Michael Schumacher, born on 3rd January 1969, Hürth, North Rhine-Westphalia, West Germany, is a retired racing driver who raced in Formula One for Jordan Grand Prix, Benetton and Ferrari, where he spent most of his career, followed by Mercedes upon his return to the sport. Widely regarded as one of the greatest Formula One drivers ever, Schumacher is the only driver in history to win 7 Formula One World Championships, 5 of which he won successively. Michael also holds the records for the most Grand Prix wins (91), the most fastest laps (77) and the most races won in a single season (13), being "statistically the greatest driver the sport has ever seen" at the time of his retirement from the sport, as stated on the official Formula One website.

Michael Schumacher is the outstanding Formula One driver of his generation and, statistically, the greatest ever. Gifted with a rare blend of superior ability and nerve that defines a champion, his performances have captured the imagination of fans all over the world. For 15 seasons, he has left rivals trailing in his wake, winning an unprecedented seven world drivers' championships. But he is a controversial figure, feared for his ruthless tactics, despised for using extreme methods in pursuit of his goals. The Edge of Greatness examines Schumacher's entire career: from his first Grand Prix with Jordan to his Benetton world championships and his attempt to win back Ferrari's crown. It tells the story behind Schumacher's record five consecutive world titles, uncovers the secrets of how he has stayed at the top for so long and examines the impact of his domination on the sport. Now, on his retirement from the sport, it is time to reappraise the man behind the tabloid stereotype. Frank, honest, adroit and in-depth - James Allen reveals the anatomy of a champion.

In the late eighties and early nineties, Formula One was at its most explosive, with thrilling races, charismatic drivers, nail-biting climaxes - and the most deadly rivalry ever witnessed in sport. Two of Formula One's most honoured champions and iconic figures drove together for McLaren for two seasons, and their acrimonious and hostile relationship extended even after one of them had left the team. ALAIN PROST, France's only F1 world champion, the intelligent, smooth driver with the epithet 'Le Professeur'. AYRTON SENNA, the mercurial kid from a privileged background in Sao Paulo who would become the most intense and ruthless

racing driver the world has ever seen. It was a story that would have a tragic ending. As the great rivals raced to victory, their relationship deteriorated badly, beginning with the breaking of a gentleman's agreement, and public spats followed, culminating in Prost accusing Senna of deliberately trying to ride him off the circuit, and fearful that the Brazilian would get someone killed with his daring overtaking feats. And the final, sad act of this drama happened at the San Marino Grand prix at Imola in May 1994, when Senna was killed. Featuring a rare interview with Prost, and insight from Martin Brundle, Damon Hill, Sir Frank Williams, Bernie Ecclestone, Derek Warrick, Johnny Herbert, Gerhard Berger, plus McLaren insiders and other F1 figures, Malcolm Folley provides us with a breath-taking account of one of the all-time classic sporting rivalries.

Johnny Herbert was one of the most brilliant natural talents to emerge in motor racing, but for all his bravery and prowess, he's lucky to be alive. After becoming British Junior Karting Champion (losing part of a finger in the process), then the Formula 3 title for Eddie Jordan in 1987, he was all set for a glittering debut season in Formula 1 when he was caught in a mass pile-up at Brands Hatch. That horrific crash threatened to end his career, but Herbert made a miraculous recovery, was a hugely popular winner of the British Grand Prix in 1995, and enjoyed 25 years of competitive motorsport, becoming the only British driver to win the 24 hours of Le Mans followed by a Grand Prix. And all that despite driving every pace in extreme pain; in fact, as the first and only disabled driver in F1 history. While chronicling an extraordinary life behind the wheel with cheer and his trademark cheeky humour, *What Doesn't Kill You...* contains a wealth of stories from the hard end of Formula 1 - on Johnny's team-mate Michael Schumacher, legends like Ayrton Senna and Alain Prost, his fellow British adversaries Damon Hill, Martin Brundle and Nigel Mansell, and of course all those gruesome accidents. With an encyclopaedic knowledge and love of the sport, Johnny Herbert's autobiography, much like the man himself, delivers brilliance from the back of the grid.

