Two girls use forbidden magic to fly and fight -- for their country and for themselves -- in this riveting debut that's part *Shadow and Bone*, part *Code Name Verity*. Seventeen-year-old Revna is a factory worker, manufacturing war machines for the Union of the North. When she's caught using illegal magic, she fears being branded a traitor and imprisoned. Meanwhile, on the front lines, Linné defied her father, a Union general, and disguised herself as a boy to join the army. They're both offered a reprieve from punishment if they use their magic in a special women's military flight unit and undertake terrifying, deadly missions under cover of darkness. Revna and Linné can hardly stand to be in the same cockpit, but if they can't fly together, and if they can't find a way to fly well, the enemy's superior firepower will destroy them -- if they don't destroy each other first. *We Rule the Night* is a fiercely compelling story about sacrifice, complicated friendships, and survival against impossible odds.

Ted Simon is the author of the classic travel book *JUPITER'S TRAVELS*. It documents his four-year journey round the world by motorbike, travelling through Europe, Africa, South and North America, and Asia. A number one bestseller in the late 1970s, it is still regarded as one of the greatest motorcycle books - indeed, one of the greatest travel books - ever written. In 2001, at the age of 69, Ted Simon decided to retrace his journey, and *DREAMING OF JUPITER* is the result. It took him two and a half years - during which time he revisited all the countries he had travelled through in the 1970s. He found much had changed, and he reflects upon the increased poverty, political upheavals, environmental issues and indeed the changes in himself. But ultimately,

DREAMING OF JUPITER is a hugely inspiring read with a positive message at its heart - that even at the age of 70 you can still set off on an adventure, and be surprised and excited by what life throws at you along the way.

"This entertaining, fast-paced biography" of the legendary singer-songwriter "will thrill fans of Little Richard and early rock and roll" (Publishers Weekly). Richard Wayne Penniman, known to the world as Little Richard, blazed the trail for generations of musicians: The Beatles, James Brown, the Everly Brothers, Jimi Hendrix, the Rolling Stones, Elton John, Prince . . . the list seems endless. He was "The Originator," "The Innovator," and the self-anointed "King and Queen of Rock 'n' Roll." In *The Big Life of Little Richard*, Mark Ribowsky shares the raucous story of his life from early childhood in Macon, Georgia, to his death in 2020. Ribowsky, acclaimed biographer of musical icons?including the Supremes, the Temptations, Stevie Wonder, and Otis Redding?takes readers through venues, gigs, and studios, conveying the sweaty energy of music sessions limited to a few tracks on an Ampex tape machine and vocals sung along with a live band. He explores Little Richard's musicianship; his family life; his uphill battle against racism; his interactions with famous contemporaries and the media; and his lifelong inner conflict between his religion and his sexuality. By 2020, eighty-seven-year-old Little Richard's electrifying smile was still intact, as were his bona fides as rock's royal architect: the '50s defined his reign, and he extended elder statesmanship ever since. *The Big Life of Little Richard* not only explores a legendary stage persona, but also a complex

life under the makeup and pomade

Located in Athens' historic area of Makryianni, the New Acropolis Museum stands less than 1,000 feet southeast of the Parthenon, at the entrance of a network of pedestrian walkways that link the key archaeological sites and monuments of the Acropolis. This location was carefully selected to enable a dialogue between the museum's exhibition spaces and the Acropolis buildings. Tschumi won the commission in 2001 as the result of a design competition. "The design was chosen for its simple, clear, and beautiful solution that is in accord with the beauty and classical simplicity of the museum's unique exhibits and that ensures a museological and architectural experience that is relevant today and for the foreseeable future," stated Professor Dimitrios Pandermalis, President of the Organization for the Construction of the New Acropolis Museum and author of the foreword to this volume.

To most thirty-something women, walking across the street to get a skinny latte and the latest copy of heat in excruciating high heels is an all-terrain task in itself. But Lois Pryce isn't just any woman - nine to five and post-work white wine spritzers have never been her thing. Unafraid of a challenge - having already ridden her motorbike from Alaska to the southernmost tip of South America - she decided she could never be one to settle for a last minute package holiday in

Viva Espana. So, she began the kind of adventure most of us could only ever dream of.

An unmissable travel book, in which motorcycle adventurer Geoff Hill recreates Carl Stearns Clancy's 1912 circumnavigation of the globe by motorcycle.

