Childress takes a deep look at Bigfoot Nation—the seemingly real world of bigfoot around us in the United States and Canada. Whether real or imagined, that bigfoot has made his way into the American psyche cannot be denied. He appears in television commercials, movies, and on roadside billboards. In fact, bigfoot is everywhere, with actors portraying him in variously believable performances and it has become the popular notion that bigfoot is both dangerous and horny. Indeed, bigfoot is out there stalking lover's lanes and is even more lonely than those frightened teenagers that he sometimes interrupts. Bigfoot, tall and strong as he is, makes a poor leading man in the movies with his awkward personality and typically anti-social behavior. He doesn't care a skunk's gland how many movies or commercials are made about him without any royalties whatsoever being paid. To him, Bigfoot Nation is all about style, a lifestyle—shall we say—that keeps bigfoot on the fringes of society, gently creeping into our dreams. When a corpse is found in a body of water, authorities generally presume that the manner of death was either an accident or a suicide. Deep within each one of us lies the ability to step up and care for those in need, even though we often feel overwhelmed by a complex world. In fact, more than 200 million people throughout the world offer their time and love to volunteering.

There is a sinister side to National Parks; one the Forest Service does not want you to know about...National Parks are a place for family fun, camping, and adventure. Millions of Americans and foreign tourists flock to National Parks around the globe each year. But for some, they go through the entrance, never to come out again. In the last century close to 1100 people have disappeared while on a visit to a National Park, just in the USA. Yet, research into this high rate of missing people associated with various National Parks around America is difficult. The National Park Service does not want anyone to research the missing, according to one ex-officer. Is a conspiracy in the works to ensure millions of visitors still come to the National Parks or is it a case of keeping details of an ongoing investigation quiet?

(www.canammissing.com) Missing-411 is the first comprehensive book about people who have disappeared in the wilds of North America.

It's understood that people routinely get lost, some want to disappear but this story is about the unusual. Nobody has ever studied the archives for similarities, traits and geographical clusters of missing people, until now. A tip from a national park ranger led to this three year, 7000+ hour investigative effort into understanding the stories behind people who have vanished. The book chronicles children, adults and the elderly who disappeared, sometimes in the presence of friends and relatives. As Search and Rescue personnel exhaust leads and places to search, relatives start to believe kidnappings and abductions have occurred. The belief by the relatives is not an isolated occurrence; it replicates itself time after time, case after case across North America. The research depicts 28 clusters of missing people across the continent, something that has never been exposed and was a shocking find to researchers. Topography does play a part into the age of the victims and certain clusters have specific age and sex consistency that is baffling. This is not a phenomenon that has been occurring in just the last few decades, clusters of missing people have been identified as far back as the 1800's. The manuscript for the research was extremely large so the story was split between two books, Missing 411 Western United States and Canada and Missing 411 Eastern United States. The Eastern version will be released in late March and will include a list of all missing people in each edition and a concluding chapter that draws both books together for conclusions. Some of the issues that are discussed in each edition: \* The National Park Service attitude toward missing people \* How specific factors in certain cases replicate themselves in different clusters \* Exposing cases involving missing children that aren't on any national database \* Unusual behavior by bloodhounds/canines involved in the search process \* How storms, berries, swamps, briar patches, boulder fields and victim disabilities play a role in the disappearance \* The strategies of Search and Rescue personnel need to change under specific circumstances Major news organizations do a deplorable job of covering stories and issues which are deemed too unusual or too far outside the box. Chances are, they will find a way to trivialize or ignore the disturbing evidence accumulated by David Paulides, a former lawman turned investigative journalist. The paper trail uncovered by Paulides through sheer doggedness is impressive, the evidence indisputable. People are vanishing without a trace from our national parks and forests, yet government agencies are saying nothing. At a minimum, this story deserves space on the frontpage of every newspaper in the country, and it warrants a formal high level inquiry by the federal agencies whose files leave little doubt that something very strange is unfolding in our wilderness. George Knapp, Host, Coast to Coast AM After reading this book, you will forever walk in the woods with a different awareness. People in the Woods are disappearing.... hikers missing in national parks, people lost to the woods never to return, people taken.... never found again... Natural predators can lurk in the wilderness; bears, mountain lions, cougars, and occasionally a hiker will be victim to these wild animals. They feed where they kill or drag their bloody victim to a nearby lair; they leave a trail that is obvious to searchers. However, the victims in this book show no evidence of an animal attack. For these victims, there is no logical explanation.... only cryptic mysteries, enigma and many unanswered questions... Baffling, strange, and cryptic cases. Based on True Stories. Bestselling Author Steph Young has appeared on radio shows including Coast to Coast AM, telling creepy unexplained mysteries of stories that come from her books, and her Podcast; Unexplained Mysteries with Steph Young. Missing 411 - Eastern United States Unexplained Disappearances of North Americans That Have Never Been Solved CreateSpace (www.canammissing.com) This is the third "Missing 411" book researching facts of people who have vanished in remote locations of the world. "Missing 411-North America and Beyond" is the first edition that discusses missing people and relevant facts from five countries (Australia, England, France, Iceland and Indonesia) outside of North America and examines the parallels between the cases. The book also includes a multitude of new stories from North America. There is a continuing trend of clusters of missing people in United States National Parks. The National Park Service has continued with their policy of failing to keep ledgers, track or otherwise document lists of missing people inside their parks and monuments. This edition has cases from Florida, Texas, Hawaii and forty other states. There are new clusters of missing people from Sequoia and Mount Rainier National Park, Three Sisters Wilderness (OR) and Adirondacks (NY). Canada has missing cases from six provinces that are documented. This new book brings further clarity to the missing person issue by examining multiple disappearances of people in small-confined areas and