Formula One is speed, glamour, danger - and eye-watering wealth. *Driven: The Men Who Made Formula One* tells how a small group of extraordinary men transformed Formula One from a niche sport played out on primitive tracks surrounded by hay bales and grass verges into a £1 billion circus performing in vast theatres of entertainment all over the world. Led by Bernie Ecclestone, the billionaire ringmaster, this clique started by scraping a living to go racing and ended up creating space-age cars, turning drivers from amateur gladiators into multimillion-pound superstars, like Ayrton Senna and Lewis Hamilton, while the names of Ferrari, McLaren and Williams are now as familiar around the world as Manchester United or Real Madrid. For 20 years, Kevin Eason watched how these men operated like a sporting Mafia, protecting each other while squabbling over the vast wealth pouring into the sport. As motor racing correspondent for *The Times* and then with *The Sunday Times*, Eason was privileged to have a ringside seat as this cabal of wealthy characters ruled and then were pushed out of the sport they created. This colourful and compelling account of the extraordinary flourishing of Formula One explores the quirks and extravagances of the men who converged - in one generation - to shape their sport; disparate characters with a common impulse: they were racers - and they were driven.

Total Competition is the most compelling, comprehensive and revealing insight into what it takes to get to the top in Formula One that has ever been published. Across four decades, Ross Brawn was one of the most innovative and successful technical directors and then team principals in Formula One. Leading Benetton, Ferrari, Honda, Brawn and Mercedes, he worked with drivers such as Michael Schumacher, Jenson Button and Lewis Hamilton to make them world champions. In 2017, he was appointed F1's managing director, motor sports, by the sport's new owners Liberty Media. Now, in this fascinating book written with Adam Parr (who was CEO and then chairman of Williams for five years), he looks back over his career and methods to assess how he did it, and where occasionally he got things wrong. Total Competition is a definitive portrait of modern motorsport. In the book, Brawn and Parr explore the unique pressures of Formula One, their battles with Bernie Ecclestone, and the cut-throat world they inhabited, where coming second is never good enough. This book will appeal not only to the millions of Formula One fans who want to understand how Brawn operates, it will also provide many lessons in how to achieve your own business goals. One of The Washington Post's 50 Most Notable Works of Fiction in 2018 The slings and arrows of outrageous fortune keep hitting beleaguered English professor Jason Fitger right between the eyes in this hilarious and eagerly awaited sequel to the cult classic of anhedonic academe, the Thurber Prize-winning Dear Committee Members. Once more into the breach... Now is the fall of his discontent, as Jason Fitger, newly appointed chair of the English Department of Payne University, takes arms against a sea of troubles, personal and institutional. His ex-wife is sleeping with the dean who must approve whatever modest initiatives he undertakes. The fearsome department secretary Fran clearly runs the show (when not taking in rescue parrots and dogs) and holds plenty of secrets she's not sharing. The lavishly funded Econ Department keeps siphoning off English's meager resources and has

taken aim at its remaining office space. And Fitger's attempt to get a mossbacked and antediluvian Shakespeare scholar to retire backfires spectacularly when the press concludes that the Bard is being kicked to the curricular curb. Lord, what fools these mortals be! Julie Schumacher proves the point and makes the most of it in this delicious romp of satire. Murray Walker is a national institution. The turbotongued motor-racing commentator who played a key role in the shaping of Formula One's televised image over the past three decades, Murray's unique brand of boyish enthusiasm made even the dullest race sound like an unmissable thriller. There was no one remotely like him on television -- and the public loved him.