This best-selling book is also “#1 book in motorcycle safety” (Nielsen BookScan) and essential reading for all motorcyclists regardless of their years of experience. Author David L. Hough, a revered motorcycle author, columnist, and riding-safety consultant, lays out a clear course for all riders who want to sharpen their handling skills and improve their rides. This second edition, expanded and now in full color, offers

new riders and road warriors the exact kind of advice they need to be prepared for anything when on the road, how to avoid accidents, and how to handle the unexpected. Hough, who began motorcycling in the 1960s, tackles every imaginable topic—from the mechanics of the bike, selection of the right-sized bike, and basic riding skills to night riding, group outings, and advanced survival tactics. In the chapter called “Motorcycle Dynamics,” Hough spells out the equipment needed and basic skills required to control a bike, and specifically keeping the rider’s safety and ability to avoid potentially injurious or fatal crashes. The author is outspoken and direct when it comes to safety, and he emphasizes the importance of the rider’s braking abilities and spells out how to improve them. The chapter offers six tried-and-true techniques for quick-stop tactics, critical for every rider to understand and master. He also addresses other vital skills that riders need to evaluate and improve, such as turning, maintaining balance and stability, and steering. He defines, compares, and analyzes the ins and outs of steering and control: direct steering, countersteering, push steering, out-tracking, coning, u-turns, and directional control. The chapter called “Cornering Habits” is a virtual master class in acceleration, deceleration, use of weight, throttle, leaning, and handling challenging terrain. Hough’s skill as a photographer and illustrator adds a graphic element to his books that leads to immediate understanding of the concepts he explains. The detail offered in each section of the book can only come from decades on the road, and the author is the consummate instructor, assigning homework to the readers in the form of exercises to practice and improve specific techniques that he outlines and illustrates in the text. Any rider who would venture out on the road without David Hough’s voice in his head takes an unnecessary risk with his own life. Proficient Motorcycling takes riders from long,

snaking country roads right into the traffic of the big city, and Hough offers the best advice for riders dealing with the most challenging conditions, whether it's road construction, snap-jawed intersections, skateboarders, or suddenly slippery road surfaces. A critical section of the book offers riders advice on how to deal with automobiles, including aggressive car drivers, oblivious SUV drivers, or "blind" truck drivers. The book offers the kind of first-hand experience that can literally save riders' lives, as illustrated in the chapters "Booby Traps" and "Special Situations," which offer evasive tactics and advice to avoid and handle everything from slick surfaces, curbs, and construction plates to ferocious dogs, hazardous wildlife, and difficult weather conditions. The final chapter of the book, "Sharing the Ride," is geared toward experienced riders who travel together in groups or who travel with a second passenger on the bike. Topics covered are formation, packing for trips, communication between riders, sidecars, trikes, and more. The book concludes with a resources section of organizations, training schools, educational tools, and websites; a glossary of 80+ terms; and a complete index.

The Sibirsky (Siberian) Extreme Project was a 2009 motorcycle adventure project by motorcycle adventurer Walter Colebatch to attempt to go into the ultimate depths of Siberia. The project aimed to push the boundaries of what is known and what is possible in terms of motorcycling in Siberia and hoped to ride new routes and tracks that had yet to be explored by adventure motorcyclists to date. On the ambitious schedule were: - the Tuva Track, a vague boggy unriden route linking the Altai and Tuvan Republics, near the Mongolian border, between the towns of Kosh Agach and Mугур Аксы - the Anabar Road from Lensk to Udachny, an unriden route leading further north in Asia than anyone had ridden before (over 66 degrees North). - the Vilyuisky Trakt, an unriden dirt track only completed in early 2009 that runs 1500 kms east (950 miles) between Lensk, Mirny and Yakutsk. - the legendary BAM Road, 4300 km from Vanino on the Pacific Ocean to Taishet in central Siberia; an abandoned road no motorcyclist had ever even attempted in its entirety, let alone ridden. To many adventurers, the BAM Road is the toughest road on the planet. This book covers the planning, the riding, the struggles, the triumphs and the disappointments of this incredibly challenging itinerary. Mama of ten Abbie Halberstadt helps women humbly

and gracefully rise to the high calling of motherhood without settling for mediocrity or losing their minds in the process. Motherhood is a challenge. Unfortunately, our worldly culture offers moms little in the way of real help. Moms only connect to celebrate surviving another day and to share in their misery rather than rejoice in what God has done and to build each other up in hard times. There has to be a better way, a biblical way, for moms to grow and thrive. As a daughter of Christ, you have been called to be more than an average mom. Attaining excellence doesn't have to be unsettling but it will take committed focus and a desire to parent well according to God's grace and for His glory. M is for Mama offers advice, encouragement, and scripturally sound strategies seasoned with a little bit of humor to help you embrace the challenge of biblical motherhood and raise your children with love and wisdom. Mama, you are worthy of the awesome responsibility God has given you. Now it's time to start believing you can live up to it.

