ABOUT THE BOOK Since the terrorist attack of September 11th America has been filled with clouds of evil. They have darkened our reason and covered us with ashes of anger. How do we sort out our feelings of revenge and retaliation with those of understanding, compassion and love? Some of us believe knowledge of American history will give us the insight and maturity that we need to help our nation through this war on terrorism. We need to understand the basic principles of democracy and freedom to know what we have fought for in the past and what we fight for now. Americans need to rededicate themselves to the cause of freedom to face the future. Freedom should not be taken for granted because there are those who would take it from us. We need to understand that some governments terrorize and abuse their people. These governments intentionally control their people by keeping them oppressed and ignorant. The history of our country is great but as Thomas Jefferson warned: "If a nation expects to be ignorant and free, it expects what never was and never will be." A recent alarming ACTA report which polled seniors at the nation's top 55 colleges indicates that we have a generation of Americans who are historically illiterate. The survey revealed that almost half would fail the basic test in American history required for immigrants who seek citizenship in the United States. American Symbols For Schools has the common information about the different state flowers, birds and trees as well as information about the many new symbols which the states have enacted which includes their scientific names and dates of inception it also includes the active and colorful history of each state and interesting facts and trivia about the states. This special commemorative Civics and History reference book also contains the American Symbols Collection (flags, seals and more than 150 photographs of American symbols), National symbols, History, National Parks, Places of Interest, Tourist Information, United We Stand Anthem, Song and Bookmark. Editorial Reviews From the Author As author of this keepsake edition I have taken great care in compiling this information to insure its value to you in your library. Book Excerpt friend or any means to procure one. Soon after I came to the merchant's house I heard the drums beat remarkably loud, and the trumpets blow--the persons accustom'd to this employ, are oblig'd to go upon a very high structure appointed for that purpose, that the sound might be heard at a great distance: They are higher than the steeples are in England. I was mightily pleas'd with sounds so entirely new to me, and was very inquisitive to know the cause of this rejoicing, and ask'd many questions concerning it: I was answer'd that it was meant as a compliment to me, because I was Grandson to the King of Bournou. This account gave me a secret pleasure; but I was not suffer'd long to enjoy this satisfaction, for in the evening of the same day, two of the merchant's sons (boys about my own age) came running to me, and told me, that the next day I was to die, for the King intended to behead me.--I reply'd that I was sure it could not be true, for that I came there to play with them, and to see houses walk upon

Forty acres or a savings bank -- Capitalism without capital -- The rise of black banking -- The new deal for white America -- Civil rights dreams, economic nightmares -- The decoy of black capitalism -- The free market confronts black poverty -- The color of money matters

Generally, books addressing the early history of African American banks have done so either within the larger construct of African American business history and economic development, or as a starting point to explore current issues related to financial services. Focused considerations of these early institutions and their founders have been relatively rare and somewhat scattered. This publication seeks to address this issue.

P. T. Barnum, the great American showman of the 19th century, wrote this short book about making and keeping money. He certainly had life experiences that qualify him for the subject--he started a small newspaper in his twenties, bought and transformed a museum into a showplace for curiosities, built a circus empire that gave performances in America and Europe, promoted a performing tour of a singer, fell into debt in the 1850s and pulled himself out by lecture tours, was a mayor, and founded a hospital. Excerpts: "Those who really desire to attain an independence, have only to set their minds upon it, and adopt the proper means, as they do in regard to any other object which they wish to accomplish, and the thing is easily done. But however easy it may be found to make money, I have no doubt many of my hearers will agree it is the most difficult thing in the world to keep it. ... True economy consists in always making the income exceed the out-go." "Unless a man enters upon the vocation intended for him by nature, and best suited to his peculiar genius, he cannot succeed. I am glad to believe that the majority of persons do find their right vocation. Yet we see many who have mistaken their calling..." His advice is indicated by the chapter titles: DON'T MISTAKE YOUR VOCATION, SELECT THE

