

My First Encyclopedia

Categorizes and describes dinosaurs based on their eating habits, physical characteristics, and habitats, along with sections about their predecessors and possible reasons for their extinction.

Discusses the world's oceans, the animals that live in them, and the threats they face from overfishing, pollution, and global warming.

Presents facts about dinosaurs, their origin, their diversity, and their final extinction, with Internet links for further information.

Discover everything you ever wanted to know about anything with this first reference book for young readers and writers. An inspiring and comprehensive collection of the best in the DK First Reference series, all gathered together in one superb volume. From prehistoric life to space travel, bacteria to the human brain, help your child discover all about the world we live in. They'll discover how life on Earth began, how the human body works, how people lived in Ancient Egypt, why some dinosaurs were so huge, what makes machines work, the countries of the world and much, much more. Full of fantastic photos, bite-sized facts and quiz questions kids will love getting their teeth into, there's lots to see and explore. Perfect for homework or just for fun. Go ahead; let your child find out more about everything!

A fantastic first introduction in a large show-and-tell format, with beautiful illustrations and simple captions.

"A 22-volume, highly illustrated, A-Z general encyclopedia for all ages, featuring sections on how to use World Book, other research aids, pronunciation key, a student guide to better writing, speaking, and research skills, and comprehensive index"-- This stimulating and comprehensive encyclopedia for children ages 8-12 provides answers to all the questions kids love to ask. Each chapter is jam-packed with maps, charts, timelines, diagrams, beautiful images, and amazing facts. Did you know, for example, that a single drop of blood contains around five million blood cells? Or that there are areas of desert in all seven of Earth's continents? Kids can build their knowledge on a wide range of topics-including Earth and beyond, plants and animals, history and politics, science, technology, and the human body-arranged thematically with more than 9,000 indexed entries and 2,500 colorful images. Cross-reference icons encourage children to explore and discover linked information, feeding their curiosity and building their general knowledge. The New Children's Encyclopedia, which has sold almost 500,000 copies worldwide since 2009, has now been fully updated in line with the latest knowledge and research. Developed, written, and checked by experts, this is the must-have reference book for every child's library.

Meant for children aged 5 and up, My First Encyclopedia will pique kids' curiosity and stimulate their intellectual development. Stunning photographs, facts, games, and puzzles will capture children's attention and make reading fun. Clear and comprehensive content helps develop educational skills and broaden a child's knowledge. Additionally, helpful parents' notes are included to encourage an interactive learning experience between caregiver and child. With My First Encyclopedia, children will build knowledge and vocabulary that will stimulate their mind and aid their development.

The perfect book for young readers looking to explore some of life's biggest questions. Thousands of years ago, ancient philosophers asked some important questions: "What is real?", "What is the point of my existence?", "Why is there evil in the world?", and "What can I know?" These questions have gone on to spark passionate debates about our existence and how we understand the world around us. In this engaging and accessible introduction to philosophy, readers aged 11+ will be introduced to a variety of philosophical ideas through the teachings of Plato, Confucius, Simone de Beauvoir, and many more. Vibrant, reader-friendly illustrations bring the history of ideas and thinking to life, and provide topics for reflection and debate. With biographies of the most influential philosophers from around the world, young readers will explore the questions that have been fundamental to the development of scientific study, logical thinking, religious beliefs, freedom in society, and much more. Thought experiments peppered throughout will help to connect readers with the theories presented so they can apply them to their own lives.

The wildlife of the rainforest is amazing, and this first picture book is the perfect introduction for kids keen to discover more about it. In a supersized yet lightweight format, the book can be read on the floor, held up by a teacher or parent to show and share with a group, and enjoyed by all children, whether alone or with others. Thematic spreads introduce flora and fauna of all kinds, including many of the most popular and well-known creatures that children might recognize, as well as more unusual species to find out about. Beautiful illustrations by expert natural history artists are full of detail, and there's a bonus at the back of the book with a picture collection of even more animals and plants to discover!

Discover the wonders of the world with all your favourite Disney characters!--Publisher.

All the most important science topics for kids, from magnets and sound waves to how planes and cars work, are simply explained in this fun and informative illustrated STEM book for children in grades 1 through 6. First How Things Work Encyclopedia covers everything a child needs to know. It follows the curriculum for grades 1 through 6 and provides a strong foundation for science and STEM learning through the rest of the school years. It's the perfect homework help book to support children as they begin to learn about how things work in the world around them.

It's soft! It's warm! It's cold! It's in the air! Explore the familiar world in imaginative new ways in this stylish board book from the celebrated illustrator Ingela P. Arrhenius. What do a phone and a hammer have in common? Would it help if a fire engine, a trumpet and a crying baby joined the crowd? Noisy! With her trademark sense of whimsy and her bold, retro illustration, Ingela P. Arrhenius delights young children as well as design lovers, as she looks at the everyday world through imaginative common themes. Flowers, a new book and a freshly bathed baby all smell great, but a skunk, old fish bones and a baby in need of a change? Not so good! Whether up in the air, in the water or things to be found at Home Sweet Home, readers are invited to take a playful tour of the world around them to discover the way that things are alike, and how they are wonderfully unique.

Key history topics are simply explained in this friendly and informative reference book. First History Encyclopedia covers everything a child needs to know about historical events. It follows the curriculum for grades 1 through 6 and provides a strong foundation for history learning through the rest of the school years. It's the perfect homework help book to support children as they begin to learn about history.