Michael Schumacher has established himself as the outstanding Grand Prix driver of the 1990s. He has dominated the sport like no other driver since Fangio in the 1950s. By the start of the 1997 season, experts and onlookers alike regarded him as the best around, untouchable on his day, able to win races against drivers in superior machinery, able to master changing conditions while the others get confused. He demonstrated the rare blend of exceptional ability and nerve that defines a champion in any sport. He seemed to be on the brink of winning the World Championship. Then, in a split second at Jerez, everything changed. In an incident which was to be replayed and analysed time and again throughout the world's media, Schumacher's Ferrari collided with Williams, putting arch rival Villeneuve out of the race. Schumacher shrugged off what he called a 'mistake'. The press thought otherwise. By the next day he was cast as a villain in the eyes of the world. Under pressure to act, the FIA punished Schumacher severely. He became the first man in the history of the sport to be removed from the championship results for unsportsmanlike driving. At the start of the 1998 season Schumacher found himself playing the role of outcast. Armed with a more competitive Ferrari and with a passionate tea behind him, was it still possible for him to confirm his unique talent, to win races and, possibly, to win the Championship outright? Backed with the full co-operation of Schumacher and his staff, ITV pits commentator James Allen will give the full inside story of Ferrari's 1998 season - a year that could well see the redemption of Michael Schumacher. In the high-octane atmosphere of the Formula One pit lane, the spotlight is most often on the superstar drivers. And yet, without the technical knowledge, competitive determination and outright obsession from his garage of mechanics, no driver could possibly hope to claim a spot on the podium. These are the guys who make every World Champion, and any mistakes can have critical consequences. That's not to say the F1 crew is just a group of highly skilled technical engineers, tweaking machinery in wind tunnels and crunching data through high-spec computers. These boys can seriously let their hair down. Whether it be parties on luxury yachts in Monaco or elaborate photo opportunities in gravity-defying aeroplanes, this is a world which thrills on and off the track. Join McLaren's former number-one mechanic, Marc 'Elvis' Priestley as he tours the world, revealing some of Formula One's most outrageous secrets and the fiercest rivalries, all fuelled by the determination to win. This is Formula One as you've never seen it before.

On Thursday, November 6, the Detroit News forecasted "moderate to brisk" winds for the Great Lakes. On Friday, the Port Huron Times-Herald predicted a "moderately severe" storm. Hourly the warnings became more and more dire. Weather forecasting was in its infancy, however, and radio communication was not much better; by the time it became clear that a freshwater hurricane of epic proportions was developing, the storm was well on its way to becoming the deadliest in Great Lakes maritime history. The ultimate story of man versus nature, November's Fury recounts the dramatic events that unfolded over those four days in 1913, as captains eager—or at times forced—to finish the season tried to outrun the massive storm that sank, stranded, or demolished dozens of boats and claimed the lives of more than 250 sailors. This is an account of incredible seamanship under impossible conditions, of inexplicable blunders, heroic rescue efforts, and the sad aftermath of recovering bodies

washed ashore and paying tribute to those lost at sea. It is a tragedy made all the more real by the voices of men—now long deceased—who sailed through and survived the storm, and by a remarkable array of photographs documenting the phenomenal damage this not-so-perfect storm wreaked. The consummate storyteller of Great Lakes lore, Michael Schumacher at long last brings this violent storm to terrifying life, from its first stirrings through its slow-mounting destructive fury to its profound aftereffects, many still felt to this day.

The author of this book, a motorsport writer, looks at Michael Schumacher, who in 1994 has risen from relative obscurity to become the dominant force in Formula 1.

In his trademark straight-talking, no-nonsense style Mark Webber reveals his amazing life on and off the Formula One race track in *Aussie Grit*. Mark Webber was at the centre of one of the most captivating chapters in the history of Formula One. In 2010, while racing for Red Bull, he and his team mate Sebastian Vettel went head to head for the World Championship. There could only be one winner. Since retiring from Formula One Mark has concentrated on endurance racing, including the legendary Le Mans 24 Hour race. He hit the front pages of newspapers around the world in December 2014 when he slammed into the barricades in the final round of the FIA World Endurance Championship in South America, and was lucky to escape with his life. But the controversy of his relationship on and off the track with Vettel, who went on to win multiple world titles, has never been far beneath the surface. Here, for the first time, Webber tells the inside story of one of Formula One's most intriguing battles – it is a story that goes to the heart of why the sport is loved by millions of fans around the world. From his first taste of karting to his F1 debut in 2002, scoring Minardi's first points in three years at the Australian Grand Prix, through to his first win with Red Bull at the 2009 German Grand Prix and the year he should have been crowned World Champion. Mark Webber's journey to the top of Formula One was every bit as determined and committed as his racing. *Aussie Grit* is his searingly honest story. Includes a foreword by Formula One legend Sir Jackie Stewart.