RIGHT LOCATION, AVOID DEBT, PERSEVERE, WHATEVER YOU DO, DO IT WITH ALL YOUR MIGHT, USE THE BEST TOOLS, DON'T GET ABOVE YOUR BUSINESS, LEARN SOMETHING USEFUL, LET HOPE PREDOMINATE, BUT BE NOT TOO VISIONARY, DO NOT SCATTER YOUR POWERS, BE SYSTEMATIC, READ THE NEWSPAPERS, BEWARE OF "OUTSIDE OPERATIONS", DON'T INDORSE WITHOUT SECURITY, ADVERTISE YOUR BUSINESS, "DON'T READ THE OTHER SIDE", BE POLITE AND KIND TO YOUR CUSTOMERS, BE CHARITABLE, DON'T BLAB, PRESERVE YOUR INTEGRITY.

The Church Mafia is a thought-provoking and tell-all book inspired by the life of Makhado Sinthumule Ramabulana, who took a courageous step to reveal how God saved him from secret and occult societies. He explores themes of his life in the ministry, commercialisation of the gospel, lessons learnt from countries he travelled to in an effort to gain powers, and detail of the occult operation. After years of struggling to accomplish his mission of pastoring a mega church and impacting the world, he became frustrated, strayed from his true calling and fell into the trap of exploring secret powers hidden in the church today. He operated as General Khatha-Khatha within a counterfeit spiritual movement that operates under the banner of prophecy and instant miracles. This movement operates using secret powers to attract huge crowds, charges consultation fees, and promises people miracle money; leaders of this movement also perform false prophecies and staged miracles. After reading the Church Mafia, you will begin to understand that most operations in churches today are influenced by secret societies. This book will enable you to be enlightened and never to be fooled by any false doctrine practised in the church today. The main aim of the book is to make the Body of Christ at large aware of the secret operation that has captured so many churches today. It is hoped that after reading this book, your life will be enriched.

One act set in motion a chain of events that threatened one Catholic community's ability to thrive. It happened between 1945 and 1946 at the headquarters of the Archdiocese of Detroit in the Chancellor's office. Msgr. John C. Ryan called an emergency meeting with the cardinal... And so the stage was set for the years of turmoil that followed and the subsequent demise of this once vibrant church. Here comes the author who gives the reader an intimate look at her church, the township she grew up in, and its historical significance to World War II, Henry Ford's auto plant, migration from the south, and the housing crisis that was unfolding. The reader is introduced to the pioneers of this West Eight Mile Community who helped shape and establish this community that shaped her. But the book takes a different turn as the research uncovers forgotten secrets... Today (2014) this little church is in danger of closing its physical doors forever!! Stay tuned as this story continues to unfold.

5/5 No Compromise is an African centered perspective on solving the x factor in the human equation: 3/5 slave + x = 5/5 whole human beings, for Black Americans, specifically, and Black people world wide in general. The book written by Jeff Weaver, is inspired and driven by the divine wisdom of Almighty God, the African Forces (Lwa, Orisa, Obosum) / Holy Spirit and the ancestors. The premise of 5/5 No Compromise is to establish the fact that: 1) The United States Constitution codified the value of Black lives, in Article I. Section 2, Chapter 3 (more popularly known as the "3/5 Clause") as "3/5 of a person." A codification which has never been, expressly, amended or eradicated; and 2) in order for Black victims of the trans Atlantic slave trade, white supremacy and colonialism to establish their genuine human status they must embrace their own traditions, customs and culture, in an autonomous mutual respect based co-existence with their former slave masters and governors. Furthermore, in order to connect the various "splinters" of Black sub-cultures that exist in the US and globally, there must be an establishment of the one cultural thread that exist in common with the genetic heredity of the people in question. For Black Americans and Black people, worldwide, that common cultural thread is the drum pulse which originated in Africa. It is the one cultural element that is powerful and consistent, wherever Black people are heavily populated in the world. The author, Jeff Weaver calls that thread, "drum centered culture" and has identified it as the key element in sowing together the global cultural fabric that will restore Black people to a 5/5 autonomous culture of thriving human beings, with lives that matter.