exposing the similarities of their case. David Paulides also exposes a series of coed disappearances that date back to the early 1900's, which have unusual facts surrounding their case. "Missing 411-North America and Beyond" is the largest and most comprehensive of the trilogy, 472 pages. The Missing 411 series builds upon itself. It is recommended that you read "Missing 411-Western United States" first, then the eastern version and then "North America and Beyond." There is a historical aspect to this issue and there are common elements that run through the disappearances. \*\*\*\*\*One of the early reviews of "Missing 411-North America and Beyond" was written by New York Times Best Selling author Whitley Strieber: David Paulides has shined a light onto one of the greatest and most disturbing mysteries of our time: the simple and awful fact that people disappear, especially in our national parks, and little effort is made to find them, let alone inform the public about the danger. Even when massive searches are mounted, and people are found, the events surrounding their loss and recovery are often far beyond logical explanation. This is the most comprehensive and expertly presented series of books on the subject ever written, and the latest volume, which includes stories from five countries, is sobering, chilling and far too well researched to ignore. Essential reading. Whitley Strieber New York Times Best Selling Author \*\*\*\*\*

Janet Evanovich's #1 New York Times bestselling sensation Stephanie Plum returns in her twenty-fourth thriller as mutilated corpses litter the streets of New Jersey... Trouble comes in bunches for Stephanie Plum. First, professional grave robber and semi-professional loon, Simon Diggery, won't let her take him in until she agrees to care for his boa constrictor, Ethel. Stephanie's main qualification for babysitting an extremely large snake is that she owns a stun gun—whether that's for use on the wandering serpent or the petrified neighbors remains to be seen. Events take a dark turn when headless bodies start appearing across town. At first, it's just corpses from a funeral home and the morgue that have had the heads removed. But when a homeless man is murdered and dumped behind a church Stephanie knows that she's the only one with a prayer of catching this killer. If all that's not enough, Diesel's back in town. The 6-foot-tall, blonde-haired hunk is a man who accepts no limits—that includes locked doors, closed windows and underwear. As usual Jersey's favorite bounty hunter is stuck in the middle with more questions than answers. What's the deal with Grandma Mazur's latest online paramour? Perfect for readers of Jon Krakauer and Douglas Preston, this "authentic and encyclopedic" book examines real-life cases of those who vanish in the wilderness without a trace (Roman Dial)—and those eccentric, determined characters who try to find them. These are the stories that defy conventional logic. The proverbial vanished without a trace incidences, which happen a lot more (and a lot closer to your backyard) than almost anyone thinks. These are the missing whose situations are the hardest on loved ones left behind. The cases that are an embarrassment for park superintendents, rangers and law enforcement charged with Search & Rescue. The ones that baffle the volunteers who comb the mountains, woods and badlands. The stories that should give you pause every time you venture outdoors. Through Jacob Gray's disappearance in Olympic National Park, and his father Randy Gray who left his life to search for him, we will learn about what happens when someone goes missing. Braided around the core will be the stories of the characters who fill the vacuum created by a vanished human being. We'll meet eccentric bloodhound-handler Duff and R.C., his flagship purebred, who began trailing with the family dog after his brother vanished in the San Gabriel Mountains. And there's Michael Neiger North America's foremost backcountry Search & Rescue expert and self-described "bushman" obsessed with missing persons. And top researcher of persons missing on public wildlands Ex-San Jose, California detective David Paulides who is also one of the world's foremost Bigfoot researchers. It's a tricky thing to write about missing persons because the story is the absence of someone. A void. The person at the heart of the story is thinner than a smoke ring, invisible as someone else's memory. The bones you dig up are most often metaphorical. While much of the book will embrace memory and faulty memory—history—The Cold Vanish is at its core a story of now and tomorrow. Someone will vanish in the wild tomorrow. These are the people who will go looking.