Juan Manuel Fangio's name is indelibly inscribed in the record books and many consider him to be the greatest driver in history. It was 46 years before his record of five World Championships was beaten, but even now he is still remembered

for an exceptional Formula 1 career which contained some of the greatest displays of skill and daring ever seen. Few though know of his almost super-human exploits in epic South American road races that made competition at the pinnacle of motor sport seem like child's play. Gerald Donaldson chronicles not only those arduous early competitions but also his long journey from humble origins in remote Argentina to the lofty heights of international celebrity.

Gilles Villeneuve became a legend in his own time, a driver whose skill and daring personified the ideals of Grand Prix racing, the pinnacle of motor sport. With his flamboyantly aggressive, press-on-regardless style in his scarlet Ferrari, he captured the imagination of a vast international audience as no other driver has in recent times.

This text examines the business and finances of Formula One. It looks at the interplay between the businesses and financiers of the sport, the organizations and vested interests that control Formula One, the manufacturers and sponsors that invest huge sums, the millionaire drivers, the role of the media, and the cutting edge technology invented and installed into the cars.

This work chronicles the entry of Jean Alesi into the Formula 1 in 1989, and the chaos that it caused, with several top teams suddenly chasing him. It probes his early years of frustrations with Ferrari, and his own dramatic performance in 1995. After finishing as runner-up three times in the drivers' world championship, in 1992 Mansell finally secured the title. It was the crowning achievement of a hugely successful career, in which he won 31 Grand Prix, a record for a British driver that stood until Lewis Hamilton overhauled him in 2014. Always an aggressive driver, his exciting style meant he was hailed as a hero by his millions of fans in the UK and around the world. Out of the car, he was outspoken and charismatic, which merely served to enhance his reputation. Now, 20 years after he retired from F1, Mansell looks back on a stellar career in which he battled against many legends of the sport, from Lauda through the Senna and Prost years and on to Schumacher. He provides vivid insights into what it was like to race against those greats in an era when the risks to drivers were enormous. He explains what motivated him to get to the top, and takes the reader behind the scenes to give an unrivalled insight into the sport and the key moments of his career. Still closely involved in Formula One, Mansell assesses how F1 has changed, and gives his authoritative verdict on the sport, the cars and the drivers. It is an unmissable account from one of Britain's greatest sporting heroes.

The formative years of the 1950s are explored in this fourth installment of Evro's decade-by-decade series covering all Formula 1 cars and teams. When the World Championship was first held in 1950, red Italian cars predominated, from Alfa Romeo, Ferrari and Maserati, and continued to do so for much of the period. But by the time the decade closed, green British cars were in their ascendancy, first Vanwall and then rear-engined Cooper playing the starring roles, and BRM and Lotus having walk-on parts. As for drivers, one stood out above the others, Argentine Juan Manuel Fangio, becoming World Champion five times. Much of

the fascination of this era also lies in its numerous privateers and also-rans, all of which receive their due coverage in this complete work. Year-by-year treatment covers each season in fascinating depth, running through the teams -- and their various cars -- in order of importance. Alfa Romeo's supercharged 1 1/2-litre cars dominated the first two years, with titles won by Giuseppe Farina (1950) and Fangio (1951). The new marque of Ferrari steamrolled the opposition in two seasons run to Formula 2 rules (1952-53), Alberto Ascari becoming champion both times, and the same manufacturer took two more crowns with Fangio (1956) and Mike Hawthorn (1958). Maserati's fabulous 250F, the decade's most significant racing car, propelled Fangio to two more of his five championships (1954 and 1957). German manufacturer Mercedes-Benz stepped briefly into Formula 1 (1954-55) and won almost everything with Fangio and up-and-coming Stirling Moss. Green finally beat red when the Vanwalls, driven by Moss and Tony Brooks, won the inaugural constructors' title (1958). Then along came Cooper, rear-engine pioneers, to signpost Formula 1's future when Jack Brabham became World Champion (1959).