"Although written by a property investor, this book is much more about the psychology of success than it is about real estate. Liberally spiced with stories that stir the emotions as well as material to stimulate the mind, the adventures and lessons in this book bring to light the essence of freedom that dwells within us all."--Back cover.

A good man is hard to find, as the famous 1919 song by Eddie Green attests, but the pioneering Black filmmaker, movie star, Old Time Radio icon, and composer established himself as the living portrait of all that is admirable. His legacy now inspires a whole new generation. In an era when Black entertainers struggled to gain a foothold in show business, Eddie Green rivaled Oscar Micheaux for honors as a pioneering Black filmmaker. Audiences from The Apollo to Broadway propelled Eddie into two of America's most popular long-running radio series. From poverty to prominence, he accomplished more than most people could dream. Discover Eddie's rags-to-riches story as told by his daughter. Her years of research have unearthed long-buried revelations and enlightening images that testify to one man's determination to rise above all obstacles and triumph against all odds through five decades from Vaudeville to television and then into the stuff of legends. The sands of time may have buried his name, but Eddie Green's laughter still echoes around the world. Thanks to this first-ever biography, a good man is no longer hard to find. Illustrated. Appendices include songs written by Eddie Green; the radio programs and movies in which he appeared; the movies he wrote, produced, and directed; rare script excerpts.

BLACK HISTORY EXTRAVAGANZA honoring Dr. Ben-Jochannan is a labor of love for someone intimately associated with the master teacher for some 40 years as student, traveling companion, mentee and friend. In repayment, this effort to help acknowledge and sustain his name, life's work and historical and philosophic outlook is necessary so the younger generation know of the enormous intellectual light this extraordinary scholar represented in those extremely challenging social and intellectual times of the last half century. As the systematic onslaught against the African (Black) personality continued, one particular scholar, lecturer, historian, publisher, archaeologist and tour guide to Egypt stood unmoved and unrelenting in defense of an entire people's history, culture and spiritual well-being. In this, Dr. Ben took on all disparaging comers as he educated and nurtured intellectual "cubs" becoming equipped to challenge historical distortion and omission manifested from the false mantle of global white supremacy. To accomplish the enormous task, Dr. Ben wrote, innovated self-publishing, lectured, and took students to museums and to Egypt pointing out contradictions between the Existential Data and the symbolic Representation of ancient Egypt. Table of Contents, viz., Introduction; The Awesome Egyptian Temple; Who were the Ancient Egyptians;? The Archaeology of Egypt; The Art of Ancient Egypt; Architecture of Ancient Egypt; The Religion of Ancient Egypt; and the History of Egypt, Dr. Ben made a substantial impact while educating students as to the utility and benefits of studying the illustrious African past, emphasizing they accentuate the positive and reject negative aspects of that memorable experience. Like the many intellectual lights, "warrior scholars," of his age, viz., Dr. John Henrik Clarke, Ivan Van Sertima, Leonard James, Carter G. Woodson, Benjamin Carruthers, J.A. Rogers, Jitu Weusi, Leonard Jeffries, among others, Dr. Ben subscribed to one unmistakable academic admonition pursuing excellence, "Publish or Perish." This continuum of praise (Celebrating Dr. Yosef Ben-Jochannan), Black History Extravaganza seeks a starting point for readers, young and old to delve deep and drink from the remarkable fountain represented in fields of study which engaged the great scholar for more than half-a-century.

The award-winning Black Wealth / White Wealth offers a powerful portrait of racial inequality based on an analysis of private wealth. Melvin Oliver and Thomas Shapiro's groundbreaking research analyzes wealth - total assets and debts rather than income alone - to uncover deep and persistent racial inequality in America, and they show how public policies have failed to redress the problem. First published in 1995, Black Wealth / White Wealth is considered a classic exploration of race and inequality. It provided, for the first time, systematic empirical evidence that explained the racial inequality gap between blacks and whites. The Tenth Anniversary edition contains two entirely new and substantive chapters. These chapters look at the continuing issues of wealth and inequality in America and the new policies that have been launched in the past ten years. Some have been progressive while others only recreate inequality - for example the proposal to eliminate the estate tax. Compelling and also informative, Black Wealth / White Wealth is not just pioneering research. It is also a powerful counterpoint to arguments against affirmative action and a direct challenge to current social welfare policies that are tilted towards the wealthy.

