

Money Management For Highly Effective People A Short To The Point Guide On How To Manage Your Money When You Dont Have Any And Transform Your Financial Life

Effective financial management means having complete control over money matters.

Money Management Turn Bad Credit Into Good Credit: It seems that everywhere you turn, someone wants to know your credit score. It doesn't matter if this is you or someone from your bank. Many landlords will even run a potential renter's credit as this will usually give them insight as to whether the person will pay their rent. The landlords will also have guidelines to use in order to tell you if you are approved or not approved based on your credit score. While some may allow you to have a cosigner if you are not approved, they will also want to run your co-signer's credit report. This is often frustrating to many people, especially when you are trying to repair your credit. It can make you feel that you are never given a break or that your identity is now your bad credit. It doesn't have to be this way. In fact, the more you learn about the details of what bad credit is and how there are federal laws to help you overcome bad credit, the faster you will find yourself in financial freedom. Your credit score is vital to your life. It is something that helps you to enjoy life as you have added access to financial services and various investments. You must understand how your score can directly influence what you can purchase so that you can enjoy your life. The problems you have with your credit score can be very dramatic and you might not be fully aware of what affects your credit score or how valuable it is to you. Those people who pay off their debts and lines of credit with on-time payments will be more likely to have better credit ratings. There are many things relating to your credit score that should be explored that go well beyond just your payment history. Financial Budgeting: Everyone has an opportunity to grow their money and get out of debt, but you must start to make this a reality. Be warned, though, when your income starts to grow, it is easy to fall into temptation and start spending more than you are earning again. Refrain and continue saving and investing your money. Every small step counts. Every coin kept and invested counts. If you use the profit you make, you will be unable to grow your wealth. Instead, allow your investment to grow by using the profits as part of the next years principal. With time, you will have a venture that can not only buy you whatever you want but one that will continue to grow over the years. Taking advice from experts in the field you wish to invest is critical to your investment. Would you go to a farmer when you are sick, or would you seek out a doctor? The same way, take your investment knowledge from those who understand the market dynamics and can offer you advice to help grow your investment. Manage your credit cards with responsibility, or they will sink you into a hole. The easiest way to get into debt is to spend more than you earn. You need to keep your expenses lower than your income at all times. Watch your credit card spending because that's how we often find ourselves overspending. To get out of debt is to pay. The longer it takes you to pay, the higher the interest rate you will be required to pay. Either consolidate your debt or tackle one debt at a time. You might want to reduce your expenses, so you have more money to spread around. Always start by saving 10% of your income. A safety net is essential for your peace of mind. Budgeting does not have to be complicated. The more you simplify it, the better. As long as you track your expenses and stick to your budget, it will work for you. Ensure that you don't view it as a task but as a necessary tool to help you stay ahead, get a real financial picture, and manage your money correctly.

It is huge step when you make the decision to become a trader. Most brand new traders are getting into this business because they think they can make quick money and become rich beyond their dreams. While that may be true, it is not as easy as one thinks and certainly will not happen as soon as one thinks. There are only two groups of people who are doing business in the markets, the professionals and the retail investors and traders. What is that lyric in that one song? "The lure of easy money has a very strong appeal". Maybe you decided to get into the trading business of investing and/or investing and

trading because you saw some late-night TV commercial about day trading with flashy offers. Perhaps you received a spam e-mail touting some fancy trading method or system that said you could make easy money in the markets; I suggest you reconsider if that's the case. I wrote this book to give beginners some simple actionable easy to use investment and trading ideas for writing their own rule based trading plan which will give them an edge over the competition in the live financial markets. All of the techniques presented in this book are simple enough for total beginners with zero experience to use in order to begin making money right away. If you're already ready investing and trading live and are struggling or losing money the techniques in this book can help you to turn you're trading around. The live markets are a harsh and challenging environment to work in to say the least and the better tools you have the more money you will make. The simple strategies in this book are not for the weak minded and will challenge you to go against everything you may have studied thus far in your trading career. The methods in this book can be used as a baseline and if employed properly will give any trader some ideas on how to build their own rule based trading plan which is unique to their style of investing and trading. This book will be a valuable resource for beginner investors and traders who wish to expedite their learning curve and begin making money from investing and trading right away versus spending a lot of valuable education time and perhaps losing a lot of hard earned money from not having composed a rule based trading plan, the idea is to start small and build on success. The concepts presented in this book work on any market in any time frame and are not hard to employ and build into a working rule based plan that makes money consistently and will also help you to avoid the stress as well as the fear and greed which are inherent of working in this business and is a must read for any brand new self-directed investor and trader. The only thing you are in control of in the live market is how much money you don't lose and investing and trading with a rule based plan is the edge you'll need to compete with the top traders in the world.

