ENCICLOPEDIA ECONOMICA ACCOMODATA ALL' INTELLIGENZA FRANCESCO. PREDARI, 1860

Europe in Law and Literature Laura Anina Zander, Nicola Kramp-Seidel, 2023-05-08 Europe is a broad and multifaceted construct, variously understood as a geographical, political, legal, institutional, social, or cultural formation. It is characterized by numerous conflicts and processes of negotiation that have accompanied or sustained the development of normative orders and divergent conceptions of law, both in relation to individual states and to Europe as a whole. The same applies to the field of literature, language, and aesthetics; numerous myths and ideologies have shaped today's understanding of Europe and still support it today. This volume examines how such processes were legally structured, and literarily addressed, criticized, and complemented. Its interdisciplinary perspective and open and dynamic, both dialogical and dialectical format intends to replicate the fragmented, sometimes conflicting, but always productive mosaic of voices, ideas, and concepts that have constituted and still constitute Europe, whether in the past, present, or future. Instead of resolving any of the complexities and contradictions that frame discussions on law, literature, and Europe, it aims to induce further engagement and confrontations with new and alternative visions of Europe.

Thomas Mann Studies Klaus W. Jonas, Ilse B. Jonas, 1967

The Struggle over Law in Europe Aldo Sandulli, 2024-04-29 This book examines the role of law in Europe at a time when economic policies have become dominant not only on this continent but globally. Can law be seen as a mere infrastructure? Or does it contribute to defining the social and legal order through its own inherent rules? If the second hypothesis is true, what might these rules be, and how may they be identified? Lastly, to what extent can agreeing a definition of the role of law affect the future of Europe? With the Next Generation European Union, the EU has introduced an unprecedented investment plan for economic recovery and resilience. In doing so, it has become the most important financial intermediary on the continent. But is this simply the prelude to a European economic and financial revival, or does it also aim to strengthen the European legal order in social, political, and constitutional terms? This book argues that the role of law in Europe should be to achieve a balanced relationship between freedom and solidarity; encouraging economic competition, but also social cohesion. Analyzing the role of law in the project of European integration, it maintains that law should be more

than an infrastructure for finance and economics, showing how it can act as a guide and a binding force to achieve a more balanced relationship between economics, politics, and law. This book will be of interest to scholars in the fields of public law, European law, law and economics, the philosophy of law, legal history, political theory, and political science, as well as others concerned with the future of European integration.

Thomas Mann Studies, Volume 2 Klaus W. Jonas,Ilsedore B. Jonas,2016-11-11 Seldom, if ever, has there lived in the United States a foreign-born writer who has won such universal acclaim and made such an impact on the American literary scene as Thomas Mann. Not only have Mann's works, with very few exceptions, been translated but he is also one of the most eagerly collected of all modern authors. This volume will serve any student of literature, or collector, who is anxious to locate materials on Thomas Mann. *Thomas Mann Studies, Volume II*, is intended first of all as the bibliographical record for the period from 1954 to 1965. Since the death of Mann in 1955, a vast amount of material has been published about the man and his work. This extraordinary book lists almost four thousand items of criticism about the novelist which are not to be found in any previous bibliography. By far the majority of the items are in German, followed by a large number in English, French, Italian, and Swedish. Other languages represented include Japanese, Dutch, Spanish, Romanian, Danish, Polish, and Russian. Achieving its primary purpose of facilitating research in the rapidly growing area of Thomas Mann studies throughout the world, this book forms the complete record of critical, secondary literature about Mann, published as well as unpublished, through 1965. It also contains a comprehensive chapter on Mann's manuscripts, describing the public and private collections in which his papers are now preserved.

