much more.

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

This title deals with many prophetic and well as historical aspects of Elijah Muhammad's teaching. It chronologically cites various aspects of American history, its actions pertaining to the establishment and treatment of its once slaves, which is shown to be a significant cause of America's fall.

In *The Tears of the Black Man*, award-winning author Alain Mabanckou explores what it means to be black in the world today. Mabanckou confronts the long and entangled history of Africa, France, and the United States as it has been shaped by slavery, colonialism, and their legacy today. Without ignoring the injustices and prejudice still facing blacks, he distances himself from resentment and victimhood, arguing that focusing too intensely on the crimes of the past is limiting. Instead, it is time to ask: Now what? Embracing the challenges faced by ethnic minority communities today, *The Tears of the Black Man* looks to the future, choosing to believe that the history of Africa has yet to be written and seeking a path toward affirmation and reconciliation.

**INSTANT NEW YORK TIMES BESTSELLER** An urgent primer on race and racism, from the host of the viral hit video series "Uncomfortable Conversations with a Black Man" "You cannot fix a problem you do not know you have." So begins Emmanuel Acho in his essential guide to the truths Americans need to know to address the systemic racism that has recently electrified protests in all fifty states. "There is a fix," Acho says. "But in order to access it, we're going to have to have some uncomfortable conversations." In *Uncomfortable Conversations With a Black Man*, Acho takes on all the questions, large and small, insensitive and taboo, many white Americans are afraid to ask—yet which all Americans need the answers to, now more than ever. With the same open-hearted generosity that has made his video series a phenomenon, Acho explains the vital core of such fraught concepts as white privilege, cultural appropriation, and "reverse racism." In his own words, he provides a space of compassion and understanding in a discussion that can lack both. He asks only for the reader's curiosity—but along the way, he will galvanize all of us to join the antiracist fight.

"In this book, ... Messenger Elijah Muhammad ... follows the tradition of the prophets and apostles teaching as they did not only of spiritual enlightenment but also of physical well-being. We now have the opportunity of eating with a Divine man of God as the disciples ate with Jesus"--Introduction, page 4 of cover.

**\*\*One of Time's 32 Books You Need to Read This Summer\*\*** An NPR Best Book of 2019 An "electrifying" (Publishers Weekly) debut novel from Rhodes Scholar and winner of the Caine Prize for African Writing about a Nigerian family living in Utah and their uneasy assimilation to American life. Living in small-town Utah has always been an uncomfortable fit for Tunde Akinola's family, especially for his Nigeria-born parents. Though Tunde speaks English with a Midwestern accent, he can't escape the children who rub his skin and ask why the black won't come off. As he struggles to fit in, he finds little solace from his parents who are grappling with their own issues. Tunde's father, ever the optimist, works tirelessly chasing his American dream while his wife, lonely in Utah without family and friends, sinks deeper into schizophrenia. Then one otherwise-ordinary morning, Tunde's mother wakes him with a hug, bundles him and his baby brother into the car, and takes them away from the only home they've ever known. But running away doesn't bring her, or her children, any relief; once Tunde's father tracks them down, she flees to Nigeria, and Tunde never feels at home again. He spends the rest of his childhood and young adulthood searching for connection—to the wary stepmother and stepbrothers he gains when his father remarries; to the Utah residents who mock his father's accent; to evangelical religion; to his Texas middle school's crowd of African-Americans; to the fraternity brothers of his historically black college. In so doing, he discovers something that sends him on a journey away from everything he has known. Sweeping, stirring, and perspective-shifting, *A Particular Kind of Black Man* is "wild, vulnerable, lived...A study of the particulate self, the self as a constellation of moving parts" (The New York Times Book Review).

Messenger Elijah Muhammad was considered, by the national as well as the international press, as one of the most inaccessible men in America; if the press, white or Negro, wanted to see Elijah Muhammad, they had to come to him: a degree of significance earned by Messenger Muhammad, and commanded by integrity. In an effort to ensure the clarity and sanctity of his message and history, this book draws from his own words to explain and elaborate on sensitive subjects like his mission, domestic life, family, and his relationship with his teacher, Master Fard Muhammad. It also delves into his relationship to other prophets, the paralleled work accomplished to substantiate his fulfillment, and important unpublished writings from his desk surrounding controversial matters perpetuated in today's public media.

This book is a inspirational daily devotional to lift the hearts of African American men.