Investing and trading in the Forex futures and futures and equities markets is a hard business to be in if you don't know what you are doing. You can lose all of your hard earned money in the markets if you do not take the time to do what it takes to get the right education and training the right way from the start. The learning curve in this business can be long, brutal and very very expensive if learned the wrong way. Effective Strategies for Day Trading Beginners aims to show you the right way the first time and greatly reduce that long learning curve by showing you what the market is really made of and who is actually in control of it and when they are in control of it. The key to success is to know what kind of trader you desire to be and know this information first in order to plan out what type of education and training one will do when entering the learning phase of the knowledge curve. There is a lot to know to be successful in the investing and trading business so it is crucial to know what type of market participant you would like to be in order to not waste any learning time (or hard earned money) for that matter.

The information in Easy Beginner Swing Trading Method for High Profits can give you a head start on your education and training learning curve and get you on the fast track to making real money right away in the live financial markets. It will be up to you to follow the advice in the book though, there are lots of decisions to make before you even learning anything or study anything. I recommend you take your time and learn to do this business the right way from the first day, doing it any other way can and will get your trading capital account FUBAR. There are links to some references in the book which I have made clickable for your ease of use. All you need to do is click on the link and it should take you directly to the information in the reference, all clickable links were live as of the writing of this book. I encourage you to do more research on your own after having read this entire book once or twice, you will not be able to digest all of the information this book provides in one reading as a self-directed beginner. I wrote Easy Beginner Swing Trading Method for High Profits for all beginning aspiring investors and traders who are just getting their head around doing the swing trading business and want to work from home. In crude oil investing and trading your trading capital can vanish right before your very eyes should you not be prepared and not have a plan to deal with the brutality and volatility of the crude oil market. Most trading shown in books, video training and webinars these days is taught not only unrealistically it shows you information you really don’t need and that cannot help you have an edge. This book is for self-directed beginners and will detail many of the things that a brand new trader must learn to do before they can become consistently profitable in the live crude oil market. The markets, especially crude oil only work on supply and demand and that’s it. You don’t need any fancy indicators to tell you that price is up or down because you can see it right on the chart. What you do need to know is where the smart money is working so you can make money with them instead of trying to trade against them. *Trading and Investing in Crude Oil for Beginners* is going to give you a chance to do that if you do what it says and follow the advice. You’ve heard the saying buy low sell high right? Right now in 2018 is the time to do exactly that and *How to Swing Trade Crude Oil for High Profits* has a few ways in which a brand new self-directed beginner can get into the crude oil sector in their portfolio. The learning curve in the crude oil trading business and it is a business can be long, brutal and very very expensive if learned the wrong way. Don’t be that trader! *How to Swing Trade Crude Oil for High Profits* aims to tell you how do study it the right way the first time and greatly reduce that long learning curve by showing you what the crude oil market is really made of and who are actually in control of it and when they are in control of it. When you have this information and can see it on a live price chart in real time and pull the trigger without hesitation you can make a lot of damn money and *How to Swing Trade Crude Oil for High Profits* can get any brand new self-directed beginner on their way to doing that as long as they are well capitalized and have their rule based core strategy for trading and investing in crude oil down pat!