"You're in luck, Alfred," he declared. "That's the most interesting man in New York-one of the most interesting in the world. That's Sanford Quest." "Who's he?" "You haven't heard of Sanford Quest?" "Never in my life." The young man whose privilege it was to have been born and lived all his days in New York, drank half a glassful of wine and leaned back in his chair. Words, for a few moments, were an impossibility. "Sanford Quest," he pronounced at last, "is the greatest master in criminology the world has ever known. He is a magician, a scientist, the Pierpont Morgan of his profession." "Say, do you mean that he is a detective?" The New Yorker steadied himself with an effort. Such ignorance was hard to realise-harder still to deal with. "Yes," he said simply, "you could call him that-just in the same way you could call Napoleon a soldier or Lincoln a statesman..."

For every dollar owned by the average white family in the United States, the average family of color has less than a dime. Why do people of color have so little wealth? The Color of Wealth lays bare a dirty secret: for centuries, people of color have been barred by laws and by discrimination from participating in government wealth-building programs that benefit white Americans. This accessible book—published in conjunction with one of the country's leading economics education organizations—makes the case that until government policy tackles disparities in wealth, not just income, the United States will never have racial or economic justice. Written by five leading experts on the racial wealth divide who recount the asset-building histories of Native Americans, Latinos, African Americans, Asian Americans, and European Americans, this book is a uniquely comprehensive multicultural history of American wealth. With its focus on public policies—how, for example, many post-World War II GI Bill programs helped whites only—The Color of Wealth is the first book to demonstrate the decisive influence of government on Americans' net worth.

"By telling the little-known stories of six pioneering African American entrepreneurs, Black Fortunes makes a worthy contribution to black history, to business history, and to American history."—Margot Lee Shetterly, New York Times Bestselling author of Hidden Figures Between the years of 1830 and 1927, as the last generation of blacks born into slavery was reaching maturity, a small group of industrious, tenacious, and daring men and women broke new ground to attain the highest levels of financial success. Mary Ellen Pleasant, used her Gold Rush wealth to further the cause of abolitionist John Brown. Robert Reed Church, became the largest landowner in Tennessee. Hannah Elias, the mistress of a New York City millionaire, used the land her lover gave her to build an empire in Harlem. Orphan and self-taught chemist Annie Turnbo-Malone, developed the first national brand of hair care products. Mississippi school teacher O. W. Gurley, developed a piece of Tulsa, Oklahoma, into a "town" for wealthy black professionals and craftsmen that would become known as "the Black Wall Street." Although Madam C. J Walker was given the title of America's first female black millionaire, she was not. She was the first, however, to flaunt and openly claim her wealth—a dangerous and revolutionary act. Nearly all the unforgettable personalities in this amazing collection were often attacked, demonized, or swindled out of their wealth. Black Fortunes illuminates as never before the birth of the black business titan.

In 1863 black communities owned less than 1 percent of total U.S. wealth. Today that number has barely budged. Mehrsa Baradaran pursues this wealth gap by focusing on black banks. She challenges the myth that black banking is the solution to the racial wealth gap and argues that black communities can never accumulate wealth in a segregated economy.

When entrepreneur Len Forkas learned that his nine-year-old son had leukemia, his own life changed forever. In 2003, Len founded Hopecam, a nonprofit that uses technology to connect young cancer patients with their friends at school. Ten years later, Len's fight against childhood cancer rose to a new level. He qualified as a solo competitor in Race Across America, a 3,000-mile bicycle race that traverses scorching deserts and 11,000-foot mountain elevations. As Len fought to finish the race in just 12 days, an all-volunteer crew supported him around the clock. What Spins the Wheel is a true story about fatherhood and fortitude, business grit and growth ? and the power of combining the right mission with the right team to help others.

