Millions of artists, entrepreneurs, crafters, and solopreneurs dream of making a living doing what they love. But turning their vision into a viable business plan can feel like trying to fit a square peg into a round hole. Jennifer Lee knows what it's like to make the entrepreneurial leap — and how to do it successfully. The key is showing creative types how to use — rather than stifle — the imagination and intuition that make them creative in the first place. Lee's illustrated, colorful worksheets and step-by-step instructions are playful yet practical, enabling readers to get down to the essential business of defining their vision and nailing down plans for funding, marketing, networking, and long-term strategy. Both budding and seasoned business owners will benefit from Lee's wonderfully original approach. Discover how to:

- Develop a financial plan with fun and flair
- Select your circle of support to get the work done
- Clarify your business values and goals
- Paint a picture of your business landscape
- Understand your competition and what makes you stand out from the crowd

documents the rise of a new breed of hybrid financial technology—fintech—firms; and Sharmini Coorey touts distance learning for better policymaking. The issue also examines the impact of remittances on monetary policy, de-dollarization in Peru, and the efficacy of public-private partnerships, among other topics. It also presents profile of Nancy Birdsall, the former head of the Center for Global Development, who has dedicated her career to fighting poverty and inequality through compelling research.

Beginning with wonderful tips and advice about the art and presentation of storytelling, this is a complete resource about how to build a storytelling career. Storytellers come to their careers centered on the stories they love and soon realize that in order to make a living at what they love, they must build a business. This in-depth book tells them just how and what to do in every detail, from choosing a sound system to building a website to using podcasts and setting up an office. Resource lists and tried and true ideas abound as the author shares her marketing and business success story throughout. Each chapter is a story in itself, beginning and ending with different traditional folktale openings and closings. There is even a chapter on how to plan for retirement.

Creatives - which include anyone promoting their own creative services (designers, copywriters, photographers, illustrators, interior designers, web designers, and more) - are great at their work, but when it comes to running the financial side of their business, most would rather not talk about it. This book focuses on proven techniques and resources used by a wide range of successful creatives to manage their business finances. Expert advisers are interviewed on topics such as accounting, taxes, contracts and financial planning. Using examples, case studies, and real-life stories from actual creatives, this book addresses:

- How to build the financial structure of a creative business from the ground up
- How to set up and achieve long-term financial goals and plan for a prosperous retirement
- Common financial mistakes small business owners make and how to avoid them
- How to handle taxes and insurance
- How to perform day-to-day accounting tasks
- How to create a budget and adhere to it
- What to charge for work and how to determine a profit margin
- How to talk about money with clients and prospects

Almost all the organizing books on the market today target the "left-brainer" - people who are generally disciplined, neat, and analytical. But for those who are more creative and spontaneous rather than logical and detail-oriented, help is on the way! In this book, Lee Silber turns traditional organizing advice

In a fast changing world, brimming with social and economic uncertainty, financial information plays a vital role in the life of an organization and does so with two sets of eyes. One set looks back to see what has happened. This is the accounting function, which is simply about the recording of events and the production of the financial reports that satisfy the stewardship responsibility of management. The other set looks forward to determine the most appropriate strategic direction for an organization, guiding managerial actions, motivating behaviors, and creating and supporting the cultural values

necessary to achieve an organizations strategic objectives. This book is all about the second set of eyes, which are the lenses of STRATEGIC FINANCIAL MANAGEMENT, that help organizations plot their way through an environment filled with opportunities and dangers. For students, aspiring managers as well as those who already have management responsibilities this book provides an insight, through the eyes of the characters of a start-up company, of some of the ideas and models that help to identify the possible strategies capable of maximizing an organization's value, which is the same as making the owners as wealthy as possible, to determine how to finance the organization in the most proper way, to allocate the collected capital in the most effective way, to monitor the implementation of the chosen strategy to see whether it is meeting the planned objectives, and to reasonably decide on the reinvestment and distribution of profits.

predecessors never faced, from the threats of professional piracy and casual copying of digital media products, to global networks, on-demand consumption, and changing business models. The book explains the new new vocabulary of media moguls, such as bandwidth, digital rights management, customer relations management, distributed work groups, centralized broadcast operations, automated playlists, server-based playout, repurposing, mobisodes, TV-to-DVD, and content management. The chapters logically unfold the ways that managers are evolving their practices to make content, market it, and deliver it to consumers in a competitive, global digital marketplace. In addition to media companies, this book covers management processes that extend to all content-producing organizations, because today's students are as likely to produce high-quality video and Web video for ABC Computer Sales as they are for the ABC Entertainment Television Network.

Creative folks often know all too well that the muse doesn't always strike when you want it to, or when the deadline for your next brilliant project is creeping up on you like an ill-fitting turtleneck. Originality doesn't follow a time clock, even when you have to. While conventional time management books offer tons of instruction for using time wisely, they are traditionally organized in a linear fashion, which just isn't helpful for the right-brain mind. In *Time Management for the Creative Person*, creativity guru Lee Silber offers real advice for using the strengths of artistic folks—like originality and resourcefulness—to adopt innovative time-saving solutions, such as:

- \* Learning to say no when your plate is just too full
- \* How to know when a good job, not a great one, is good enough
- \* Making “to do” lists that include fun stuff, too—that way you won't feel overwhelmed by work
- \* Time-saving techniques around the house that give you more time to get your work done and more time to spend with your loved ones
- \* The keys to clutter control that will keep your work space and your living space neat

With these and lots of other practical tips, Lee Silber will help anyone, from the time-starved caterer rushing to prepare for her next party to the preoccupied painter who forgets when the electric bill is due, make the most of their time
