Whether you have been experiencing manipulation for years, or if this is something entirely new, psychological manipulation can be tricky to decipher. Mostly because the manipulators themselves are true masters of emotional disguise. More often than not, their sweet talking covers their self-serving, dishonest, and, on the whole, sinister intentions. On top of this confusing mismatch of words and actions, they often try to evoke in their interlocutor powerful feelings of guilt or sympathy, so as to make them more susceptible to manipulation. They can be found anywhere, even in the places we frequent most. It could be your partner, your boss, your neighbor, a co-worker, a distant or close relative, or even a friend. We are talking about people who are masters of certain manipulation techniques and use them to confuse us. Although they are around us, it is not easy to detect these people. Their characteristics and personality traits are not evident. Nobody carries a sign on their foreheads, warning that they are a narcissist or sociopath. A masterful and eye-opening examination of Trump and the coercive control tactics he uses to build a fanatical devotion in his supporters written by "an authority on breaking away from cults...an argument that...bears consideration as the next election cycle heats up" (Kirkus Reviews). Since the 2016 election, Donald Trump's behavior has become both more disturbing and yet increasingly familiar. He relies on phrases like, "fake news," "build the wall," and continues to spread the divisive mentality of us-vs.-them. He lies constantly, has no conscience, never admits when he is wrong, and projects all of his shortcomings on to others. He has become more authoritarian, more outrageous, and yet many of his followers remain blindly devoted. Scott Adams, the creator of Dilbert and a major Trump supporter, calls him one of the most persuasive people living. His need to squash alternate information and his insistence of constant ego stroking are all characteristics of other famous leaders—cult leaders. In The Cult of Trump, mind control and licensed mental health expert Steven Hassan draws parallels between our current president and people like Jim Jones, David Koresh, Ron Hubbard, and Sun Myung Moon, arguing that this presidency is in many ways like a destructive cult. He specifically details the ways in which people are influenced through an array of social psychology methods and how they become fiercely loyal and obedient. Hassan was a former "Moonie" himself, and he presents a

“thoughtful and well-researched analysis of some of the most puzzling aspects of the current presidency, including the remarkable passivity of fellow Republicans [and] the gross pandering of many members of the press” (Thomas G. Gutheil, MD and professor of psychiatry, Harvard Medical School). The Cult of Trump is an accessible and in-depth analysis of the president, showing that under the right circumstances, even sane, rational, well-adjusted people can be persuaded to believe the most outrageous ideas. “This book is a must for anyone who wants to understand the current political climate” (Judith Stevens-Long, PhD and author of Living Well, Dying Well).

Do you want to learn the most powerful manipulation forces with persuasion and mind control techniques, attract fragile people into its network? If yes, then keep reading...Dark Psychology is one of the arts of persuasion and mind control. Psychology refers to the study of the behaviors of human beings. It is the center of every human being's thinking, their deeds, and socialization. Therefore, Dark Psychology is basically the phenomenon through which human beings apply manipulation, persuasion, and mind control techniques to fulfill their intentions. In dark psychology, there is the 'Dark Psychology Triad' which is one of the easiest predictors of manipulator's behavior, collapsed relationships, and also being problematic. The Dark Psychology Triad includes: The narcissists - These kinds of people are filled with ego, grandiosity, and have no empathy or sympathy. The Machiavellians - These kinds of people use manipulation, persuasion, and mind control to exploit and lure people. In addition to this, they are always immoral. The psychopathy - They are friendly and always charming, impulsive, selfish, lack empathy, and are not remorseful. No one in this world would wish to be a victim of manipulation even though it happens whether you are conscious or unconscious of it. In the case you fall under manipulation, it is not necessarily someone in the Dark Psychology Triad, but you will face persuasion on a daily basis. Manipulation tactics always manifest themselves in regular commercials, Internet advertisements, sales tactics, and in your workplaces. If you are a parent, you must have come across these tactics in your everyday life since children tend to experiment with tactics so that they can get what they want. Dark Psychology is used by people who you genuinely love or trust. In Dark Psychology, the manipulators use the following tactics: They flood their targets with love, compliments, and buttering up to acquire what they want. They lie too much, exaggerate things, tell untruths or even tell partially true stories. They deny their love to those they are targeting through withholding their attention. They give some choice routes that distract you from the choice you do not want them to make. They apply reverse Psychology, which involves doing something which motivates their victim to do the opposite, which turns out to be what they wanted. They use words assumed to have the same definition, but later tell you they meant something else throughout the conversation. This book gives a comprehensive guide on the following: -What is dark psychology-How dark psychology is used in the world-Techniques of how dark psychology manages to manipulate people-Defending yourself from dark psychology-How dark psychology affects social life and people's relationships-Come up with your own technique-How manipulative behavior develops-Introduction to psychological warfare-Common tactics and techniques used to influence others-Case studies-Defending yourself against manipulation-Fly into their minds with kamikaze mind control-... The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.