Brand new (newbie) traders all make the same mistakes over and over because they don’t know any better, now you do. Newbie traders tend to do what everyone else is doing and study what everyone else is studying thus they have the same results and failures as everyone else. Don’t be that trader! If you can just take the time to read this information in this book, let it sink in and then continue on your educational journey you will have done yourself a huge favor and also begun to give yourself the needed edge to succeed in this business. you went to fast or did not learn what to do the right way from the first day of your business and did not develop the needed edge to compete at the highest level. Trust me when I say, the sharks in the market will chomp up your trading account without hesitation. Many of the things I tell brand new self-directed retirement investor and traders in all my books may sound like I am a broken record and some things you read may sound repetitive. I do that for a specific reason because much of what trading is about is doing those same actions over and over again repetitively to make money the same way every day. It is the only way professional traders do it and how they develop their edge to win in the live markets against the best market participants in the world. When you are done reading Low Risk High Profit Position Trading for Beginners you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in Low Risk High Profit Position Trading for Beginners will put you on the fast track to becoming a successful self-directed investor and trader with very little money invested other than the cost of this book, learning it Harvard or Columbia business school would cost one hundred thousand dollars or more. My hope from Low Risk High Profit Position Trading for Beginners is that you understand how important it is to have a competitive edge when putting your hard earned money at risk in the markets. Each day, the wealth from trader accounts is transferred from those without an edge into the accounts of those who have developed a winning edge. Which one do you want to be?

Your core strategy can and should be very simple and really all you will need to make money with the smart money every day in the live financial markets or any liquid market for that matter. I use the method in Forex Method for High Profit every time I initiate a position in the live market after doing my due diligence and research and you should to because it is the only way the live markets actually work which is on supply and demand. Doesn't it make sense then to use that as your trading method, it is simple enough that a 12 year old can learn it, how old are you right now? If you need to learn this business from the ground up then Forex Method for High Profit is definitely a good starting point for you. I encourage you to read it as many times as it takes for it to become clear to you as to what you do and do not need to learn to be successful in this business from the start. There are no money back guarantees in the financial markets however you must know the right information from the start to have a chance of becoming consistently profitable and financially successful.

There is a certain progression of things every new swing trader must learn before going into the live market with real money. This book tells you what to learn first and foremost so you can be successful and start making money right away. I wrote this book as an introduction for brand new Forex investors and swing traders who have zero or very limited knowledge about what to do or what to study to get started in trading in the currency markets. When you are done reading this book you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education. The information in this book will put you on the fast track to becoming a successful self-directed currency investor and trader with very little money invested other than the cost of this book. This book give you clear concise information it would take you years to find out on your own before you could begin to have any chance at making a real income from the live markets. The live markets are not for the weak minded or untrained and should you decide to go in there unprepared or under prepared only one thing will happen, you'll get FUBAR. Don't be that trader! If you are already having great success in the live markets with real money I encourage you to continue doing what you are doing that is successful for you and making you consistent profits. This book will not be of any interest to you. This book is specifically written for brand new traders to give them the very first basic knowledge they need to get started. To drive your own money train takes a lot of training and education. This short book will give a brand new trader with zero knowledge a basic start on getting your money train driver's license. There is a bonus section at the end of this book where there are some great tips to help you get started trading on demo. There are also some frequently asked questions with honest answers for brand new swing traders.