Everybody wants to think of a great idea that will make them rich. A good indication that you have a great idea is that someone copies it but, by then it can be too late. This is too bad as a lot of the knowhow to protect your ideas is free but buried in a mass of detail and exceptions which most people put in the "too hard" basket. Some IP protection you must pay for, such as trademarks but it is well worth it,

provided it is done properly. Intellectual Property ("IP") has been described by the Financial Times as one of the key drivers of business competitiveness in the 21st century. Therefore, a clear understanding is essential not only for creative people or entrepreneurs but for anyone who wants to succeed in business and not have their ideas stolen. It does not even need to be your idea. Using IP law you can cheaply gain ownership of other people's ideas and then use your business skills to make a killing. By focusing on the IP legal advice that his small to medium sized business clients have been willing to pay for, Paul Brennan has written a book which will enable you to say "that's my IP" and at least sound as if you know what you're talking about which can be the cheapest and most powerful of weapons available to you. Illustrated by legal cartoons drawn by the author this little book combines the qualities of a useful reference book on IP law with wry humour and the odd belly laugh. YOU WILL LEARN ABOUT: - Identifying your IP- Protecting your brand and content- Who owns what in joint projects- Fights over names- Internet disputes- How to avoid unintentionally giving it away Paul is uniquely qualified to write this book. He has practiced law in Europe, North America, Asia and Australia. His experience of IP enforcement with a US multi-national, as a partner in law firms in London and Sydney, and ten years in Asia have combined to give him a broad experience. A post graduate in international copyright law, he now runs his own general commercial and property law firm working with small to medium sized businesses. One of Book Riot's "The Best Books We Read in October 2018" "To say this collection is transgressive, provocative, and brilliant is simply to tell you the truth." —Roxane Gay, author of *Hunger* and *Bad Feminist* Smart, humorous, and strikingly original essays by one of "America's most bracing thinkers on race, gender, and capitalism of our time" (Rebecca Traister) In these eight piercing explorations on beauty, media, money, and more, Tressie McMillan Cottom—award-winning professor and acclaimed author of *Lower Ed*—embraces her venerated role as a purveyor of wit, wisdom, and Black Twitter snark about all that is right and much that is wrong with this thing we call society. Ideas and identity fuse effortlessly in this vibrant collection that on bookshelves is just as at home alongside Rebecca Solnit and bell hooks as it is beside Jeff Chang and Janet Mock. It also fills an important void on those very shelves: a modern black American feminist voice waxing poetic on self and society, serving up a healthy portion of clever prose and southern aphorisms as she covers everything from Saturday Night Live, LinkedIn, and BBQ Becky to sexual violence, infant mortality, and Trump rallies. Thick speaks fearlessly to a range of topics and is far more genre-bending than a typical compendium of personal essays. An intrepid intellectual force hailed by the likes of Trevor Noah, Chimamanda Ngozi Adichie, and Oprah, Tressie McMillan Cottom is "among America's most bracing thinkers on race, gender, and capitalism of our time" (Rebecca Traister). This stunning debut collection—in all its intersectional glory—mines for meaning in places many of us miss, and reveals precisely how the political, the social, and the personal are almost always one and the same.

"Whites Minds are in Chains." Self-imposed. Amelioration for misplaced guilt based on a false belief that Whites enslaved Blacks; based on gross misperceptions of civil rights, discrimination, diversity, equal rights, fairness, racial hate, minorities, multiracial community, the concept of nation, privilege, racism. Ending White Slavery explains, exposes, and removes these shackles of White Slavery by invalidating the basic assumption of that enslavement: that Blacks are entitled to special consideration from Whites whose ancestors kidnapped them out of Africa, and transported them worlds away from their roots into slavery; revealing the slave trade as instigated and perpetuated by tribes of Africa against each other for their benefit and purpose; revealing that slave traders and owners were a miniscule percent of White population even in its time; revealing that mostly, the ancestors of today's Whites had nothing to do with slavery and their

