

Mitsubishi Lancer Evo I To X The Road Car Wrc Story Evo I To Evo X

The definitive international history of one of the world's most successful rally cars. Covers every Lancer model - including all special editions, and Dodge, Colt, Plymouth, Valiant, Eagle, Proton and Hyundai variants - from 1973 to date. Includes a Foreword by Shinichi Kurihara, Mitsubishi's Evo team leader.

The Lancer name conjures up many different images. For some, it evokes memories of the first generation cars, introduced in 1973, which fought with the best on the Safari Rally and came out the victors. Others will remember the second generation models--especially the turbocharged versions, the original Mitsubishi wolf in sheep's clothing--and who could not be aware of the Evolution (Evo) series, launched in 1992? Forged in the fierce heat of WRC competition and honed by years of continuous development, the Lancer Evolution is not only one of the greatest rally cars of all time, it is also a desirable high-performance road car, too. Written in Japan with the full cooperation of Mitsubishi and key staff members, this is the definitive international story of all the world's Lancers, whether they carried Mitsubishi, Dodge, Colt, Plymouth, Valiant, Eagle, Proton or Hyundai badges, with special emphasis on the Evolution models.

For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that

important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

The photos in this edition are black and white. Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California. RRE is the most well-known and respected Mitsubishi turbo performance shop in the United States, and Garcia is its in-house engine builder. Mitsubishi enthusiasts will benefit from Garcia's expertise and be able to build better, stronger engines than ever before. "How to Build Max-Performance Mitsubishi 4G63t Engines" covers every system and component of the engine, including the turbocharger system and engine management. More than just a collection of tips and tricks, this book includes a complete history of the engine and its evolution, an identification guide, and advice for choosing engine components and other parts. Profiles of successful built-up engines show the reader examples of what works, and the book includes helpful guidance for choosing your own engine building path.

Singapore's best homegrown car magazine, with an editorial dream team driving it. We fuel the need for speed!

What began as a solution for transportation has evolved into a desire for speed, luxury, personal expression, and freedom. For many, the thrill of the drive has eclipsed the pure utility of the automobile. And the pursuit of that thrill is the driving force behind 365 Cars You Must Drive. From the Ford Model T to the Porsche Carrera GT, there are certain cars

that any self-respecting auto enthusiast just has to know—and experience from the driver's seat. With homage to the greatest cars and good-natured mockery of the strangest, authors Matt Stone and John Matras detail which cars to drive and why, how to get behind the wheel, where to drive them, and who to invite along for the ride. Each entry contains a colorful spec box noting the car's claim to fame, a Did You Know? factoid, the author's clever suggestions for "The Perfect Passenger" and the "Soundtrack" coming out of the speakers, Behind the Wheel notes, and a "Perfect Drive" for the marque or model covered. Engine details, production information, the price when it debuted and the collectible price now - all of it adds up to at-a-glance fun reading to go with informative essays on each car, archival and full-color photos, and more. Whether you prefer the more classic car of the 1920s or fast, extreme cars that you'll almost certainly never get to drive but really wish you could, this book has everything you need to know. This indispensable guide can be referred to time and time again and there will always be something new to discover. There is a detailed synopsis on each model of car which includes information such as the country of origin, the year of first manufacture, engine type, performance levels and a fact that all car fanatics 'really should know'.

Ken Genie knows tragedy. His dad passed away and his brother ditched town. Ken also knows cars. He studies them, obsessively. But his mother is afraid to lose another son, and she won't let Ken get behind the wheel. Local millionaire Edmond Tremonte has a grudge against the Genie family. And he plans to take it out on their entire Alaska town. When Tremonte loses his business and then his mind, he builds a mechanical beast designed for maximum damage. And despite the wishes of Ken's mom, Ken and his Mitsubishi might be the only things that can stop Tremonte's reign of terror. Includes real tech specs and tuning details for the Mitsubishi Eclipse!

The automobile seems to be as popular now as it ever was. Posters of cars still adorn many a child's bedroom wall, and school exercise books are full of doodles of cars. This book takes those notebook sketches and teaches you how to develop them into the car designs you see in magazines. Using simple to follow step-by-step drawings it guides you from pencil sketch to marker rendering, from doodle to highly visual computer generated artwork. Adrian Dewey has worked on designs as diverse as small sports cars to double decker buses, modified motors to concept Formula 1 cars, using various techniques and styles. In this book, he uses his knowledge of the different styles to guide the reader in creating great artwork and designs of their own. The book shows in detail how to use different materials and how to get the most out of each one, whether it be a great pencil sketch or a photo realistic vector illustration. The book also features an easy to follow index for quick reference on different types of drawing. The intense rivalry between Mitsubishi's Lancer Evolution and Subaru's Impreza WRX is chronicled in the 400+ pages of this book by veteran automotive journalist Huw Evans. These dueling all-wheel-drive, turbocharged four-cylinders have battled each other on rally stages, road courses, drag strips, and the street across two decades and around the globe, attracting millions of rabid fans in the process. WRX vs. Evo tells the story of these groundbreaking cars from their inception to the present day. Additional coverage includes the most complete compilation of special edition cars to be found anywhere, a full rundown of official factory specs, nearly 200 photos of street and rally cars, and historical information about the two companies and the engineering, design, and race histories of these high-performance machines.

"The story of how Kris Meeke and Peugeot UK won the Intercontinental Rally Championship in their rookie year, from the disasterous opening round in Monte Carlo, to the ecstasy of winning the Sanremo rally and the championship in the same weekend."--Back cover.
