A mysterious invention causes mayhem in a coastal English village—from “my very favourite of the four Queens of Crime” (J. K. Rowling). The ancient hamlet of Saltey, once the haunt of smugglers, now hides a secret rich and mysterious enough to trap all who enter . . . and someone in town is willing to terrorize, murder, and raise the very devil to keep that secret to themselves. When a transistor thought to be the key to telepathic communication is found, Albert Campion is called to sort fact from fiction. But the device at the center of the mystery is in the possession of two schoolboys, and whether they stole it or invented it, there are others who will kill to get hold of it. “Allingham has a strong, well controlled sense of humour, a power of suggesting character with a few touches and an excellent English style. She has a sense of the fantastic, and is never dull” —Times Literary Supplement

more than Kylie's prepared for. Like discovering that her dad has been lying to her. That she has a family she never knew about. That the girls have powers similar to hers. Oh yeah, and that someone is out to get her. When the detective's teenage wanna-be-cop cousin, Trip Williams, approaches Kylie at school insisting she help him solve the case, she discovers Trip might be the only one she can trust, and the only one to help her unravel the secrets behind her mysterious gift.

Chocolates are fine and flowers rarely disappoint, but for relationships on the rocks, nothing says, 'I love you' like the promise of renewal. In I'm Not a Mind Reader, Babits reveals that too often, even the smartest people have difficulty

communicating, and we've learned over the years that love isn't enough to repair the normal wear and tear that occurs in relationships. So, what can couples do when even love itself fails? Babits lays out a totally unique blueprint for renewal in *The I'm Not a Mind Reader*, explaining that every message from one partner to another can be considered in terms of three separate dimensions: The surface level—this is the literal meaning of what partners say to one another The emotional subtext of the message—its emotional undertone The third dimension—evaluating the first two and comparing them with the goal of creating emotional safety within the dialogue Armed with this formula, whatever needs to be better understood, resolved, expanded or modified in the relationship can be addressed and communication brings coherence and connection. The person who practices three-dimensional communication lives in full and vibrant color compared with seeing everything in black and white. This new method is vivid and textured; it promotes the capacity to negotiate differences, to clarify misunderstandings, to heal confusions, and to reinvigorate passion and trust. In this book literary interior monologue is considered in relation to extraliterary phenomena, as well as narrative theory. The central question posed by this study is: what makes a particular interior monologue believable, given the unobservable nature of human thought? The discussion revolves around the

unobservable counterpart of literary interior monologue, i.e., what is known in psychology as inner speech. Taking various experimental findings and theories from Soviet and American research on inner speech, the author compares them with literary interior monologue and tries to account for similarities and differences. Examples of literary interior monologue are analyzed in comparison with data from the linguistic study of real oral spontaneous discourse (also known as face-to-face communication). In the context of this interdisciplinary framework four examples of literary interior monologue are considered: V.M. Garshin's *Four Days* (1877), E. Dujardin's *Les Lauriers sont coupés* (1887), A Schnitzler's *Leutnant Gustl* (1900) and V. Larbaud's *Amants, heureux amants...* (1921). The inclusion of data from psychology and research on face-to-face communication makes a unique contribution not only to narrative theory, but also to the understanding of the relationship between literary and extraliterary communication.

The Gallup Organization estimates that lack of employee engagement costs the U.S. economy between \$450 billion and \$550 billion each year. Yet incredibly, most employee engagement issues can be solved quite simply with better communication between managers and staff. Unfortunately, most managers dont talk to their staff enough, dont know what to talk about or dont know how to have the necessary conversations to motivate, drive performance and increase engagement. They lack tools to foster the kind of creativity, innovation and solutions-oriented work needed in todays Social Age. Mind Reading for Managers takes you through a step-by-step process to plan, conduct and document regular, robust, FOCUSed conversations with your staff on the five topics that research shows will make the biggest difference in employee engagement: Feedback, Objectives, Career Development, Underlying Motivators,

and Strengths. Mind Reading for Managers will help you peer into employees minds to discover what they need to create the kind of results that you and they can be proud of: a happier, more productive workplace and a more prosperous bottom line.

The internationally bestselling guide to "mind-reading" by influencing those around you via non-verbal communication, from human psychology expert Henrik Fexeus. How would you like to know what the people around you are thinking? Do you want to network like a pro, persuade your boss to give you that promotion, and finally become the life of every party? Now, with Henrik Fexeus's expertise, you can. The Art of Reading Minds teaches you everything you need to know in order to become an expert at mind-reading. Using psychology-based skills such as non-verbal communication, reading body language, and using psychological influence, Fexeus explains how readers can find out what another person thinks and feels— and consequently control that person's thoughts and beliefs. Short, snappy chapters cover subjects such as contradictory signs and what they mean, how people flirt without even knowing it, benevolent methods of suggestion and undetectable influence, how to plant and trigger emotional states, and how to perform impressive mind-reading party tricks. Fexeus gives readers practical (and often fun) examples of how to effectively mind-read others and use

this information, benevolently, both in personal and professional settings.