What would old fairy tales have been like had the women been more empowered? What would have happened had Red Riding Hood been the hunter and the Big Bad Wolf been in love with her? What would have happened had Goldilocks been made into an indentured servant to pay for the damage she had done to the Three Bear's house? What if Prince Charming was an incompetent jerk and Rapunzel knew exactly what she was doing when she decided to seduce him in order to escape her tower? Gather around the fire and listen to old tales from the tongue of yet another bard. Meet Selena, who didn't want to be born a girl. It's inconvenient, complicated and frustrating. She would rather be out hunting in the forest than looking for a husband and producing babies. No one understood why it was so hard for her to do what was expected of her. She thinks life would be so much easier if she were a wolf. She goes with her father to find out why all the wildlife is disappearing. In order to put her father's mind at ease, she encourages him to treat her as a son, and he christens her with a new name: Faolan, Little Wolf.

When the Brawn GP team rose Phoenix-like from the dying embers of the Honda Formula 1 operation, it caused a sensation. The team humiliated Ferrari and McLaren winning the Constructors' World Championship and Jenson Button, written off by many, finished the 2009 season as World Champion.

Between 1997 and 2014, Tom Kristensen won the world's toughest motor race, the Le Mans 24 Hours, a record nine times and finished on the podium on five more occasions. Every time his car made it to the finish, in fact, he was in the top three. It is no wonder that this great sports car driver is known as 'Mr Le Mans' to motorsport fans around the world. Now retired from racing, Kristensen shares in this book his deepest personal reflections and insights from inside and outside the cockpit. He looks back on more than 30 years spent striving for perfection in racing and tells of the battles and setbacks that sometimes seemed impossible to

overcome, including a terrible accident in 2007. Climbing the racing ladder, from karting into Formula 3 single-seaters, including championship titles in Germany (1991) and Japan (1993), then Formula 3000 and a Formula 1 testing role with Tyrrell. Winning as an underdog on his first visit to Le Mans, in 1997 driving an elderly Joest-run privateer Porsche in which he impressed all onlookers with a night-time charge to vanquish Porsche's factory-entered favourite. His second Le Mans victory came in 2000 on his maiden drive for Audi in the R8, a car that was to become all-conquering. Kristensen won the next five editions of Le Mans, four times with Audi and once with Bentley (in 2003), his last victory in this sequence taking him past Jacky Ickx's previous record at the Circuit de la Sarthe. His eighth win came in one of the all-time classic contests at Le Mans, in 2008, a rollercoaster of a race in which his ageing diesel-powered Audi was never expected to beat the fancied works Peugeots. One more victory with Audi in 2013 sealed his reputation as a true legend of Le Mans. His story includes exploits at other racetracks all over the world, none more prolific than Sebring, home of America's long-established classic endurance race that Kristensen won six times. Personal reflections together with contributions from notable observers -- including English journalists Gary Watkins and Charles Bradley -- complete a truly rounded portrait of the man and his achievements. Voted 'Sports Book of the Year' when originally published in Kristensen's native Denmark, this thoughtful memoir is now available in English.

More than thirty years have passed since Al Capp's death, and he may no longer be a household name. But at the height of his career, his groundbreaking comic strip, Li'l Abner, reached ninety million readers. The strip ran for forty-three years, spawned two movies and a Broadway musical, and originated such expressions as "hogwash" and "double-whammy." Capp himself was a familiar personality on TV and radio; as a satirist, he was frequently compared to Mark Twain. Though Li'l Abner brought millions joy, the man behind the strip was a complicated and often unpleasant person. A childhood accident cost him a leg-leading him to art as a means of distinguishing himself. His apprenticeship with Ham Fisher, creator of Joe Palooka, started a twenty-year feud that ended in Fisher's suicide. Capp enjoyed outsized publicity for a cartoonist, but his status abetted sexual misconduct and protected him from the severest repercussions. Late in life, his politics became extremely conservative; he counted Richard Nixon as a friend, and his gift for satire was redirected at targets like John Lennon, Joan Baez, and anti-war protesters on campuses across the country. With unprecedented access to Capp's archives and a wealth of new material, Michael Schumacher and Denis Kitchen have written a probing biography. Capp's story is one of incredible highs and lows, of popularity and villainy, of success and failure-told here with authority and heart.

