Finlay (a little dinosaur) is counting out jelly beans to share with his friend. He is sitting on a grassy mound. A big dinosaur comes along and demands the jelly beans. He is rather rude, a bit of a show-off, and he thinks that Finlay's friend is a figment of his imagination. What follows is a lot of posturing from the big dinosaur as he attempts to prove his worth with various antics on and around the grassy mound. As the book progresses it will gradually become clear to the reader that the "grassy mound" is in fact, Finlay's friend, the really, really, really big dinosaur! The big dinosaur certainly doesn't realize until his bravado propels him into a dark cave that turns out to be the mouth of the really, really, really big dinosaur. It's only then that the big dinosaur learns that in order to make friends it's a good idea not to show off and it's a good idea to be prepared to share. Perfect for fans of Rachel Bright and Jim Field's *The Squirrels Who Squabbled*.

In the Badlands of Montana, many stories are waiting to be told – about Triceratops and Ankylosaurus and ancient crocodiles. There, scientists search for the bones of animals that lived millions of years ago. In Dinosaur Dig, Kathryn Lasky and Christopher G. Knight, the award-winning writer-and-photographer team, describe the dirty, sweaty, and exciting job they and five other families perform as they search for fossils in the Badlands. Dinosaur Dig is a feast of