The Northeast is shaped by its geography, history, economy, and people.

In 1982, at the age of just twenty-three and halfway through her architecture studies, Elspeth Beard left her family and friends in London and set off on a 35,000-mile solo adventure around the world on her 1974 BMW R60/6. Reeling from a recent breakup and with only limited savings from her pub job, a tent, a few clothes and some tools, all packed on the back of her bike, she was determined to prove herself. She had ridden bikes since her teens and was well travelled. But nothing could

prepare her for what lay ahead. When she returned to London nearly two and a half years later she was stonier, lighter and decades wiser. She'd ridden through unforgiving landscapes and countries ravaged by war, witnessed civil uprisings that forced her to fake documents, and fended off sexual attacks, biker gangs and corrupt police convinced she was trafficking drugs. She'd survived life-threatening illnesses, personal loss and brutal accidents that had left permanent scars and a black hole in her memory. And she'd fallen in love with two very different men. In an age before email, the internet, mobile phones, satnavs and, in some parts of the world, readily available and reliable maps, Elspeth achieved something that would still seem remarkable today. Told with honesty and wit, this is the extraordinary and moving story of a unique and life-changing adventure.

Nashville's Music Row is as complicated as the myths that surround it. And there are plenty, from an adulterous French fur trader to an adventurous antebellum widow, from the early Quonset hut recordings to record labels in glass high-rise towers and from "Your Cheatin' Heart" to "Strawberry Wine." Untangle the legendary history with never-before-seen photos of Willie Nelson, Patsy Cline, Kris Kristofferson and Shel Silverstein and interviews with multi-platinum songwriters and star performers. Authors Brian Allison, Elizabeth Elkins and Vanessa Olivarez dig into the dreamers and the doers, the architects and the madmen, the ghosts and the hit-makers that made these avenues and alleys world-famous.

At 23, James Toseland was the youngest ever winner of the World Superbike Championship and with more racing experience than riders twice his age, has overtaken previous champions Carl Fogarty and Neil Hodgson to become the next biking superstar. Toseland's success has been driven by a lifetime of tragedy. Using racing as a release, he became a fearless daredevil and had moved his way up through the ranks of British Superbikes by the time he was sixteen. But there was even more turmoil to come - a career of dramatic crashes and a collision in Monza, Italy which left James seriously injured and his Honda team-mate dead. This is a story of genius, tragedy and James' overwhelming will to succeed.

The Pulitzer Prize-nominated author of *Little Big Man* returns with perhaps one of his most imaginative alternate realities yet: a matriarchal society. Women reign supreme in the not-so-distant future, where Georgie Cornell has no choice but to wear the high heel shoe on the other foot. Swept into the chaotic world of publishing, he is at the mercy of his female bosses, especially if his pencil skirt is an inch too short. Georgie only has one male coworker he can lean on for a bit of support, and his friend Charlie's fascination with gender roles borders on the scandalous for Georgie's taste. Still, when Georgie loses his job it's Charlie he turns to for comfort. Spilling a drink on his expensive dress, he has no choice but to wear the women's clothes Charlie keeps in secret on the way home. The simple journey quickly turns chaotic when Georgie is taken in by the police for the crime of being a transvestite. A prison

escape is only the start of this piercing, insightful, and prescient look at gender norms. “Imagined with such ferocity and glee that we assent to it almost in spite of ourselves . . . A brilliant accomplishment by one of our best novelists.” —The New York Times Book Review