ancestors were disadvantaged by slavery in lost employment and opportunity. Ending White Slavery demonstrates that atonement for slavery by today's Whites is misguided, and detrimental to them and to Blacks as well. As for racial discrimination, is it not palpable in affirmative action, BET, the NAACP, the Miss Black America Pageant exclusivity to Blacks? Not so, the United Negro College Fund because its "member colleges and universities admit students without reference to race or ethnicity. UNCF's largest scholarship program, the Gates Millennium Scholars Program, supports Hispanic American, Asian/Pacific American and Native American students as well as African Americans," but not Whites? Is there any affirmative action for Whites, a WET, a NAAWP, an exclusively Miss White America Pageant, a United Caucasian College Fund, any White college, a White History Month? Ending White Slavery exhorts all races to adhere to their culture, to be loyal to their race by eschewing integration and its consequent, inevitable mongrelization. For Whites this means preserving their recessive fair skin, blue or green eyes and blond, brown or red hair against being subsumed by genetically dominant black skin, brown eyes and black hair; revering and advancing their cultural heritage exemplified by Beethoven, Mozart, Michelangelo, Rembrandt, Shakespeare and their progeny instead of bongo drums, parodies of poetry punctuated by profanity, crotch grabbing, and thumping cacophony. That is the goal, but after recognition and exhortation, what? The Racial State, exemplified by China, Japan other Asian States for Yellows, African States for Blacks, but no longer the United States for Whites. Israel is template for current creation of the Racial State, and its need, to preserve and secure White culture, White genes, and White lives in a world in which Whites are the minority, a world which has not a single State that Whites may call their own, where their best interests are represented exclusively. Ending White Slavery does not merely describe a Utopia and leave it there. It describes potentials for accomplishing the Racial State over time. A must read for everyone, not just Whites, who would look beyond the perverse immediacy of a mongrelizing false diversity of integration to a true diversity of racial separateness to preserve all races in all their natural genetic and cultural diversity.

W. E. B. Du Bois's seminal treatise on the African American experience *The Problem of the Twentieth Century* is the problem of the color line. W. E. B. Du Bois was arguably the most progressive African American leader of the early twentieth century, and this collection of essays is his masterpiece. An examination of the black experience in America following emancipation, and an introduction to the historic concept of "double-consciousness" as it pertains to that experience, *The Souls of Black Folk* is an extraordinary literary achievement—a provocative, profound, and courageous clarion call. This ebook has been professionally proofread to ensure accuracy and readability on all devices.

Don Newman's first volume of Savannah centric poetry reflects the close personal relationship between poet and subject often found in work dedicated to a particular place. Such intimate subjectivity may seem lofty at times. But this Savannah native has a way of bringing grandiose notions of his hometown down to earth. Here, the author's regional sensibilities—together with his stretch toward the universal—offer the reader a unique perspective and a tour of Savannah unattainable during a typical day of sightseeing. While by no means a comprehensive poetic look at the city, Newman's *Little Poetry Book of Savannah* will surely augment the traveler's backpack, give visitors a distinctive literary keepsake, and make the perfect gift for those back home who would like an authentic little piece of Savannah. Meditative, descriptive, fun, quirky, and enjoyably honest, Newman bares parts of his soul in this down-to-earth, head-in-the-clouds "poetry for everyone." The deliberate devaluation of Blacks and their communities has had very real, far-reaching, and negative economic and social effects. An enduring white supremacist myth claims brutal conditions in Black communities are mainly the result of Black people's collective choices and moral failings. "That's just how they are" or "there's really no excuse": we've all heard those not so subtle digs. But there is nothing wrong with Black people that ending racism can't solve. We haven't known how much the country will gain by properly valuing homes and businesses, family structures, voters, and school districts in Black neighborhoods. And we need to know. Noted educator, journalist, and scholar Andre Perry takes readers on a tour of six Black-majority cities whose assets and strengths are undervalued. Perry begins in his hometown of Wilksburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Bringing his own personal story of growing up in Black-majority Wilksburg, Perry also spotlights five others where he has deep connections: Detroit, Birmingham, New Orleans, Atlanta, and Washington, D.C. He provides an intimate look at the assets that should be of greater value to residents—and that can be if they demand it. Perry provides a new means of determining the value of Black communities. Rejecting policies shaped by flawed perspectives of the past and present, it gives fresh insights on the historical effects of racism and provides a new value paradigm to limit them in the future. *Know Your Price* demonstrates the worth of Black people's intrinsic personal strengths, real property, and traditional institutions. These assets are a means of empowerment and, as Perry argues in this provocative and very personal book, are what we need to know and understand to build Black prosperity. Black Wealth is expected to drop to zero for half of all black families by the year 2053. This means that half of our community will be in the negative, and the other half will be positive. Those who embrace economic education will be the ones who are on the positive side of this statistic, largely because they've avoided the economic traps that exist in our society. The traps consist of but are not limited to: Ridiculous amounts of student loan debt, marketing that continuously reinforces the message of extensive consumption, a culture built on job seeking rather than job creation, a lack of interest in stock/bond investing, renting rather than ownership, inadequate life insurance with virtually no estate planning, and much, much more. While I work hard to sound the warning bell for the entire black community, our voices are often drowned out by messages coming from corporate media, problematic politicians, and a broken educational system which is determined to keep our people in the midst of economic slavery. I have taught Finance to college students for 25 years at several major universities. I've spent thousands of hours studying the problems that are specific to black people and believe that I have developed solutions that you can implement right now, TODAY, within your own family. These are not get-rich-quick or fly-by-night solutions. Instead, they are long-term wealth-building prototypes that will yield results over several decades of continuous activity. Those who embrace financial literacy in their households will not be on the negative side of the statistic that I mentioned above. Those who save and invest won't have the same financial problems as many others. Those who make long-term plans for their children rarely watch their kids struggle. The future is owned by those who prepare for it today.

