A People's History of the World Chris Harman, 2008-04-17 In this monumental book, Chris Harman achieves the impossible—a gripping history of the planet from the perspective of the struggling people throughout the ages. From earliest human society to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the millennium, Chris Harman provides a brilliant and comprehensive history of the planet. Eschewing the standard histories of 'Great Men,' of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of 'history from below.' In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these changes. While many pundits see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history never ends. This magisterial study is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical change.

Herbert Butterfield and the Interpretation of History K. Sewell, 2005-01-13 This book examines successive stages in the development of the thought of Sir Herbert Butterfield in relation to fundamental issues in the science of history. In a carefully nuanced way it lays bare the unspoken motivations and hidden tensions in Butterfield's debate with himself and with a host of contemporary historians in the period between 1924-79.

History and Social Studies Hilary Bourdillon, 2022-03-02 First published in 1992. This volume includes reports, papers and discussion from a September 1990 educational research workshop on textbook analysis in history and social studies. Some 20 European countries are represented.

The Life and Thought of Herbert Butterfield Michael Bentley, 2011-04-21 Once recalled only for The Whig

Interpretation of History (1931) and Christianity and History (1949), Sir Herbert Butterfield's contribution to western culture has undergone an astonishing revaluation over the past twenty years. What has been left out of this reappraisal is the man himself. Yet the force of Butterfield's writings is weakened without some knowledge of the man behind them: his temperament, contexts and personal torments. Previous authors have been unable to supply a rounded portrait for lack of available material, particularly a dearth of sources for the crucial period before the outbreak of war in 1939. Michael Bentley's original, startling 2011 biography draws on sources never seen before. They enable him to present a new Butterfield, one deeply troubled by self-doubt, driven by an urgent sexuality and plagued by an unending tension between history, science and God in a mind as hard and cynical as it was loving and charitable.

History as Therapy: Alternative History and Nationalist Imaginings in Russia Konstantin Sheiko, Stephen Brown, 2014-05-01 This astonishing book explores the delusional imaginings of Russia's past by the pseudo-scientific 'Alternative History' movement. Despite the chaotic collapse of two empires in the last century, Russia's glorious imperial past continues to inspire millions. The lively movement of 'Alternative History', diligently re-writing Russia's past and 'rediscovering' its hidden greatness, has been growing dramatically since the collapse of Communism in 1991. Virtually unknown in the West, these pseudo-historians have published best-selling books, attracted widespread media attention, and are a prominent voice in Internet discussions about Russian and world history. Alternative History claims that Russia is much older than Ancient Egypt, Greece and Rome; that the medieval Mongol Empire was in fact a Slav-Turk world empire; and that, in the twentieth century, duplicitous foreign powers stabbed Russia in the back and stole its empire. For its followers the key to Russia's greatness in the future lies in ensuring that Russians understand the true wealth of their past. Alternative history has become a popular therapy for Russians still coming to terms with the reality of Post-Soviet life. It is one of the forces shaping a new Russian nationalism and an important factor in the geopolitics of the twenty-first century.

Women's History in Global Perspective Bonnie G. Smith, 2004 The American Historical Association's Committee on Women Historians commissioned some of the pioneering figures in women's history to prepare essays in their respective areas of expertise. This volume, the second in a series of three, collects their efforts. As a counterpoint to the broad themes discussed in the first volume, Volume 2 is concerned with issues that have shaped the history of women in particular places and during particular eras. It examines women in ancient civilizations; including women in China, Japan, and Korea; women and gender in South and South East Asia; Medieval women; women and gender in Colonial Latin America; and the history of women in the US to 1865. Authors included are Sarah Hughes and Brady Hughes, Susan Mann, Barbara N. Ramusack, Judith M. Bennett, Ann Twinam, and Kathleen Brown. Incorporating essays from top scholars ranging over an abundance of regions, dates, and methodologies, the three volumes of *Women's History in Global Perspective* constitute an invaluable resource for anyone interested in a comprehensive overview on the latest in feminist scholarship.

The Cambridge World History: Volume 1, Introducing World History, to 10,000 BCE David Christian, 2015-04-09 Volume 1 of the Cambridge World History is an introduction to both the discipline of world history and the earliest phases of world history up to 10,000 BCE. In Part I leading scholars outline the approaches, methods, and themes that have shaped and defined world history scholarship across the world and right up to the present day. Chapters examine the historiographical development of the field globally, periodisation, divergence and convergence, belief and knowledge, technology and

innovation, family, gender, anthropology, migration, and fire. Part II surveys the vast Palaeolithic era, which laid the foundations for human history, concentrating on the most recent phases of hominin evolution, the rise of Homo sapiens and the very earliest human societies through to the end of the last ice age. Anthropologists, archaeologists, historical linguists and historians examine climate and tools, language, and culture, as well as offering regional perspectives from across the world.

A Nation Divided by History and Memory Gábor Gyáni, 2020-07-12 During the last few decades there has been a growing recognition of the great role that remembering and collective memory play in forming the historical awareness. In addition, the dominant national form of history writing also met some challenges on the side of a transnational approach to the past. In *A Nation Divided by History and Memory*, a prominent Hungarian historian sheds light on how Hungary's historical image has become split as a consequence of the differences between the historian's conceptualisation of national history and its diverse representations in personal and collective memory. The book focuses on the shocking experiences and the intense memorial reactions generated by a few key historical events and the way in which they have been interpreted by the historical scholarship. The argument of *A Nation Divided by History and Memory* is placed into the context of an international historical discourse. This pioneering work is essential and enlightening reading for all historians, many sociologists, political scientists, social psychologists and university students.

Wagg, 2011-11-29 The conventional history of sport, as conveyed by television and the sports press, has thrown up a great many apparent turning points, but knowledge of these apparently defining moments is often slight. This book offers readable, in-depth studies of a series of these watersheds in sport history and of the circumstances in which they came about.
