So when the mega-rich Babblemoney sneaker company announces an international competition to find the fastest kid in the world, he's desperate to sign up. But not so fast. Nothing's ever that easy with the eccentric Falloon family. Turns out, his non-conformist parents never got him a legal birth certificate. He can't race for the United States, so now if he wants to compete, he may just have to invent his own country. And even if that crazy plan works, winning gold will mean knocking his best friend—and biggest competitor—Jay, out of the competition. As unexpected hurdles arise, Grant will have to ask not only if winning is possible, but what he's willing to sacrifice for it.

Based on years of research in professional baseball, this book shares the reason why the word “adjustment” is the key to success. Everyone has desires placed on their hearts. Whether it's succeeding at work, losing weight, completing education, or improving key relationships, the list goes on and on. To fulfill these desires, we tend to employ familiar tools that have worked for us in the past. But then life throws us a curveball—a job loss, relationship troubles, or a global pandemic—and we get stuck. We have to search for new ways and new tools to adjust to these changes. Linda Wawrzyniak knows the enormous impact even the smallest adjustments can have on improving performance and increasing overall confidence and contentment. As a consultant and educator for Major League Baseball (MLB) teams, Linda began helping players navigate the challenges that come from acculturation and transition; at the same time, she also discovered the secret to improving their performance on the field. For the first time ever, she shares the secret of successful adjustments from within the closely guarded world of professional baseball. As a special bonus, the reader will have the opportunity to learn more about their own adjustment pattern tendencies through the Adjustment Awareness Audit, derived from the test used inside the MLB draft. Loaded with examples from Linda's experiences as an MLB consultant and education coach, as well as her work in the corporate world and insight as a parent, Million Dollar Adjustments shows readers the difference between passive learning and active executing—allowing them to gain the confidence to make bolder steps in life and reach for their goals with greater awareness and new tools in hand. With insights from the results of testing and stories of how adjustments transform people, this is a unique and impactful read for today's digital transformation age. Fact: More commerce and wealth is created by direct mail than by any other media (true before the internet and true now) Reported in 2013 as the marketing channel that "delivers the best ROI for customer acquisition and retention" by Target Marketing's Seventh Annual Media Usage Forecast survey of B2C, direct mail is surprisingly outdated and under-represented on the marketing bookshelves for small business owners — authors Simpson and Kennedy change that. Millionaire-maker Dan S. Kennedy and direct mail marketing specialist Craig Simpson urge small business owners to drive the momentum built via social media and other marketing avenues into the mailboxes of their target consumers. Unlike other direct mail marketing books on the shelf that specialize in one aspect of preparing a campaign such as copywriting or design, this comprehensive solution covers all — the organizational, technical, and creative including designing, budgeting, tracking, and assessing effectiveness. Also covered is how direct mail can be used in today's online marketing funnels. Benefiting from the authors' combined 30 years in direct marketing, business owners are given the guidelines for what works and what doesn't, illustrated by real-life business campaigns that show step-by-step how to build a results-producing promotional campaign.

At the beginning of the twentieth century, field artillery was a small, separate, unsupported branch of the U.S. Army. By the end of World War I, it had become the “King of Battle,” a critical component of American military might. Million-Dollar Barrage tracks this transformation. Offering a detailed account of how American artillery crews trained, changed, adapted, and fought between 1907 and 1923, Justin G. Prince tells the story of the development of modern American field artillery—a tale stretching from the period when field artillery became an independent organization to when it became an equal branch of the U.S. Army. The field artillery entered the Great War as a relatively new branch. It separated from the Coast Artillery in 1907 and established a dedicated training school, the School of Fire at Fort Sill, in 1911. Prince describes the challenges this presented as issues of doctrine, technology, weapons development, and combat training intersected with the problems of a peacetime army with no good industrial base. His account, which draws on a wealth of sources, ranges from debates about U.S. artillery practices relative to those of Europe, to discussions of the training, equipping, and performance of the field artillery branch during the war. Prince follows the field artillery from its plunge into combat in April 1917 as an unprepared organization to its emergence that November as an effective fighting force, with the Meuse-Argonne Offensive proving the pivotal point in the branch’s fortunes. Million-Dollar Barrage provides an unprecedented analysis of the ascendance of field artillery as a key factor in the nation’s military dominance.

