Diabetes is all about sugar. And for the millions of people worldwide who live with one of the two forms of the disease, diabetes also is all about understanding causes, symptoms, treatments, and the importance of diet and exercise. Among medical conditions, few diseases have been shown to affect every part of the person. Diabetes claims that reputation, making knowledge the best medicine for thriving with – not just surviving – this common mind and body health challenge. A diagnosis of diabetes may send shivers through the patient, ripples that reach out to family, friends, associates, acquaintances, and folks who'll someday cross paths – personally or professionally. Diabetes For Dummies speaks to anyone who wants to know what the disease will mean in their own or someone else's experience, from the first moment when the word darts out of the doctor's mouth through all the ups and down of a long and satisfying life. This down-to-earth, compassionate guide gives you the nitty-gritty on ways to prevent and manage diabetes. Choose the best treatment plan. Find the right practitioner. Build a support team. Stick to an effective diet program. Locate additional help online. A healthy supply of knowledge and insight can help you face the facts of diabetes, a major medical condition surrounded by myth and personal opinion – some well-founded and some, well, fabricated. Diabetes For Dummies explores the real deal on working through your initial reaction to a diagnosis of diabetes. Knowing what whether you have type 1 or type 2. Battling short- and long-term complications. Monitoring your glucose. Managing the disease with diet and exercise. Helping your child or parent handle his or her own diabetes. Cooking up diabetes-friendly meals with tasty recipes. By following the rules of good diabetic care, you actually can be healthier than people without diabetes who smoke, overeat, under-exercise, or combine these and other unhealthy habits. This friendly resource will move beyond the "bad" news sensed at diagnosis to a good start at staying fit and feeling great!

Microsoft Money 2003 makes managing your personal finances very easy. Well, not "very easy," but pretty darned close to it. With Money 2003, you don't need a bookkeeper to track your finances. You don't need an accountant or financial counselor, either. And you don't need to be a computer expert. All you need is to know how to use Money 2003. And that's the tricky part. Like most personal finance programs, Money 2003 is complicated – you may even argue that it's more complicated to use than it should be. After all, all you really want to do is keep track of your money, right? You're not performing brain surgery on your checkbook. Well, that's where Microsoft Money 2003 For Dummies steps in to help. Written in typical Dummies style – that is, in plain English and with a healthy helping of humor – this book can help users of both the standard and deluxe editions of Money 2003 get to the heart of the program without wasting time. Don't expect to find out how Money 2003 works, though; instead, expect to find out how you can manage your finances with Money 2003. Here's just a sampling of the topics you'll find covered in Microsoft Money 2003 For Dummies: Setting up checking, savings, and credit card accounts Recording your financial activity Categorizing your spending and income sources Balancing your account through reconciling transactions Writing and printing checks Paying bills online and scheduling bill payment Planning your finances for the years ahead Preparing for tax time and managing your investments Top Ten lists on achieving financial good health, handling your finances if you're self-employed, and moving from Quicken to Money 2003 So whether you're "in the money" or just plain "out of money," whether you're a financial whiz or you're just learning the financial ropes, Microsoft Money 2003 For Dummies can help you make the most of your money quickly and easily!
