What to Read When Pam Allyn,2009-04-02 Read Pam Allyn's posts on the Penguin Blog The books to read aloud to children at the important moments in their lives. In What to Read When, award-winning educator Pam Allyn celebrates the power of reading aloud with children. In many ways, books provide the first opportunity for children to begin to reflectively engage with and understand the world around them. Not only can parents entertain their child and convey the beauty of language through books, they can also share their values and create lasting connections. Here, Allyn offers parents and caregivers essential advice on choosing appropriate titles for their children—taking into account a child's age, attention ability, gender, and interests— along with techniques for reading aloud effectively. But what sets this book apart is the extraordinary, annotated list of more than three hundred titles suitable for the pivotal moments in a child's life. With category themes ranging from friendship and journeys to thankfulness, separations, silliness, and spirituality, What to Read When is a one-of-a-kind guide to how parents can best inspire children through reading together. In addition, Pam Allyn

includes an indispensable “Reader’s Ladder” section, with recommendations for children at every stage from birth to age ten. With the author’s warm and engaging voice throughout, discussion questions to encourage in-depth conversations, as well as advice on helping kids make the transition to independent reading, this book will help shape thoughtful, creative, and curious children, imparting a love of reading that will last a lifetime. Mentor Texts Rose Cappelli,2023-10-10 In their first edition of Mentor Texts, authors Lynne Dorfman and Rose Cappelli helped teachers across the country make the most of high-quality children's literature in their writing instruction. The second edition includes brand-new Your Turn Lessons, built around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. At the end of each chapter a Think About It'sTalk About It'sWrite About It section invites reflection and conversation with colleagues.The book is organized around the characteristics of good writing'sfocus, content, organization, style, and conventions. Understanding Diversity Through Novels and Picture Books Liz Knowles,Martha Smith,2007-05-30 Understanding Diversity Through Novels and Picture Books goes beyond the usual multicultural lists and looks at the wide expanse of the diversity of cultures and lifestyles impacting children's lives in America today and identifies good books to have in library collections for them to read. Included are annotated titles with discussion questions from all of the identified cultures and subcultures and annotated teacher/librarian resources, print- and Web-based, as well as an excellent list of topical annotated journal articles. Grades 4-8. Knowles and Smith examine current research on diversity and multiculturalism. They move away from the traditional aspects of multicultural education (food, fashion, folktales, festivals, and famous people) to a focus on novels and pictures books, and realistic fiction to show children with diversity issues that there are others in similar positions. The issue of authenticity (whether the author of the book should be of that culture or merely familiar with the culture) is discussed. Topics include: Ethnicities (Asian, Latino/Hispanic, African/Black, Native American, White/European, Bi/Multiracial), Exceptionalities, Ageism, Socioeconomic Status, Sexual Orientation, Gender, and Religion. The authors provide this valuable resource for libraries, schools, and communities that wish to utilize literature to help diverse students walk in the shoes of others and to match books to children and young adults to heighten understanding and acceptance. Grades 4-8.

Transformations in Stories and Arguments Tamra Stambaugh, Eric Fecht, Kevin Finn, 2021-09-09 Transformations in Stories and Arguments explores essential questions, such as How does the development of a character build the reader's understanding? This unit, developed by Vanderbilt University's Programs for Talented Youth, is aligned to the Common Core State Standards and features accelerated content, creative products, differentiated tasks, engaging activities, and the use of in-depth analysis models to develop sophisticated skills in the language arts. Ideal for gifted classrooms or gifted pull-out groups, the unit features stories by Dan Santat, Fiona Robertson, Jannell Cannon, Christopher Myers, Maurice Sendak, Daniel Manus Pinkwater, Jane Yolen, and Patricia Polacco; poetry by Carl Sandburg; sculptures by Arturo Di Modica and Kristen Visbal; a viewing of Pixar's short film Lou and a variety of commercials; and engaging short nonfiction readings.