In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she

entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within these pages, Anita recounts stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. As part of a traditional Hindu family residing in a largely Chinese and British society, Anita had been pushed and pulled by cultural and religious customs since she was a little girl. After years of struggling to forge her own path while trying to meet everyone else's expectations, she had the realization, as a result of her epiphany on the other side, that she had the power to heal herself . . . and that there are miracles in the Universe that she'd never even imagined. In *Dying to Be Me*, Anita freely shares all she has learned about illness, healing, fear, "being love," and the true magnificence of each and every human being! This is a book that definitely makes the case that we are spiritual beings having a human experience . . . and that we are all One!

Essential reading for anyone interested in life behind-the-scenes at Formula One. Formula One Grand Prix mechanic Steve Matchett takes the reader on a compelling journey through his life in the pit-lane, from his beginnings as a young apprentice, through his time at Ferrari and BMW to his later success with Benetton. He gives eye-witness views of the great drivers, including Michael Schumacher, Nigel Mansell, Alain Prost and Ayrton Senna. He also talks of key Benetton personalities, and explains how the team was transformed into a strong, competitive organisation, winning three World Championships. His determination and frustration in trying - and eventually succeeding - to break into the high-pressure world of Formula One leaps off the page.

Steve Matchett was the rear jack man in the Benetton pit lane team, and was himself engulfed in the terrible fire at Hockenheim. In *Life in the Fast Lane* he reveals the full, inside story of the 1994 season, including the death of Ayrton Senna, the Hockenheim fire, and disqualifications as the Benetton and Williams teams battled for the Drivers' Championship. The final showdown came in Adelaide, the last race of the season, with the controversial accident when Schumacher of Benetton and Hill of Williams collided. Matchett's story of the frantic and unending behind-the-scenes activity in the effort to be the fastest and best in the world is a fascinating account of the high-pressure world of Formula One motor racing.

Four-time Formula One Drivers' Champion Alain Prost is one of the best racing drivers of all time. Having discovered karting at the age of 14 during a family holiday, Prost progressed through motorsport's junior ranks, winning the French and European Formula Three championships, before joining the McLaren Formula One team in 1980 at the age of 24. In his six seasons with McLaren, Alain Prost won 30 races and three driving titles and in 1985 he became the first French World Champion. In 1986 he became the first back-to-back champion since Jack Brabham 26 years earlier. In 1987, his 28th Grand Prix victory beat Jackie Stewart's

14-year-old record. However, in 1988 his brilliant new team mate Ayrton Senna won eight races and the driving title. Thus began the sensational rivalry that conspired to push two of the sport's greatest drivers to unprecedented heights of success and controversy, and the most bitter feud in Formula One history.

Michael Schumacher: the greatest of all time. A champion with a reputation founded on records, the man who has brought most glory to Ferrari in the modern era. With a dramatic coda to the story that we like to think of as a pit stop before a return to the race, to normality. Michael Schumacher enthralled a generation of fans, but not all the episode in his remarkable career are widely known. While it is true that it is in the nooks and crannies of life great novels are born, in this book there is a search for that which in the emphasis on celebration and success has gone unnoticed, painting a picture of a Schumacher full of enthusiasm but with a degree of fragility. The man behind the driver, with his loves, his manias, his passion concealed behind a veil of stubborn reserve that is by no means violated but rather observed from a certain distance, over time, in all its guises and nuances.

In 2008 Sebastian Vettel became the youngest ever winner of a Formula 1 race when he won the Italian Grand Prix while driving for Toro Rosso. He is now the youngest ever Formula One champion (and has won two consecutive World Championships). This illustrated biography follows Sebastian Vettels life and career from his first encounter with his hero, Michael Schumacher, his years as a karting champion to his ascent to Formula 1 and becoming its youngest ever driver at just 19. Depicting Vettels private life and personality, the book is fully illustrated with photographs from every stage in his life, as well as contributions in their own words from Vettel himself, his team-mate, Mark Webber, as well as the members of Red Bull who have helped to make him a champion.