Discover the bombshell cold case that rocked the state of Colorado for five years and changed the way many viewed their world forever. On October 2nd, 1999, 3 year-old Jaryd Atadero vanished on a group hike in the Comanche Peak Wilderness. As hours turned into days, and days into months, Jaryd's father Allyn goes through hell and high water to combat nightmarish circumstances hindering the search, threatening the very core of his existence - circumstances which would bring most ordinary people to the breaking point and beyond. Sound like fiction? It isn't. And it's only the very tip of the iceberg. But underlying the tragedy is an

insurmountable hope that can only come from above, and a sustaining love that redefines what it means to be a follower of Christ in the throes of losing the most precious thing on earth to a parent. "Missing: When the Son Sets" lets you step into the heart and soul of Allyn and his family as they struggle to come to grips with a mystery that remains unsolved to this day . . . Including the real police reports and letters from those involved in the search. You get an unfiltered look at how emotionally exhausting it is to lose a child. How did Jaryd vanish? Who (or what) took him? The book will leave you with more questions than answers, but with a heightened sense of the reality we live in. This is the most emotionally challenging book I have ever read. There were parts that left me feeling drained, and others that left me downright angry. If I had been in Allyn's shoes when he had to confront some of the situations he was faced with, I'd still be on probation... Do yourself a favor and pick up this book. Despite the tragic nature of the story, the grating frustrations faced by the Atadero family and those who fought for them, there is a strong inspirational foundation that will leave you strengthened in the end. (www.canammissing.com) People have been disappearing under mysterious circumstances for centuries. During the last 150 years the media has covered many of these cases and has attempted to put a rational spin on a very unusual event. After 3+ years and 7000 hours of intensive research there is a new paradigm being presented on people missing in the wilds of North America. "Missing 411" identifies 28 clusters of missing people who have vanished in remote areas of the continent. The finding is a troubling fact questioning why and how these people have disappeared. Some of the victims are found and tell a very interesting and mind bending story of their experience, others are never found, a fact that confounds searchers and law enforcement. There are many children that have disappeared under highly unusual circumstances. After weeks of searching and failing to find any evidence of the child being in a remote location, many parents and law enforcement draw the conclusion that the victim was kidnapped, yes, taken by someone lurking in remote areas of our national parks, forests, farms and even ranches. There are two editions of this research, "Missing 411-Eastern United States" and "Missing 411-Western United States." The eastern United States copy has a list of every person who is listed in each book as well as a final conclusion to the investigation. You will be shocked by the lack of interest and documentation that many of our governmental bodies have committed to missing people. Nogales inhabits La Frontera, the Arizona-Mexico border country that exists as much as a state of mind as a place. Here among the saguaro under the Sonoran desert sun came conquerors under the flags of Spain, Mexico, the United States, and the Confederate States. For twelve years, Andrea Lankford lived in the biggest, most impressive national parks in the world, working a job she loved. She chaperoned baby sea turtles on their journey to sea. She pursued bad guys on her galloping patrol horse. She jumped into rescue helicopters bound for the heart of the Grand Canyon. She won arguments with bears. She slept with a few too many rattlesnakes. Hell yeah, it was the best job in the world! Fortunately, Andrea survived it. In this graphic and yet surprisingly funny account of her and others' extraordinary careers, Lankford unveils a world in which park rangers struggle to maintain their idealism in the face of death, disillusionment, and the loss of a comrade killed while holding that thin green line between protecting the park from the people, the people from the park, and the people from each other. *Ranger Confidential* is the story behind the scenery of the nation's crown jewels—Yosemite, Grand Canyon, Yellowstone, Great Smokies, Denali. In these iconic landscapes, where nature and humanity constantly collide, scenery can be as cruel as it is redemptive.

