Mind Manipulation Dr. Haha Lung, Christopher B. Prowant, 2020-08-25 Modern methods of mind control—employed in propaganda, indoctrination, even advertising—can be traced back to Ninja strategies of psychological warfare developed and refined centuries ago in medieval Japan. The Black Science Haha Lung, Christopher B. Prowant, 2001-07-01 The fighting skills of the shadow warrior - the ninja - made them feared throughout Japan. But the wise man had greater fear for their bloodless methods of domination, which the ninja mind masters preferred to crude physical violence. Ninja broke through their enemies' mental defenses using direct attack or stealth, comparing such operations to invading an enemy fortress. In this guided tour through the mysterious realm of the ninja, martial arts experts Dr. Haha Lung and Christopher B. Prowant reveal the secrets that will allow you to tell when someone is lying to you, implant false memories, tailor your attack by using the specific keys to each individual's mind, use verbal patterns and body language to earn your foe's utter trust, interrogate using unbeatable psychological methods and much more. You will also learn the terrifying truth behind modern mind-control, propaganda and brainwashing techniques used by cults (and our own government), as well as take a look ahead to the future of mass mind control. The wars of tomorrow may well be won or lost in the battlefield of the mind. This book could mean the difference between winning your freedom and losing everything.

The Art of Being Human Michael Wesch, 2018-08-07 Anthropology is the study of all humans in all times in all places. But

it is so much more than that. Anthropology requires strength, valor, and courage, Nancy Scheper-Hughes noted. Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a heroic profession. What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the first draft edition from 2017 and includes 7 new chapters.
