Deputy Samantha Cody finally bagged her man. The jury's verdict: three counts of murder in the first with special circumstances and a recommendation of death by lethal injection. Only Judge Westbrooke's final decree stands between Richard Earl Garrett and death row. After three weeks of an exhausting trial and being haunted by images of the three sacrificially mutilated children, Sam's only wish is to wash her hands of Garrett, whose only defense is "the devil made me do it." A “necessary and brilliant” (NPR) exploration of our cultural fascination with true crime told through four “enthraling” (The New York Times Book Review) narratives of obsession. In *Savage Appetites*, Rachel Monroe links four criminal roles—Detective, Victim, Defender, and Killer—to four true stories about women driven by obsession. From a frustrated and brilliant heiress crafting crime-scene dollhouses to a young woman who became part of a Manson victim’s family, from a landscape architect in love with a convicted murderer to a Columbine fangirl who planned her own mass shooting, these women are alternately

mesmerizing, horrifying, and sympathetic. A revealing study of women's complicated relationship with true crime and the fear and desire it can inspire, together these stories provide a window into why many women are drawn to crime narratives—even as they also recoil from them. Monroe uses these four cases to trace the history of American crime through the growth of forensic science, the evolving role of victims, the Satanic Panic, the rise of online detectives, and the long shadow of the Columbine shooting. Combining personal narrative, reportage, and a sociological examination of violence and media in the 20th and 21st centuries, *Savage Appetites* is a “corrective to the genre it interrogates” (*The New Statesman*), scrupulously exploring empathy, justice, and the persistent appeal of crime.

Reprint. Forensic criminalist Dub Walker is once again called upon when an old friend enlists his help in finding her 19-year-old daughter. When the bodies of two young women show up in a shallow grave, one of whom is the daughter, Dub is back to work and hard at it. Soon other bodies start turning up in similar graves, and each victim has undergone multiple, highly technical surgical procedures requiring extremely sophisticated equipment. The ensuing trail of terror and bodies that leads Dub to Talbert Biomedical—a surgical instrument manufacturing company operated by a business tycoon and a surgeon—is a horrifying breach of ethics and human decency. It's too gruesome to even contemplate what was done to the victims before they died. To catch a killer, Dub has to put himself in their place.

Involved in many cases, Dub thought he'd seen it all; yet this psychopath outmaneuvers him at every turn. Danger doubles when a deadly conspiracy arises, and a new horror begins.