A complex, poignant exploration of racial attitudes in America, as illumined by the case of Edmund Perry. Perry, a seventeen-year-old black honors student from Harlem, was fatally shot by a young white plainclothes policeman in 1985 in an alleged mugging attempt. Perry had recently graduated from Philips Exeter Academy and was to attend Stanford University that fall. The shooting and the subsequent case, in which Edmund's elder brother Jonah, an undergraduate at Cornell University, was accused, tried, and found not guilty, drew national headlines and was the subject of heated debate among black and white communities alike. Using interviews with Perry's parents, friends, and former teachers in Harlem and at Exeter, journalist Robert Sam Anson has written a compelling account of a boy caught between two worlds and a profound portrait of the state of race in America.

Destined to become a classic of adventure literature, *The Last Season* examines the extraordinary life of legendary backcountry ranger Randy Morgenson and his mysterious disappearance in California's unforgiving Sierra Nevada—mountains as perilous as they are beautiful. Eric Blehm's masterful work is a gripping detective story interwoven with the riveting biography of a complicated, original, and wholly fascinating man.

*Missing 411- A Sobering Coincidence* is the fifth book in the acclaimed series about people who have mysteriously disappeared. The books have been vetted by some of the top journalists in the world with statements such as; "David Paulides has shined a light onto one of the greatest and most disturbing mysteries of our time." Another comment; "The paper trail uncovered by Paulides through sheer doggedness is impressive, the evidence indisputable." Survivorman Les Stroud was interviewed about the series and stated, "Paulides presents pure facts. Facts that can't be disputed." The author continues with his profile points involving the disappearances and applies them to a series of incidents involving young men and women, mostly college age. Many of the victims vanished within the confines of their college or university town. These individuals were brilliant scholars, athletes and stellar people in their community. They disappear under unusual circumstances and are often found in areas that were previously searched. Medical examiners in these cases often cannot determine the cause of death. Many times the victim was recovered in water, yet autopsies show the body was not in the water the entire time the victim was missing. The majority of the families in these cases believe their loved ones were abducted and held, then later dumped in the water. These allegations are generally ignored by authorities until pressured by facts presented through secondary autopsies that families requested and paid for. This is a chilling and shocking series of stories that will cause many parents and young people to rethink their nighttime activities. Further research into Middle America bigfoot sightings indicates a strong connection between bigfoot and Native Americans, and witness descriptions show a strong human likeness. The latest research from the author of the groundbreaking *The Hoopa Project: Bigfoot Encounters in California* named 2008 Bigfoot Book of the Year by Cryptomundo.com. Dave Paulides brings his law-enforcement investigative and analytical skills to an expanded area of research: the counties in Northern California that have reported the greatest numbers of bigfoot occurrences, and beyond to Minnesota and Oklahoma. Gaining access to many people who have never discussed their bigfoot experiences publicly before now, the author obtains intriguing details that broaden our perception of the elusive creature; and his subsequent analysis leads to the discovery of a strong and consistent link between bigfoot and the Native American community. The expert interview and artistic skills of forensic artist Harvey Pratt help to define the creatures described by the witnesses - - once again with astonishing and illuminating results. The presentation of startling new forensic evidence indicates that there truly is an as-yet-unidentified primate living in the wilds of North America, and the author hints at new data on the horizon that will finally provide the tantalizing truth about the existence of bigfoot in North America.