Young and beautiful, Lois Pryce was a rising star at the BBC. Unbeknownst to her co-workers, Lois lived a parallel life as a biker babe with an overwhelming sense of wanderlust. So she packed in her career to ride her motorcycle on her own from the northernmost tip of Alaska to the southernmost tip of South America. Alone. Armed only with the Spanish words for 'caution' and 'cheese', Lois was rather under-prepared for multiple bear sightings, bribing her way through borders, spending a night in a Mexican brothel and crashing her bike in the wilds of Patagonia. She most certainly got the adventure she craved, and her pulse-pounding, soul-searching adventure has already attracted fans worldwide - a weblog that she kept whilst on her travels was receiving more than two-thousand hits a day. Jupiter's Travels -Ted Simon's astonishing 4 year motorbike journey around the world The book that inspired Ewan McGregor's *Long Way Round* In the late 1970s Ted Simon set off on a Triumph and rode 63,000 miles over four years through fifty-four countries in a journey that took him around the world. Through breakdowns, prison, war, revolutions, disasters and a Californian commune, he travelled into the depths of fear and reached the heights of euphoria. He met astonishing people and was treated as a spy, a welcome stranger and even a god. For Simon the trip became a journey into his own soul, and for many others - including bikers Charley Boorman and Ewan McGregor - it provides an inspiration they will never forget. This classic text, which has informed a whole genre of travel writing in the thirty years since it was first published, will never be bettered for sheer adventure, passion, humour and honesty. Brought up in England by a German mother and a

Romanian father, Ted Simon found himself impelled by an insatiable desire to explore the world. It led him to abandon an early scientific career in favour of journalism, and he has worked for several newspapers and magazines on Fleet Street and elsewhere. Ted Simon is also the author of *Riding Home* and *The Gypsy in Me*. A poignant novel about a biracial girl living in the suburbs of Las Vegas examines the friendships that grow out of, and despite, her race.

The only biography of its kind, *Lincolnomics* narrates The Great Emancipator's untold legacy as The Great Builder of American infrastructure—developer of an economic ladder to democracy through national transportation, public education, and market access. Lincoln's view of the right to fulfill one's economic destiny was at the core of his governing philosophy—but he knew no one could climb that ladder without strong federal support. Some of his most enduring policies came to him before the Civil War, visions of a country linked by railroads running ocean to ocean, canals turning small towns into bustling cities, public works bridging farmers to market. Expertly appraising the foundational ideas and policies on infrastructure that America's sixteenth president rooted in society, John F. Wasik tracks Lincoln from his time in the 1830s as a young Illinois state legislator pushing internal improvements; through his work as a lawyer representing the Illinois Central Railroad in the 1840s; to his presidential fight for the Transcontinental Railroad; and his support of land-grant colleges that educated a nation. To Lincoln, infrastructure meant more than the roads, bridges, and canals he shepherded as a lawyer and a public servant. These brick-and-mortar developments were essential to a nation's lifting citizens above poverty and its isolating origins. *Lincolnomics* revives the disremembered history of how

Lincoln paved the way for Eisenhower's interstate highways and FDR's social amenities. With an afterword addressing the failure of American infrastructure during the COVID-19 pandemic, and how Lincoln's policies provide a guide to the future, *Lincolnomics* makes the case for the man nicknamed "The Rail Splitter" as the Presidency's greatest builder.

From the bestselling author of *Jupiter's Travels and Dreaming of Jupiter* comes an entertaining and inspiring new journey round Britain. Having crisscrossed the globe twice, Ted returns to the British Isles to rediscover the country of his youth. The result is a revealing portrait of modern Britain and a witty and affectionate journey back to the past, when Ted would hitchhike across the country visiting friends (and girlfriends). He returns to the site of his old school with its astonishing war time history and visits familiar haunts where he did his National Service and got his first job in newspapers. He also visits less-familiar places. Some inspire him (Winchester Cathedral). Others defeat him (a tax office in Nottingham). As he rolls through the Isles, he discovers that a great deal has changed: busier roads, bureaucracy and, worst of all, the dreaded 'Sat Nav'. But there is also much to celebrate and enjoy along the way. Packed with fascinating stories, extraordinary encounters and glorious depictions of the British countryside, *Rolling through the Isles* takes the reader on an unforgettable trip with a celebrated adventurer and writer.

In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle outside the Iranian Embassy in London: ... I wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT TERRORISTS!!! Please come to my city, Shiraz. It is very famous as the friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your Persian friend, Habib Intrigued, Lois decides to ignore the official

warnings against travel (and the warnings of her friends and family) and sets off alone on a 3,000 mile ride from Tabriz to Shiraz, to try to uncover the heart of this most complex and incongruous country. Along the way, she meets carpet sellers and drug addicts, war veterans and housewives, doctors and teachers - people living ordinary lives under the rule of an extraordinarily strict Islamic government. *Revolutionary Ride* is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is real contemporary Iran.