Another body in a string of ritualistic murders. A serial killer who's getting cocky. Detective Derek Childress thinks this day just can't get any worse. And then he meets his new partner. Investigator Kayle Perrine is a Variant: one of several races of once-thought mythical creatures who now live among and lord-over humankind. Led by a group of vampires called the Clan Gentry, the Variants protect their own, just as they did when Derek's previous partner was killed by one, nearly a year ago. Now that Perrine's on the case, Derek expects a cover-up. Kayle Perrine has worked his whole life to prove himself, but being paired up with a boorish mundane like Derek Childress is feeling more like punishment than reward. Derek is so blinded by his prejudice against Variants, that he refuses to see the evidence Kayle finds blatantly obvious. The sooner Kayle can close this case, the sooner he can go back home and forget about the infuriating human detective. A brutal attack forges a fragile truce between the two men, driving them together. Derek and Kayle must learn to trust and depend on each other while tempers flare and passions of every kind run hot between them. Yet as they begin to grow closer, one fact continues to keep them apart: they are from different worlds. With time running out to solve this case, Derek and Kayle understand that love may not be enough to overcome prejudice, politics, and murder.

"Everyone concerned about the toxic effects of inequality must read this book."--Robert B. Reich "This is one of the most thought-provoking books I have read on economic inequality in the US."--William Julius Wilson Since the Great Recession, most Americans' standard of living has stagnated or declined. Economic inequality is at historic highs. But inequality's impact differs by race; African Americans' net wealth is just a tenth that of white Americans, and over recent decades, white families have accumulated wealth at three times the rate of black families. In our increasingly diverse nation, sociologist Thomas M. Shapiro argues, wealth disparities must be understood in tandem with racial inequities--a dangerous combination he terms "toxic inequality." In *Toxic Inequality*, Shapiro reveals how these forces combine to trap families in place. Following nearly two hundred families of different races and income levels over a period of twelve years, Shapiro's research vividly documents the recession's toll on parents and children, the ways families use assets to manage crises and create opportunities, and the real reasons some families build wealth while others struggle in poverty. The structure of our neighborhoods, workplaces, and tax code--much more than individual choices--push some forward and hold others back. A lack of assets, far more common in families of color, can often ruin parents' careful plans for themselves and their children. Toxic inequality may seem inexorable, but it is not inevitable. America's growing wealth gap and its yawning racial divide have been forged by history and preserved by policy, and only bold, race-conscious reforms can move us toward a more just society.

