With detailed guidance for determining which items in your house "spark joy" (and which don't), this international bestseller will help you clear your clutter and enjoy the unique magic of a tidy home—and the calm, motivated mindset it can inspire.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

When Ada Calhoun found herself in the throes of a midlife crisis, she thought that she had no right to complain. She was married with children and a good career. So why did she feel miserable? And why did it seem that other Generation X women were miserable, too? Calhoun decided to find some answers. She looked into housing costs, HR trends, credit card debt averages, and divorce data. At every turn, she saw a pattern: sandwiched between the Boomers and the Millennials, Gen X women were facing new problems as they entered middle age, problems that were being largely overlooked. Speaking with women across America about their experiences as the generation raised to "have it all," Calhoun found that most were exhausted, terrified about money, under-employed, and overwhelmed. Instead of their issues being heard, they were told instead to lean in, take "me-time," or make a chore chart to get their lives and homes in order. In *Why We Can't Sleep*, Calhoun opens up the cultural and political contexts of Gen X's predicament and offers solutions for how to pull oneself out of the abyss—and keep the next generation of women from falling in. The result is reassuring, empowering, and essential reading for all middle-aged women, and anyone who hopes to understand them.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

A unique account of the amazing Thai cave rescue told in a heart-racing, you-are-there style that blends suspense, science, and cultural insight. On June 23, 2018, twelve young players of the Wild Boars soccer team and their coach enter a cave in northern Thailand seeking an afternoon's adventure. But when they turn to leave, rising floodwaters block their path out. The boys are trapped! Before long, news of the missing team spreads, launching a seventeen-day rescue operation involving thousands of rescuers from around the globe. As the world sits vigil, people begin to wonder: how long can a group of ordinary kids survive in complete darkness, with no food or clean water? Combining firsthand interviews of rescue workers with in-depth science and details of the region's culture and religion, author Christina Soontornvat—who was visiting family in Northern Thailand when the Wild Boars went missing—masterfully shows how both the complex engineering operation above ground and the mental struggles of the thirteen young people below proved critical in the life-or-death mission. Meticulously researched and generously illustrated with photographs, this page-turner includes an author's note describing her experience meeting the team, detailed source notes, and a bibliography to fully immerse readers in the most ambitious cave rescue in history.

Most firefighters join the fire service when they are young-their teens or early twenties. Alan Knoche was an exception in that he joined when he was in his late thirties. He had a lot of catching up to do, but with life experiences in the Navy, the submarine service, and working at a nuclear power facility behind him, he quickly progressed from rookie to assistant fire chief. A top responder in a volunteer fire department that answered an average of two emergency calls a day, he fought fires, cut people out of crushed automobiles, and rescued victims from everything from a quarry collapse to a gumball machine. As an EMT, he also responded to thousands of medical and trauma calls and helped people who were experiencing the worst day of their lives. These stories relate some of the emergencies he faced on his "second job." They are gritty, often challenging, and sometimes sad, but actual life-threatening incidents are seldom pleasant. That's not to say it's all serious. The occasional humorous or comical event is what helps emergency responders cope with the catastrophic and tragic sights they see on a daily basis. The men and women he served with are some of the most dedicated, talented, resourceful, skilled, and sometimes insane people you could ever hope to show up when you're having your worst day. They made these stories possible.

Publishers Weekly 10/14/74 Rescue Squad Larry Ferazani, MORROW An engrossing report of an unusual firefighting unit working in the shadow of Harvard, written by a man who has a love-hate relationship with his job. More philosophical than Dennis Smith in his best seller "Report from Engine Company 82," Ferazani would agree with Smith that firefighting is the most misunderstood and underrated job in the country. The Cambridge Rescue truck packs the usual fire gear but it is also stocked with sophisticated medical equipment. Besides answering fire alarms, it is called upon to assist victims of auto accidents drug users, attempted suicides and to quell Harvard Yard riots. The squad has freed a pregnant woman from a stalled elevator and given advice on a sick cat. Staffed by volunteers from the fire department, it takes dangerous and often repugnant tasks in its stride. Ferazani believes that such units set up on a national scale would be invaluable. While reporting his many exciting experiences he tells how the job affects his private life. Boston Globe by Patrick McGilligan In the middle of the night," he writes, "I still wonder sometimes if I am doing the right thing. To reach out, to help people, to find someone on the verge of death and be able to bring him back-for me, that's a miracle. But how often can you come face to face with the endless fact of pain and death without losing courage in life. "That his book even considers such delicate questions, aside from its documentary capacity's a tribute to its worth as a minor sketch of Americana."
