The greatest haunted house story ever written, the inspiration for a 10-part Netflix series directed by Mike Flanagan and starring Michiel Huisman, Carla Gugino, and Timothy Hutton First published in 1959, Shirley Jackson's *The Haunting of Hill House* has been hailed as a perfect work of unnerving terror. It is the story of four seekers who arrive at a notoriously unfriendly pile called Hill House: Dr. Montague, an occult scholar looking for solid evidence of a "haunting"; Theodora, his lighthearted assistant; Eleanor, a friendless, fragile young woman well acquainted with poltergeists; and Luke, the future heir of Hill House. At first, their stay seems destined to be merely a spooky encounter with inexplicable phenomena. But Hill House is gathering its powers—and soon it will choose one of them to make its own. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. All theater romances are tragedies. Ella Blythe knows this. Still, she cannot help but hope her own story may turn out different than most--and certainly different than the tragic story of the Ghost of Craven Street Theater. Yet as she struggles to maintain her tenuous place in the ever-shrinking ballet company, win the attentions of principal dancer Philippe, and avoid company flirt Jack, Ella cannot deny the uncanny feeling that her life is mirroring that of the dead ballerina. Is she dancing ever closer to the edge of her own tragic end? Or will the secrets that are about to come to light offer release from the past? Mystery and romance make the perfect dance partners in this evocative story from fan-favorite Joanna Davidson Politano.

In a devilishly dark and funny debut, a teen finds himself the unwitting beneficiary of eight enslaved and angry ghosts seeking bloody vengeance. When Luke Manchett's estranged father dies unexpectedly, he leaves his son a dark inheritance: a collection of eight restless spirits, known as his Host, who want revenge for their long enslavement. Once they figure out that Luke has no clue how to manage them, they become increasingly belligerent, and eventually mutiny. Halloween (the night when ghosts reach the height of their power) is fast approaching, and Luke knows his Host is planning something far more trick than treat. Armed with only his father's indecipherable notes, a locked copy of *The Book of Eight*, and help from school outcast Elza Moss, Luke has just thirteen days to uncover the closely guarded secrets of black magic and send his unquiet spirits to their eternal rest—or join their ghostly ranks himself.

A masterful collection of tales from the faded border between our day-to-day world and the horrifying unknown on the

other side of midnight. An old woman living alone on the edge of a bog gets an unexpected -- and unsettling -- visitor, throwing her quiet life into a long-buried mystery. An isolated backwoods family stumbles into good fortune for a time with a monstrous discovery in the lake behind their house, but that time is running short. And a misfit little girl, struggling to make friends, meets an understanding soul one day at the beach: but why will he only play with her alone at night? All these lonely souls -- and more -- have reached out into the darkness, not knowing what they might find. Around the dark edges of reality lurk unknown beings with unknowable intentions -- ordinary objects can become cursed possessions, entities who seem like friends can become monstrous, and those who seem monstrous can become the truest companions. In this collection of evocative, unnerving slice-of-life horror, five stories explore what happens when one is desperate enough to seek solace in the unnatural, and what might be waiting for us at the Crossroads at Midnight. Abigail's relationship with her boyfriend, Seth, is teetering on the edge of self-destruction. The recent lack of communication and cold shoulder has become unbearable. So, when Seth's ghost hunting job takes him on a trip to South Carolina, Abigail decides to join, and use the down time to hopefully rekindle their flame. When they arrive at the historical antebellum house—which is allegedly haunted—Abigail quickly learns there is more to it than meets the eye, and within the walls there is a dark story, and presence, threatening to pull her under, especially when a mysterious stranger shows up. If Abigail can't find a way to survive the eerie house, then she may have more to worry about than the possibility of a broken heart.

Karen thinks the ghost of Ben Brewer lives in her house but she's never really seen him until now. Karen and her stepsister have found out that Ben and his spooky friends are going to have a party in her attic.

The only thing Abigail Donovan wants in life is to escape her grandmother and magic. Is that too much to ask? When Abby inherits a house from a great aunt she never knew, she takes the opportunity and runs with it. However, Abby's attempt to escape magic and all things witches doesn't take her far. Not only is the house plagued with magical residue, but Abby's not the only witch in town. Oh, and there's a ghost in her new house. His name is Thorn Alexander. As Abby's friendship with Thorn grows and evil comes knocking at her door, Abby is torn. If she wants to save Thorn, she'll have to use magic. If Abby uses magic, she'll tie herself to a new coven. Only one of them can be free in the end. Magic, curses, and a love beyond time all contained in one haunted house Abby never expected to inherit.

Acclaimed author Jennifer Gilmore's intimate and achingly beautiful novel deftly explores the role that chance and choice play in shaping the lives of two teenagers who are separated by sixteen years, but whose lives are intertwined. "This emotional, visceral novel haunted me in the best ways. Jennifer Gilmore has written something of real depth, which will leave readers thinking for a long time about the lives that other people lead, as well as the ones they might have led. If *Only* is gripping and shiveringly beautiful; a true achievement."—Meg Wolitzer, bestselling author of *The Interestings* and *Belzhar* BEFORE: When Bridget imagined her life at sixteen, it didn't look like this. She didn't think that her boyfriend would dump her for another girl. And she certainly didn't think that she would be pregnant. With just a few months until she gives birth, Bridget must envision an entirely new future—one for her baby. But as she sifts through the many paths and the many people who want to parent her child, she can't help but feel that there is no right decision. AFTER: Ivy doesn't know much about her birth mother. She knows that she is now the same age Bridget was when she placed Ivy for adoption. She knows that Bridget was the one who named her. And she knows that fifteen years ago Bridget disappeared from Ivy's and her adoptive moms' lives. Ivy wants to discover more about herself, but as she goes to find Bridget, she can't help but feel that the risks might far outweigh the benefits of knowing where she comes from and why her birth mother chose to walk away.

WINNER OF THE ANDRE NORTON NEBULA AWARD "Nalo Hopkinson is one of science fiction's most inventive and brilliant writers" -New York Post We'd had to be cut free of our mother's womb. She'd never have been able to push the two-headed sport that was me and Abby out the usual way. Abby and I were fused, you see. Conjoined twins. Abby's head, torso, and left arm protruded from my chest. But here's the real kicker; Abby had the magic, I didn't. Far as the Family was concerned, Abby was one of them, though cursed, as I was, with the tragic flaw of mortality. Now adults, Makeda and Abby still share their childhood home. The surgery to separate the two girls gave Abby a permanent limp, but left Makeda with what feels like an even worse deformity: no mojo. The daughters of a celestial demigod and a human woman, Makeda and Abby were raised by their magical father, the god of growing things--a highly unusual childhood that made them extremely close. Ever since Abby's magical talent began to develop, though, in the form of an unearthly singing voice, the sisters have become increasingly distant. Today, Makeda has decided it's high time to move out and make her own life among the other nonmagical humans--after all, she's one of them. In *Cheerful Rest*, a run-down warehouse space, Makeda finds exactly what she's been looking for: an opportunity to live apart from Abby and begin building her own independent life. There's even a resident band, led by the charismatic (and attractive) building superintendent. But when her father goes missing, Makeda will have to discover her own talent--and reconcile with Abby--if she's to have a hope of saving him . . .