Learn how to address racial wealth disparity in the United States today From the life, professional experiences, and research of former Harvard Business School professor Steven Rogers, comes his boldly stated, *A Letter to My White Friends and Colleagues*. This informative epistle investigates the causes of racial wealth disparity in the United States and provides solutions for addressing it. Through extensive data and historical research, anecdotes, teaching, and case studies, it presents practical ways White people can work with and help the Black community. It teaches readers that eliminating the \$153,000 wealth gap between Black and White people is the solution to over 75% of our problems and offers solutions to help improve Black-White racial relations in the United States. In straightforward language, filled with facts, stories, advice, and sometimes even humor, *A Letter to My White Friends and Colleagues* encourages every White person to share his/her wealth with the Black community—plain and simple. This book recommends that you spend a portion of your annual household budget with Black-owned companies. If more money is spent at Black-owned businesses, those companies can grow and create more jobs for Black people. Rogers also proposes White people make large savings deposits into Black-owned banks. These are the financial institutions that are the backbone of the Black community that provide loans to the Black community for businesses, education, automobiles, and home mortgages. And finally, he resolutely encourages White people to support government reparations to Black Americans who are descendants of Black men and women, who were enslaved from 1619 to 1865. Those who read the book will: Understand the root causes of racial disparities in America Discover how you can personally contribute to reducing the inequality between Black and White people in the United States today Get concrete recommendations on how to redirect your spending to Black-owned institutions to help decrease the racial wealth gap This groundbreaking book provides financial recommendations that you can put into practice today, using his helpful instructions in most of the chapters, to address the systemic inequality between White and Black Americans. Read *A Letter to My White Friends and Colleagues* and be part of the path forward.

This book is an assessment of the state of Black media, Black families, Black colleges, and Black churches. This discussion manual is a declaration of what must be done to start a MOVEMENT to save the children. This 90-page monologue is an appeal for Black America to reset our agenda by moving away from consumerism and our participation in the entertainment industrial complex and a call for us to return to education and spirituality.

In the Changing Room Before we kick off I have to say this, these are my memories, and it has to be said, some of them have been befuddled by drink and erased from the mental back-up disc due to needing more space for uploading new stuff. Phrases you will see often are 'I really can't remember' 'if I remember correctly' and 'I may be wrong'...yes I will admit it, I have been wrong before...1969 I think it was...oh and once in 1973 as well. I have checked where possible but half the time I can't be arsed so there. One area where some clever shite will immediately contradict me is numbers we took to away games, this was and still is impossible to estimate, so whilst some will try to claim we took thousands to every away match I have tried to judge by how much of the stands we filled in the days when the majority of the travelers all stood together. Characters, there have been 'legends' both on and off the pitch over the years, some have moved on to 'a better place' ...yes living in Pattaya, others have went off to the 'Big Match' in the sky where Jesus grabs the Number Nine shirt every game because he thinks he's Alan Shearer...only for St. Peter to point out that Jackie Milburn's name is already on the team sheet as Centre Forward. No doubt someone will bemoan the absence of some of the terrace 'heroes' but I have only mentioned those I clearly remember. I was never a member of any 'crews' 'firms' or 'gangs' unless you count our collective 70's name the 'Geordie Boot Boys', I was never a ringleader or organiser I knew who they were and often found myself in their company but chose to stay incognito. This is not a book of statistics, scorers, results or team line ups, they are well documented elsewhere. These are just my, sometimes possibly inaccurate recollections of being a supporter and a footsoldier in the Black & White Army for over fifty years...and if you don't like it...then write yer own...chances are of got your money anyway ...so who's the numbnutz now?

Across the realms of multimedia production, information design, web development, and usability, certain truisms are apparent. Like an *Art of War* for design, this slim volume contains

guidance, inspiration, and reassurance for all those who labor with the user in mind. If you work on the web, in print, or in film or video, this book can help. If you know someone working on the creative arena, this makes a great gift. Funny, too.