A True History of Jesus, his birth, death and what it means, which also goes into symbolic interpretation of his second coming and how it relates to black people in America. This title was originally written by Elijah Muhammad in the Nation of Islam's official newspaper, *Muhammad Speaks* as a 22 part series. This book is the complete series. The history of Jesus, Joseph (his real father) and mother, Mary, is given an exceptional analysis in the excellently written book.

"When Damon Tweedy first enters the halls of Duke University Medical School on a full scholarship, he envisions a bright future where his segregated, working class background will become largely irrelevant. Instead, he finds that he has joined a new world where race is front and center. When one of his first professors mistakes him for a maintenance worker, it is a moment that crystallizes the challenges he will face throughout his early career. Making matters worse, in lecture after lecture the common refrain for numerous diseases resounds: "more common in blacks than whites." [This book] examines the complex ways in which both black doctors and patients must navigate the difficult and often contradictory terrain of race and medicine"--

Instant #1 New York Times Bestseller A People Book of the Week, Book of the Month Club selection, and Best of Fall in Good Housekeeping, PopSugar, The Washington Post, New York Post, Shondaland, CNN, and more! "[A] quirky, big-hearted novel...Wry, wise, and often laugh-out-loud funny, it's a wholly original story that delivers pure pleasure." —People From the #1 New York Times bestselling author of *A Man Called Ove* comes a charming, poignant novel about a crime that never took place, a would-be bank robber who disappears into thin air, and eight extremely anxious strangers who find they have more in common than they ever imagined. Looking at real estate isn't usually a life-or-death situation, but an apartment open house becomes just that when a failed bank robber bursts in and takes a group of strangers hostage. The captives include a recently retired couple who relentlessly hunt down fixer-uppers to avoid the painful truth that they can't fix their own marriage. There's a wealthy bank director who has been too busy to care about anyone else and a young couple who are about to have their first child but can't seem to agree on anything, from where they want to live to how they met in the first place. Add to the mix an eighty-seven-year-old woman who has lived long enough not to be afraid of someone waving a gun in her face, a flustered but still-ready-to-make-a-deal real estate agent, and a mystery man who has locked himself in the apartment's only bathroom, and you've got the worst group of hostages in the world. Each of them carries a lifetime of grievances, hurts, secrets, and passions that are ready to boil over. None of them is entirely who they appear to be. And all of them—the bank robber included—desperately crave some sort of rescue. As the authorities and the media surround the premises these reluctant allies will reveal surprising truths about themselves and set in motion a chain of events so unexpected that even they can hardly explain what happens next. Rich with Fredrik Backman's "pitch-perfect dialogue and an unparalleled understanding of human nature" (Shelf Awareness), *Anxious People* is an ingeniously constructed story about the enduring power of friendship, forgiveness, and hope—the things that save us, even in the most anxious times.

Widely acclaimed as one of the finest books ever written on race and class divisions in America, this powerful novel reflects the forces of poverty, injustice, and hopelessness that continue to shape our society. Copyright © Libri GmbH. All rights reserved. Indeed a message to every black man. A must read for every politician. Out of Africa comes a book that explodes with outrage. Out of Africa comes an impassioned cry for union. Not since *Mein Kampf* has such a controversial viewpoint on Nationalism and Race been so candidly stated by an author. Not since *The Little Red Book* does a Manifesto written By one man have the potential to change the lives of so many. Not since *The Communist Manifesto* has anyone dared to demand such responsibility for their own reality from the "oppressed masses"

The patriarchal structure of the Nation of Islam (NOI) promised black women the prospect of finding a provider and a protector among the organization's men, who were fiercely committed to these masculine roles. Black women's experience in the NOI, however, has largely remained on the periphery of scholarship. Here, Ula Taylor documents their struggle to escape the devaluation of black womanhood while also clinging to the empowering promises of patriarchy. Taylor shows how, despite being relegated to a lifestyle that did not encourage working outside of the home, NOI women

found freedom in being able to bypass the degrading experiences connected to labor performed largely by working-class black women and in raising and educating their children in racially affirming environments. Telling the stories of women like Clara Poole (wife of Elijah Muhammad) and Burnsteen Sharrieff (secretary to W. D. Fard, founder of the Allah Temple of Islam), Taylor offers a compelling narrative that explains how their decision to join a homegrown, male-controlled Islamic movement was a complicated act of self-preservation and self-love in Jim Crow America.