Brian Kurtz is the bridge connecting the bedrock fundamentals of direct response marketing to the state-of-the-art strategies, tactics, and channels of today. Overdeliver distills his expertise from working in the trenches over almost four decades to help readers build a business that maximizes both revenue and relationships. Marketing isn't everything, according to Brian Kurtz. It's the only thing. If you have a vision or a mission in life, why not share it with millions instead of dozens? And while you are sharing it with as many people as possible and creating maximum impact, why not

measure everything and make all of your marketing accountable? That's what this book is all about. In the world of direct marketing, Brian Kurtz has seen it all and done it all over almost four decades. And he lives by the philosophy, "Those who did it have a responsibility to teach it." Here's a small sample of what you'll learn: * The 4 Pillars of Being Extraordinary * The 5 Principles of why "Original Source" matters * The 7 Characteristics that are present in every world class copywriter * Multiple ways to track the metrics that matter in every campaign and every medium, online and offline * Why customer service and fulfillment are marketing functions * That the most important capital you own has nothing to do with money * And much more Whether you're new to marketing or a seasoned pro, this book gives you a crystal-clear road map to grow your business, make more money, maximize your impact in your market, and love what you're doing while you're doing it. "There are laughs at everyone's expense in this slick, sometimes raunchy spoof."-Publishers' Weekly "As a writer, [Denny] Hatch is no slouch. In a mirror-slick, ribald style, he has fleshed out his wishbone with a cast of characters that would make Thorne Smith whirl in his grave. A lovable Nazi, an ebullient Greek with two phones in his Cadillac, a National Guard Colonel who wants to take on the 101st Airborne and a neighbor named E. Kirk Hall? are just a few of the batty but believable characters who help make the whole, wild idea seem almost plausible. And Hatch can be very funny. Cedarhurst Alley will not have airline executives queuing up at bookstores to rush copies to their stockholders. But if taken in the vein in which it was undoubtedly written, it is a humorous, highly readable book."-Business & Commercial Aviation "Moreover, the book is not what you would expect. It is sound enough technically to satisfy the stomachs of controllers and pilots-a burp here or there perhaps. It should also satisfy the legal beagles. There are exaggerations sure, but the author has done a masterful job of researching and studying the noise problem. And he has woven around this very complex problem, a compelling yard that is at once hilarious, provocative-and sobering."-Journal of ATC (Air Traffic Control) "The serious undercurrent tends to be forgotten because of Mr. Hatch's playful approach, his frequent tongue-in-cheek fooling, and general humor which ranges from some clever dialogue and snappy observations to wildly imaginative characters and musings."-Best Sellers

In our request "to be in the know" are we compromising our capacity for unadulterated thought? In this startling book, Dr. Wilson Bryan Key exposes the devious and sophisticated strategies that advertisers use in newspapers, magazines and television to manipulate and seduce our thoughts and senses. He explores how the media establishes our "reality" and why, subsequently, Americans are the most manipulated people in the world. This provocative book will forever change

the way you view the world around you.

One of the top sports agents in the US, he worked hard and enjoyed the bachelor lifestyle to the full. But he hankered for more, and when he set himself a challenge - to unearth someone in India capable of becoming a pro baseball pitcher - most people thought he was mad and doomed to face a costly and public failure. The reality show Million Dollar Arm brought thousands of contestants hoping for a shot at glory, but eventually they unearthed two candidates: Rinku and Dinesh. Bernstein brought them back to the US, put them up in his home and helped them to get used to a very different world, while they also worked hard to learn the game that was second nature to most American sportsmen.