As seen on the Oxygen mini-series *The Disappearance of Maura Murray* When an eleven year old James Renner fell in love with Amy Mihaljevic, the missing girl seen on posters all over his neighborhood, it was the beginning of a lifelong obsession with true crime. That obsession leads James to a successful career as an investigative journalist. It also gave him PTSD. In 2011, James began researching the strange disappearance of Maura Murray, a UMass student who went missing after wrecking her car in rural New Hampshire in 2004. Over the course of his investigation, he uncovers numerous important and shocking new clues about what may have happened to Maura, but also finds himself in increasingly dangerous situations with little regard for his own well-being. As his quest to find Maura deepens, the case starts taking a toll on his personal life, which begins to spiral out of control. The result is an absorbing dual investigation of the complicated story of the All-American girl who went missing and James's own equally complicated true crime addiction. James Renner's *True Crime Addict* is the story of his spellbinding investigation of the missing person's case of Maura Murray, which has taken on a life of its own for armchair sleuths across the web. In the spirit of David Fincher's *Zodiac*, it is a fascinating look at a case that has eluded authorities and one man's obsessive quest for the answers.

In this "perfect 'fix' for the thriller aficionado" (Associated Press) and #1 New York Times bestseller, maverick FBI detective Amos Decker must forge an uneasy alliance with the Defense Intelligence Agency to prevent an international incident that could spell the end of the United States as we know it. Amos Decker witnesses a murder just outside FBI headquarters. A man shoots a woman execution-style on a crowded sidewalk, then turns the gun on himself. Even with Decker's extraordinary powers of observation and deduction, the killing is baffling. Decker and his team can find absolutely no connection between the shooter -- a family man with a successful consulting business -- and his victim, a schoolteacher. Nor is there a hint of any possible motive for the attack. Enter Harper Brown. An agent of the Defense Intelligence Agency, she orders Decker to back off the case. The murder is part of an open DIA investigation, one so classified that Decker and his team aren't cleared for it. But they learn that the DIA believes solving the murder is now a matter of urgent national security. Critical information may have been leaked to a hostile government -- or worse, an international terrorist group -- and an attack may be imminent. Decker's never been one to follow the rules, especially with the stakes so high. Forced into an uneasy alliance with Agent Brown, Decker remains laser focused on only one goal: solving the case before it's too late.

As the Nazi war machine caused death and destruction throughout Europe, one man in the Fatherland began his own reign of terror. This is the true story of the pursuit and capture of a serial killer in the heart of the Third Reich. For all appearances, Paul Ogorzow was a model German. An employed family man, party member, and sergeant in the infamous Brownshirts, he had worked his way up in the Berlin railroad from a manual laborer laying track to assistant signalman. But he also had a secret need to harass and frighten women. Then he was given a gift from the Nazi high command. Due to Allied bombing raids, a total blackout was instituted throughout Berlin, including on the commuter trains—trains often used by women riding home alone from the factories. Under cover of darkness and with a helpless flock of victims to choose from, Ogorzow's depredations grew more and more horrific. He escalated from simply frightening women to physically attacking them, eventually raping and murdering them. Beginning in September 1940, he started casually tossing their bodies off the moving train. Though the Nazi party tried to censor news of the attacks, the women of Berlin soon lived in a state of constant fear. It was up to Wilhelm Lüdtkke, head of the Berlin police's serious crimes division, to hunt down the madman in their midst. For the first time, the gripping full story of Ogorzow's killing spree and Lüdtkke's relentless pursuit is told in dramatic detail. From the Hardcover edition.