If you are a beginner and thinking about getting into trading and investing this book was written just for you. start off the wrong way from the first day. Making high profits in the financial markets on a daily basis is not that hard if you know what to look for and where to look for it. I talk about a method of trading and investing in this book that can be used on any liquid market on any time frame you desire to look at. Using this method for your investing and trading is wise because it is the only thing that can tell you with a high degree of certainty when the market is going to turn, and can also tell you with a high degree of certainty where the market is likely to go to kind of like having your own crystal ball. There are people in the live markets willing to walk over dead bodies to make money and they are certainly willing to invite you the novice retail trader into the market. They are there to get paid and the brand new retail traders who have made the mistake of not getting the right information and not doing the proper education and training from their first day in the business are the traders who they get paid from. Ask yourself this question before you start out in this business. Do I want to be the one who is paying the smart money or do I want to be the one who gets paid? This book is written to give you a fighting chance in the live markets by telling you just what it takes to become a high profit money making professional who can compete with the best professional money makers in the world. I encourage you to make this the first book you purchase for your pre education in the trading and investing business and then use it as a reference book in your library if needed throughout your entire career. There are zero shortcuts to becoming a consistently profitable investor and trader; you simply must do the time to prepare yourself to be able to work in the live markets against the best participants in the world. You owe it to yourself to do the right education and training from the start. The result of not doing it the right way from the first day is not an option and could cause a brand new trader to have a catastrophic unfavorable financial outcome and no one wants that. Beginner traders all make the same mistakes over and over because they don't know any better, they also don't use low risk high reward high probability techniques in their trading and investing; now you can. Beginner traders tend to do what everyone else is doing and study what everyone else is studying thus they have the same results and failures as everyone else and is very low probability, don't be that trader! This financial market trading business isn't really an H&P type of business, what is H&P you might be asking, hoping and praying, you don't need a rosary you need an edge. I'm not going to sugar coat it, this business is an ugly place for an untrained and underfunded beginner. There are very bad people in the live market who are looking to take all of your money from you, and they will should you not be prepared properly to go to work in the live markets, don't say I haven't tried to warn you. Use this book as an overview or a guide if you will, for what to study and learn first to become consistently profitable from trading utilizing the high probability techniques in the book. I give you concise information as to what type of high probability techniques to learn and what to look for as far as further advanced information is concerned. I tell you only the most critical things to learn first because those are absolutely the most important and the ones that will have a high probability of making you money right away if you do them. Simple, basic and easy to understand, if I can give you one word of advice, I will tell you to keep it simple because trading really is simple if you keep it that way. You do not need any indicators or fancy systems, methods or software that the so called gurus are all touting to do high probability trading. The market only works on supply and demand and supply and demand is the only thing that moves price on a chart from one value area to another. Doesn't it make sense then to study what makes the market do what it does and use that as your high probability trading method?

In a fast changing world, brimming with social and economic uncertainty, financial information plays a vital role in the life of an organization and does so with two sets of eyes. One set looks back to see what has happened. This is the accounting function, which is simply about the recording of events and the production of the financial reports that satisfy the stewardship responsibility of management. The other set looks forward to determine the most appropriate strategic direction for an organization, guiding managerial actions, motivating behaviors, and creating and supporting the cultural values necessary to achieve an organizations strategic objectives. This book is all about the second set of eyes, which are the lenses of STRATEGIC FINANCIAL MANAGEMENT, that help organizations plot their way through an environment filled with opportunities and dangers. For students, aspiring managers as well as those who already have management responsibilities this book provides an insight, through the eyes of the characters of a start-up company, of some of the ideas and models that help to identify the possible strategies capable of maximizing an organization's value, which is the same as making the owners as wealthy as possible, to determine how to finance the organization in the most proper way, to allocate the collected capital in the most effective way, to monitor the implementation of the chosen strategy to see whether it is meeting the planned objectives, and to reasonably decide on the reinvestment and distribution of profits.

The easy part of investing and trading is making the mistakes, the hard part is what to do with all the cash you will make from being patient and letting the market come to you and give you what you want. New people who get into the trading business have dollar signs in their eyes. They are buying Ferrari's and G650's before they ever make a live trade. The unrealistic expectations they have can cloud their judgment as to what is real and not real. All they see is the amount of money that they can potentially make when it is how much money they can lose is what they should be focusing on. They don't realize they are entering a business where the professional people have a kill everyone mentality when it comes to making money. High Profit Price Action Trading for Beginners is for beginners and will detail many of the things that a brand new trader must learn not to do before they can become consistently profitable in the live markets. The key to success in the investing and trading business is not making the mistakes your competition is making and learning to see them making those mistakes so you can profit from them. Using price action in conjunction with supply and demand as well as end of day trading methods will empower you to make money right away in any liquid live market you wish to trade. The beauty of this method is that it works on any asset class on any time frame. You just have to learn to train your eyes to see the smart money and your competition on a trading chart at a glance and then take action to make money from them, that part is up to you. The principles in High Profit Price Action Trading for Beginners are the easiest fastest methods for a self-directed beginner to learn right away which will put them on the fast track to driving their new money train to the bank every day. You absolutely need to have a competitive edge in the markets, and you must have it before you do anything in the live markets with real money. The methods in High Profit Price Action Trading for Beginners are the best ways to get you started developing your money making edge. Don't be the one who pays, be the one who gets paid!
