Learn about music and emotion in this beautifully produced anthology Do you remember the first time you discovered an artist you really loved? Have you listened to them over and over again at different points throughout your life? This book harnesses that feeling, by collecting together 80 of music's finest artists to guide young people through the good, bad and sad times. Whatever the feeling, these artists have been there and sung about it. Organised by mood, young ones can dip into the library to discover new artists from decades past to present day. Fall in love with Mariah Carey, shout about it with Nirvana, love yourself with Lizzo, or cry it out with Adele. With 80 artists, bands, and composers from all genres (including classical) there's something for every family member to love and recommend to the next generation. Each entry contains biographical information on each artist, lists must-hear songs, and has accessible musical analysis from author and journalist Myles Tanzer. Every artist is captured in full-colour, rocking art by Ali Mac. With information at the front on how to soundtrack your mood, and information at the back on how to listen to and make your own music. A pitch-perfect first introduction to music for tweens.

An autobiographical exploration of the role and meaning of music in our world by one of India's greatest living authors, himself a vocalist and performer. Amit Chaudhuri, novelist, critic, and essayist, is also a musician, trained in the Indian classical vocal tradition but equally fluent as a guitarist and singer in the American folk music style, who has recorded his experimental compositions extensively and performed around the world. A turning point in his life took place when, as a lonely teenager living in a high-rise in Bombay, far from his family's native Calcutta, he began, contrary to all his prior inclinations, to study Indian classical music. Finding the Raga chronicles that transformation and how it has continued to affect and transform not only how Chaudhuri listens to and makes music but how he listens to and thinks about the world at large. Offering a highly personal introduction to Indian music, the book is also a meditation on the differences between Indian and Western music and art-making as well as the ways they converge in a

modernism that Chaudhuri reframes not as a twentieth-century Western art movement but as a fundamental mode of aesthetic response, at once immemorial and extraterritorial. Finding the Raga combines memoir, practical and cultural criticism, and philosophical reflection with the same individuality and flair that Chaudhuri demonstrates throughout a uniquely wide-ranging, challenging, and enthralling body of work.

“Higgins’ love of music and cultural variety is evident throughout. She writes in a relaxed, accessible, sophisticated style...Highly recommended.”—Choice From our first social bonding as infants to the funeral rites that mark our passing, music plays an important role in our lives, bringing us closer to one another. In this book, philosopher Kathleen Marie Higgins investigates this role, examining the features of human perception that enable music’s uncanny ability to provoke—despite its myriad forms across continents and throughout centuries—the sense of a shared human experience. Drawing on disciplines such as philosophy, psychology, musicology, linguistics, and anthropology, Higgins’s richly researched study showcases the ways music is used in rituals, education, work, and healing, and as a source of security and—perhaps most importantly—joy. By participating so integrally in such meaningful facets of society, Higgins argues, music situates itself as one of the most fundamental bridges between people, a truly cross-cultural form of communication that can create solidarity across political divides. Moving beyond the well-worn takes on music’s universality, *The Music between Us* provides a new understanding of what it means to be musical and, in turn, human. “Those who, like Higgins, deeply love music, actually know something about it, have open minds and ears, and are willing to look beyond the confines of Western aesthetics...will find much to learn in *The Music between Us*.”—*Journal of Aesthetics and Art Criticism*

In this book, readers will learn practical tips and strategies to teach music appreciation online. As online education is a growing field, an increasing number of teachers trained in traditional/live methods find themselves now teaching online and potentially without mentors to assist them. Students are also changing, seeking highly engaged, relevant, and interactive learning opportunities that connect to their lives. Here, readers will find helpful guidance in planning curriculum, integrating multimedia assets, designing forum discussions, developing assignments, preparing rubrics, engaging in forum discussions, preparing, managing, and teaching, the course, providing feedback and grading, and following up with struggling and challenging students. The book can serve as a resource to those already teaching music appreciation online or as a comprehensive guide to those new to the field. Additionally, it may serve as a resource to instructors in other disciplines who seek to shift live-courses to the online format, as well as music appreciation instructors who would like to integrate digital or online components into traditional face-to-face courses. The book is organized into five major sections, designed to guide the novice online educator in depth while also appealing to the seasoned veteran through the ability to review each section as a stand-alone resource. Although some readers will desire to read from cover to cover, they will also be able to move in a non-linear manner from chapter to chapter, using chapters in modular form, in order to benefit from the sections that most apply to them at any given time.

When it comes to writing a text for non-music majors, Kamien knows the score. With the care you would expect from the concert pianist he is, Kamien introduces the musical elements and repertoire thoroughly and clearly, without assumptions of prior knowledge but also without condescension. As a teacher at Queens (NY) College, Kamien developed the concept of the Listening Outline, which he incorporated into the first edition of this book and which he has refined and enhanced in every subsequent edition. This is a text with which students of all levels and backgrounds can feel comfortable.