INSTANT NATIONAL BESTSELLER WINNER OF THE WRITERS' TRUST SHAUGHNESSY COHEN PRIZE WINNER OF THE OTTAWA BOOK AWARD FOR NONFICTION ?Former Chief Justice of the Supreme Court of Canada Beverley McLachlin offers an intimate and revealing look at her life, from her childhood in the Alberta foothills to her career on the Supreme Court, where she helped to shape the social and moral fabric of the country. As a young girl, Beverley McLachlin's world was often full of wonder—at the expansive prairie vistas around her, at the stories she discovered in the books at her local library, and at the diverse people who passed through her parents' door. While her family was poor, their lives were rich in the ways that mattered most. Even at a young age, she had an innate sense of justice, which was reinforced by the lessons her parents taught her: Everyone deserves dignity. All people are equal. Those who work hard reap the rewards. Willful, spirited, and unusually intelligent, she discovered in Pincher Creek an extraordinary tapestry of people and perspectives that informed her worldview going forward. Still, life in the rural Prairies was lonely, and gaining access to education—especially for girls—wasn't always easy. As a young woman, McLachlin moved to Edmonton to pursue a degree in philosophy. There, she discovered her passion lay not in academia, but in the real world, solving problems directly related to the lives of the people around her. And in the law, she found the tools to do exactly that. She soon realized, though, that the world was not always willing to accept her. In her early years as an articling student and lawyer, she encountered sexism, exclusion, and old boys' clubs at every turn. And outside the courtroom, personal loss and tragedies struck close to home. Nonetheless, McLachlin was determined to prove her worth, and her love of the law and the pursuit of justice pulled her through the darkest moments. McLachlin's meteoric rise through the courts soon found her serving on the highest court in the country, becoming the first woman to be named Chief Justice of the Supreme Court of Canada. She rapidly distinguished herself as a judge of renown, one who was never afraid to take on morally complex or charged debates. Over the next eighteen years, McLachlin presided over the most prominent cases in the country—involving Charter challenges, same-sex marriage, and euthanasia. One judgment at a time, she laid down a legal legacy that proved that fairness and justice were not luxuries of the powerful but rather obligations owed to each and every one of us. With warmth, honesty, and deep wisdom, McLachlin invites us into her legal and personal life—into the hopes and doubts, the triumphs and losses on and off the bench. Through it all, her constant faith in justice remained her true north. In an age of division and uncertainty, McLachlin's memoir is a reminder that justice and the rule of law remain our best hope for a progressive and bright future.

Missing 411- Off The Grid Missing 411- Off The Grid is the seventh book in the best selling series about missing people. The books are based on actual law enforcement, search and rescue and archived reports of incidents. The author has based the narrative on delivering the facts and not making unsubstantiated claims. Thousands of case files were reviewed and what's presented are incidents that fit narrow criteria of established profile points. According to the Urban Dictionary, Off the Grid means, "untraceable through normal means." The individuals that are documented in this seventh book of the Missing 411 series fit this definition to perfection. The disappearances involve physicists, physicians, professors, hikers, hunters, children, and joggers. Cases from thirty states, six Canadian provinces and five countries are included. Each of these stories is new to the Missing 411 series. Disappearances from national parks, forests and open spaces that have never been discussed or compared to similar instances are included. Updated tables from past books assist the reader in understanding the vast numbers of missing that fit the established profile. Early reviewers of this book have called it the most intriguing and thought-provoking of the series. Author David Paulides is an investigative reporter, twenty-year police officer/detective and the director of the Canam Missing Project (www.canammissing.com), the organization behind the search for understanding the missing person issue. He recently released a movie based on the books, Missing 411, which a former LA Magazine and NBC movie critic rated it the best documentary for 2017. He has presented his findings to the most attended annual search and rescue conference in the world, NASAR and has spoken at hundreds of seminars, symposiums, and meetings.
