Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why

should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

The Money Mentor is my take on the classic self-help book - with one major difference: It's a bullshit-free zone! If you're reading this, it's because you've recognised that your finances need help. Either that or your kids gave you the book as a Christmas stocking-filler, it's pouring with rain and there's nothing on telly this afternoon. Seriously, however you got here isn't important. The important thing is - you're here. Right here, right now is where you start getting control of your finances. This is where you stop throwing money away like it's going out of fashion and start saving. This is where your financial worries start to lessen. This is where you and your family begin to get ahead in the game. What I do is very straightforward - I help ordinary Mums and Dads burdened with standard 30-year home loans, pay off those loans within 7 to 10 years. Yes, you read that correctly - you can be mortgage-free in 7 to 10 years simply by following a plan that we create together. It's not magic. There's no smoke and mirrors. It's not

Download Ebook Mortgage Free Off The Money Grid Real Goods Solar Living Books

even a secret how we can do this together. In fact, I call it the 'not-so-secret, secret', because anyone can do it. Together, we examine your lifestyle and make a detailed assessment of your living expenses. Using that information, we then give every single dollar of your family's monthly income a specific purpose and structure it within a realistic budget. And guarantee to pay the loan off in 7 to 10 years. Paying your home loan off over 30 years is bullshit! It's the biggest rip-off. When you're sitting in your bank, arranging your home loan, their entire focus is on the minimum monthly repayment. That just means they're forecasting their juicy profits over a 30-year period. Profits that you're paying for. We can even pay off that 30-year loan earlier in some cases. One of our records is having cleared a mortgage in only 3.5! Mortgage-free in three and a half years - wouldn't everyone love to be in that position? Our aim is to disrupt the passive, inherited way of thinking encouraged by the banks and to completely change traditional Mum and Dad psychology. Not with idealistic nonsense and impossible to achieve pie-in-the-sky advice aimed at solving unrealistic or non-typical situations. This book is packed with proven, practical and realistic strategies that work. If you and your family follow the process that we all agree to in the beginning, you will achieve the results we predict at the start. Guaranteed!