L'osservatore scolastico Giornale d'istruzione e d'educazione premiato all'Esposizione Didattica di Torino (1869) ,

Defense against Terrorism M. Coen,2019-04-02 Global terrorism is a double-edged threat to democracies. Physically, because of the number of people killed and wounded, structurally, because it threatens social peace and over-reaction tends to undermine our basic values. The authors of the chapters in this book are multinational and interdisciplinary. Their papers were presented for discussion at the Advanced Research Workshop (ARW) held in Skopje (FYROM) 11-14th April 2018 on "Defence Against Terrorism, Enhancing Resilience of Democratic Institutions and Rule of Law", organized within the NATO

Science for Peace and Security Programme. Results can be summarised as follows. Counter-terrorist strategy must aim to achieve less, not more, terrorism. The countries with best results are the ones that cultivate human intelligence, confidence between security services and the local population, together with a tradition of effective respect of the Rule of Law. Militarization of internal security, and intelligence systems mainly based on databases (“big data”) and artificial intelligence, though popular, are showing serious limits. More effective democracy, not less, is the key to the resilience of our societies against the “new threats”, particularly for confronting the criminal violence of terror. In discussion, some core necessities were identified: to recognize that it is the method used, not the aims, that define criminal organisations as terrorist; that there is a structural link with organized crime for financing and operative support, and that corruption facilitates and protects any illegal activity; social capital must be developed as a fundamental basic tool for enhancing resilience. This book aims to help analyse the networks and contexts that feed terrorism. It provides anyone confronted with security issues an understanding of the negative as well as the positive aspects of specific counter-measures.

Biografia e storia Gennaro Sasso,2020-07-06T15:49:00+02:00 Scritti a margine di un’intensa produzione filosofica e storiografica, i sei saggi qui raccolti ruotano intorno al tema di biografia, autobiografia e storia. L’indagine sullo statuto dei tre generi letterari lascia emergere la difficoltà, in ciascuno, di poter conseguire la pienezza del risultato, svelando tra di essi una irresistibile contaminazione. La riflessione di Gennaro Sasso incontra opere e autori attraverso i quali emerge in primo piano il tema della crisi dell’Europa sulla via del tramonto, tra le due guerre che nel corso del Novecento ne hanno segnato il destino: Croce e Gentile, e la presunta “egemonia” delle filosofie idealistiche; il “provincialismo” degli studi; il Thomas Mann del Doctor Faustus; il Diario di Piero Calamandrei; e ancora Carlo Dionisotti e Arnaldo Momigliano. Nello sfilare di questi saggi, nei quali la dimensione critica e storiografica è percorsa da altrettanta profondità psicologica per i personaggi e le situazioni che vi sono affrontati, al lettore accade di percepire l’eco di un mondo assai vasto della cultura.

Portugal International Monetary Fund. Fiscal Affairs Dept.,2014-10-06 EXECUTIVE SUMMARY Portugal’s practices meet most of the principles of the revised Fiscal Transparency Code at good or advanced levels. A number of areas still present practices at a basic level, but in most of these cases this reflects reforms that have recently been launched and have not yet been fully implemented so as to affect current practices. Indeed, if measured against the practices observed prior to

the recent financial crisis, there has been remarkable progress. The challenge is to press ahead with the reform agenda so that all fiscal transparency practices meet good or advanced levels, thus strengthening even further the management of public finances and the associated risks. The key findings of the present Fiscal Transparency Evaluation are: • Fiscal reporting is in line with good or advanced practices, particularly in compliance with EU requirements and ESA 95 standards, but still lacks a sound conceptual accounting framework based on internationally accepted standards. • Fiscal forecasting and budgeting have improved over the last three years, although investment evaluation only meets the basic standard of the Code. • Reporting of fiscal risks is in its infancy and in spite of numerous initiatives undertaken in the last few years, such as the publication of a fiscal risk statement, remains fragmented. The large amount and good quality of information available allows a very preliminary and partial estimate of the public sector net worth and total risk exposure. An estimated negative net worth position of 140 percent of GDP (including the liabilities of the main defined-benefits employment-related pension scheme) and a sizeable exposure to various contingent liabilities, although some of these have a low probability of crystallizing, are reminders of the still fragile status of Portugal's public finances.

Moniti Alleuropa Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**Moniti Alleuropa**," compiled by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
