Austen, Kaplan contends, participated actively in a women's culture that promoted female authority and achievement—a culture that not only helped her become a novelist but influenced her fiction.

The classic collection by one of the greatest essayists of our time. Selected by E.B. White himself, the essays in this volume span a lifetime of writing and a body of work without peer. "I have chosen the ones that have amused me in the rereading," he writes in the Foreword, "alone with a few that seemed to have the odor of durability clinging to them." These essays are incomparable; this is a volume to treasure and savor at one's leisure.

But World War I looms and even the influential Goldbaums cannot alter its course. The Trueba family embodies strong feelings. This family saga starts at the beginning of the 20th century and continues through the assassination of Allende in 1973. Doris Lessing's contemporary gothic horror story—centered on the birth of a baby who seems less than human—probes society's unwillingness to recognize its own brutality. While around them crime and unrest surge, the Lovatts are certain that their old-fashioned contentment can protect them from the world outside—until the birth of their fifth baby. Gruesomely goblin-like in appearance, insatiably hungry, abnormally strong and violent, Ben has nothing innocent or infant-like about him. As he grows older and more terrifying, Harriet finds she cannot love him, David cannot bring himself to touch him, and their four older children are afraid of him. Understanding that he will never be accepted anywhere, Harriet and David are torn between their instincts as parents and their shocked reaction to this fierce and unlovable child

This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century.

Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of "classics," adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the

powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.

Harry Johnson (1923–1977) was such a striking figure in economics that Nobel Laureate James Tobin designated the third quarter of the twentieth century as 'the age of Johnson'. Johnson played a leading role in the

development and extension of the Heckscher-Ohlin model of international trade. Within monetary economics he was also a seminal figure who identified and explained the links between the ideas of the major post-war innovators. His discussion of the issues that would benefit from further work set the profession's agenda for a generation. This book chronicles his intellectual development and his contributions to economics, economic education and the discussion of economic policy.

First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the
