Shows you how to use Microsoft Office 2013 with easy-to-follow, step-by-step instructions illustrated with full-color screen shots Covers Word, Excel, PowerPoint, Outlook, Access, and Publisher Includes additional information on using Office Internet and graphics tools Designed to help visual learners read less and learn more Teach Yourself VISUALLY Office 2013 shows you how to use all six tools in the Office suite, step by step.

From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

Office 2016 For Dummies (9781119293477) was previously published as Office 2016 For Dummies (9781119077374). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The bestselling Microsoft Office book of all time Packed with straightforward, friendly instruction, this updated edition of the bestselling Microsoft Office book gets you thoroughly up to speed on the latest version of the industry standard for office productivity suites. In no time, Office 2016 For Dummies will help you become a whiz at Word, take your Excel skills to new heights, add pizzazz to your PowerPoint presentations, and make every part of your work day more organized and productive. Following alongside approachable, plain-English

explanations, you'll quickly discover how to type, format text, and design documents in Word; navigate and edit spreadsheets, create formulas, and analyze data in Excel; configure email, store contacts, organize tasks, and schedule your time with Outlook; create and edit well-designed and crowd-pleasing PowerPoint presentations; and design, edit, and modify an Access database. Even if the mere thought of working with Microsoft Office makes you nervous, this fun and friendly guide makes it easy. Helps you make sense of word processing, email, presentations, data management and analysis, and much more Covers the five main Office applications: Word, Excel, PowerPoint, Outlook, and Access Walks you through the new features of Microsoft Office 2016 Written by a veteran author who has written more than 20 For Dummies books, which account for more than three million books in print If you're an uninitiated user looking to make the most of this powerful suite of applications, this hands-on, friendly guide is the key to your brand new Office!

The go-to reference for the new Office Home & Student 2013 The Home & Student version of Microsoft Office targets the home and education markets, covering the four applications most used outside the workplace: Word, Excel, PowerPoint, and OneNote. The minibooks in this essential All-in-One guide include real-world examples and projects that cover the new features and capabilities of Office 2013. Straightforward advice and beneficial projects help you to learn the basics of creating a resume in Word, establishing a home budget in Excel, developing a dynamic school presentation with PowerPoint, and taking notes in OneNote. Targets home and school users of Office 2013, who primarily use Word, Excel, PowerPoint, and OneNote Walks you through how to use Office 2013 for everyday projects, such as creating a cover letter in Word or reusable templates in Excel Demonstrates how to jazz up a school presentation with PowerPoint Provides you with straightforward instructions for taking notes in OneNote Shares common Office 2010 tools and details the basics of the Office ribbon Office Home & Student 2013 All-in-One For Dummies is an easy-to-understand guide to the essentials of Office 2013!

One book that does the work of nine! Knowing your way around Microsoft Office requires you to be part mathematician, part storyteller, and part graphic designer—with some scheduling wizard and database architect sprinkled in. So what do you do if these talents don't come naturally to you? Fear not! Office 2019 All-in-One For Dummies fills in the gaps and helps you create easy-to-read Word documents, smash numbers in Excel, tell your tale with PowerPoint, and keep it all organized with Outlook. With additional books covering Access, OneNote, and common Office tasks, this is the only Office book you need on your shelf. Get insight into tools common to all Office applications Find full coverage of Word, Excel, PowerPoint, Outlook, and Access Benefit from updated information based on the newest software release Discover the tricks Office pros use to enhance efficiency If you need to make sense of Office 2019 and don't have time to waste, this is the all-in-one reference you'll want to keep close by!

Special Edition Using Microsoft Office Home and Student 2007 THE ONLY OFFICE BOOK YOU NEED We crafted this book to grow with you, providing the reference material you need as you move toward Office 2007 proficiency and use of more advanced features. If you buy only one book on Office Home and Student 2007, Special Edition Using Microsoft Office Home and Student 2007 is the book you need. Office Home and Student 2007 is available to ANYONE, regardless of whether you are a student, a teacher, or neither. The only condition Microsoft attaches is the requirement that the software not be used for commercial purposes. For use in the home or classroom, Office Home and Student 2007 is an exceptional deal at a fraction of the cost of the business versions! • No other authoring team in the business is as well recognized and respected as the Office Dream Team; when they speak, even the Office development team at Microsoft listens! • This book is a category killer—one that sets the pace for others to follow! • Tired of Office books that read as though Microsoft employees wrote them? Tired of learning the Microsoft way? Tired of books containing little more than you can pull from the Help system? If you answered yes to any of these questions, then you owe it to yourself to get a copy of this book! • If you own a copy of Office Home and Student 2007, you deserve a copy of this book! Here, you'll find a bevy of previously undocumented tips and tricks that will show you how to harness the power of Office 2007! • Written in clear, plain English, readers will feel as though they are learning from real humans and not Microsoft clones. Sprinkled with a wry sense of humor and an amazing depth of field, this book most certainly isn't your run-of-the-mill computer book "Another Special Edition Winner! Clear, concise and right on-target. Everything a student or a home user will need to know in order to master Office 2007." —Alan & Sandra Ashendorf, Hosts of Let's Talk Computers Radio Talk Show Ed Bott is a best-selling author of more than 25 computer books and an award-winning computer journalist with two decades of experience in the personal computer industry. He is a three-time winner of the Computer Press Award, and he and Woody Leonhard won the prestigious Jesse H. Neal Award, sometimes referred to as "the Pulitzer Prize of the business press," in back-to-back years for their work on PC Computing's "Windows SuperGuide." You can read more of Ed's writing at <http://www.edbott.com/weblog>. Curmudgeon, critic, and perennial "Office Victim," Woody Leonhard runs a fiercely independent website with up-to-the-nanosecond news, observations, tips, and help for both Office and Windows. AskWoody.com has become the premier source of unbiased information for people who need to really use Windows and Office, and for people concerned about juggling the never-ending stream of Microsoft patches. In the past 15 years, Woody has written more than three dozen books, drawing an unprecedented six Computer Press Association awards and two American Business Press awards. Woody was one of the first Microsoft Consulting Partners and is a charter member of the Microsoft Solutions Provider organization.
