Ride the hilarious roller coaster with Glen Stanford as he follows Steve Scott's plan in "How to Write a Nonfiction e-Book in 21 Days " Not one to let the writing process cramp his style, this ukulele-playing bluegrass-singing YouTube sensation (32 views and counting) juggles his new-found fame with astonishing persistence to produce not one, but two works of genius. This is the true story. The (secret) recipe for success: Writer's buzz - 1oz Sleepless nights - 2oz Tenacity (and beer) - 7 (units left deliberately vague) Irreverence and political incorrectness - to taste Espresso - administered intravenously - 55 gal Pizza (1/2 pepperoni, 1/2 mushroom) - 37 slices Humility - a whole bunch Blend and enjoy.

Perry Pig had a problem. Peppy Puppy and Peggy Porcupine picked on Perry, called him "Pudgy Porky" and posted his picture in the paper without his permission. With Paula Panda's prodding Perry plots a plan, and Peppy and Peggy apologize.

Ian Wharton is a rather sad, lonely boy, growing up in a small town in Sussex, dominated by his over-sexual mother. He becomes the familiar of Samuel Northcliffe, a ridiculously obese caravan dweller and neighbour who intimidates and enchants Ian into a Faustian pact.

The story of a devilishly clever international financier/marketing wizard and his young apprentice, My Idea of Fun is both a frighteningly dark subterranean exploration of capitalism run rampant and a wickedly sharp, technically acute display of linguistic pyrotechnics that glows with pure white-hot brilliance. Ian Wharton is a very ordinary young man until he is taken under the wing of a gentleman known variously as Mr. Broadhurst, Samuel Northcliff, and finally and conclusively simply as the Fat Controller, Loud-mouthed, impeccably tailored, a

fount of bombastic erudition, the Fat Controller initiates Ian into the dark secrets of his arts -- of marketing, money, and the human psyche -- and takes Ian, and the reader, on a wild voyage around the edges of reality.

Emphasizing the diversity of collage in the twentieth century, Rona Cran's book explores the role that it played in the work of Joseph Cornell, William Burroughs,

Frank O'Hara, and Bob Dylan. Collage's catalytic effect, Cran argues, enabled each to overcome a crisis in representation that threatened to destabilize their work. Throughout, she shows that rigid definitions of collage severely limit our understanding of artists and writers who used it in non-traditional ways.

As Ian's idea of fun becomes increasingly extreme, the reader is taken to a place where morality is eroded by the dull grind of modernity and everything becomes admissible.

He had barely escaped, just a year ago, before everything flipped upside down and Japan dropped a veil over its largely

depopulated, earthquake-scarred cities, cutting off all contact with the outside world. That's around the time the rumors began. They said that Tokyo had returned to its dark, old ways. But this time, warped and infected by the pharmacological and technological graffiti of 2043. This version of Tokyo was a place no foreigner had been unfortunate enough to lay eyes upon. Until now. But this will be the hardest day's work of Byrne's life, if he can make it out of Tokyo alive.

Two supremely skewed novellas that comprehensively challenge our ideas and assumptions about masculinity and femininity.

Groomed for a place at a Big Name School since their obsessed, status-conscious helicopter parents passed out cigars at the Stockstill General Hospital Neonatal Unit, the privileged students of Pembrocton College Preparatory are ratcheting up the stakes in the race to get into the nation's most prestigious colleges. The PCP juniors are gloating, jubilant at the rumor that the valedictorian presumptive has received a B on her report card, a grade that will relegate her to in-state hell. Her heir apparent, a three-generation Yale legacy, is the sole mourner at the demise of her future—if only because her thoughtless academic lapse is going to derail his plans to attend MIT. Across town, in the graffiti-covered halls of Stockstill High School, the students slink to class, praying that they arrive without a knife wound—and dream of ivy-covered walls. And with the help of a take-no-prisoners principal and an enterprising parent, the students at SHS dare to encroach shamelessly on territory normally reserved for their wealthy private school rivals. Join the fray as a memorable cast of characters engages in the latest rage in extracurricular activities: college admissions as a blood sport. Laugh out loud funny, The Applicants lampoons the heights we scale—and the depths to which we

sink—to get into the “right” college. ?

Magic's Not Real. But Surging Is. Thirteen-year-old Finley McComb has just been invited to Brighton Preparatory School for Surgeurs. There's only one problem: he's not a surger. He can't summon superhuman gifts from electrical appliances. He can't will fantastic strength from lamps and clocks. The surger's glove—a tool designed with a rechargeable power source—does nothing for Finley. So why the acceptance? Intrigued, Finley leaves Southern California suburbia and heads to the prep school anyway, where classes prove tough, and the professors tougher. Finley's determined though, because despite the school's difficulties, he's found a sense of purpose, and the faculty believe there's untapped greatness inside of him. Then, one evening, a mysterious ghost ship appears on the campus coast, creating panic. Classes are put on hold, the surging community is stricken with fear, and, strangely, Finley is told that the vessel's arrival is tied to his destiny. Finley is faced with many tough choices in his first semester, but none will prove tougher than whether or not he should board the ghost ship...where, supposedly, his true purpose will be discovered.

"The sign read, 'MR. FUN IS HERE'. The sign was telling me, telling one and all who cared to heed its call, that if fun was your quest, you had reached your journey's end." When it comes to viewing art, living in the information age is not necessarily a benefit. So argues Michael Findlay in this book that encourages a new way of looking at art. Much of this thinking involves stripping away what we have been taught and instead trusting our own instincts, opinions, and reactions. Including reproductions of works by Mark Rothko, Paul Klee, Joan Miró, Jacob Lawrence, and other modern and contemporary masters, this book takes readers on a journey through modern art. Chapters such as “What Is a Work of Art?”, “Can We Look and See at the Same Time?”, and “Real Connoisseurs Are Not Snobs,” not only give readers the confidence to form their own opinions, but also encourages them to make connections that spark curiosity, intellect, and imagination. “The most important thing for us to grasp,” writes Findlay, “is that the essence of a great work of art is inert until it is seen. Our engagement with the work of art liberates its essence.” After reading this book, even the most intimidated art viewer will enter a museum or gallery feeling more confident and leave it feeling enriched and inspired.

"Origins of an Idea defends the concept of 'original ideas,' as envisioned by our Founding Fathers, from the surge of attacks lodged against it by The Pirate Party, the Free Culture Movement, anti-SOPA proponents and others who would have us do away with the concept of intellectual properties and the monopolies established by our U.S. Constitution. Mr. Shrum advances an apologetic for the concept of original expression of ideas, and maintains that ownership thereof is an inherent human right that is indispensable to the advancement of human progress" -- P.
