In the nonfiction story My Journey with Infiltrating Ductile Carcinoma (Breast Cancer), author W. Andranette Anderson uses passion and emotions in order to let her audience know how the challenges of breast cancer affect her and her family. Her challenges are compounded when her mother and stepdad are also diagnosed with serious illnesses. She is now the primary caregiver not only for her parents but also for herself. The story takes place over a period of two and a half years. During this time, Andranette does her best to live her life as normally as possible, do whatever is needed for her parents, and use her daily activities as a much needed respite in order to ensure her own self preservation. Though she had to stop working as an educator to take care of her parents and herself, she would not trade anything for the lessons that she learned from this awe-inspiring experience.

What is your first thought when you hear the word cancer? It's probably not a good one. Cancer changes us, some of us for good others for bad. Ovarian cancer changed me. I became stronger, determined and empowered. From being a listener I became a writer. This book is about my journey through Chemotherapy. As I told my story to family and friends, I discovered that besides being concerned, they were starving for information. This topic and what a person is experiencing along the way was new to most of them. It changed the direction of my life and helped others to look at cancer from a new perspective. You'll laugh with me, maybe you'll cry, but hopefully you'll be come a wiser person. My journey with Christ is about how I joined church to give my life to God. I joined church to become closer to God. As time went on in this church, all sorts of drama started, beginning with the pastor and his moles. It had gotten so out of control things started to turn physical. I got dismissed from that church that begun my journey with Christ. After the first

church, I had traveled to three other churches since, then dealing with the same issues—jealousy, betrayal—and discouraged, let down, heartbroken, and angry at being belittled from the pulpit, you will read from one church to the next what I experienced in each church and how I kept my faith in God.

"J. L. McCullough's evocative and often lovely memoir recounts one man's coming of age in the 'old' Mississippi: an often deceptively bucolic and picturesque region that sadly disguised the inherent prejudices in that part of the country."--Cover.

An alarming and enlightening first-hand account of what's really going on behind the borders of the Islamic State. ISIS, IS, the ISLAMIC State. It's an organization that has taken on chilling associations due to the horrific deeds committed in its name. ISIS beheads journalists--and yet one, Jürgen Todenhöfer, was invited to visit its fighters in Mosul, after months of negotiations. Accompanied by his son, Frederic Todenhöfer, who photographed the journey, he asked them to explain their beliefs, motivations, and goals. This book, the most in-depth research conducted on the terror group so far, is the result of those conversations. My Journey into the Heart of Terror shows how the organization grew from its al-Qaeda roots and the role the West has played, both past and present. Along the way, Todenhöfer offers startling insights into what ISIS thinks, what it wants--and how it can be defeated. Only by understanding our enemies, Todenhöfer believes, can we combat ISIS's radical, un-Islamic vision and the terror and destruction it brings.

I dedicate this book to my father and mother. Without them I would not have become the person I am. I was born in 1938 to a wonderful set of parents; my mother and father were people who gave of themselves. They instilled so many virtues in me that I am very thankful for. To my family who had to put up with me through the good times and the bad. To everyone that I have met along the way while I was following my life's path. And most of all to God, whose help has given me the desire for knowledge and the courage to follow my heart. Without that, I would not have accomplished the things I've done.

On April 28, 2006, as he lay in his hospital bed in Ann Arbor, Michigan, visions of celestial beauty were the last thing on Marv Besteman's mind. He had just had surgery to remove a rare pancreatic tumor. It was after visiting hours and his family had left for the day. Alone and racked with pain, Marv tossed and turned, wanting more than anything else to simply sleep and escape the misery and discomfort for a while. The retired banker, father, and grandfather had no idea he was about to get a short reprieve in the form of an experience he never could have imagined. In My Journey to Heaven, Marv Bestman shares the story of his experience of heaven with astounding detail. Readers will hear of his encounters with angels who accompanied him to the gate, his conversation (argument, really) with St. Peter, and his recognition of friends and family members who touched his life. His story offers peace, comfort, and encouragement to those who have lost loved ones and gives security and solace to those who are grieving, dying, or wonder about the afterlife. Marv believed God sent him back to earth to fulfill this mission of comfort and reminds readers that God has work for each of us to do before he calls us to be with him in heaven. Secure in his belief that his book was the fulfillment of his own mission, Marv returned to heaven in January 2012.

In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within these pages, Anita recounts stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. As part of a traditional Hindu family residing in a largely Chinese and British society, Anita had been pushed and pulled by cultural and religious customs since she was a little girl. After years of struggling to forge her own path while trying to meet everyone else's expectations, she had the realization, as a result of her epiphany on the other side, that she had the power to heal herself . . . and that there are miracles in the Universe that she'd never even imagined. Be Me, Anita freely shares all she has learned about illness, healing, fear, "being love," and the true magnificence of each and every human being! This is a book that definitely makes the case that we are spiritual beings having a human experience . . . and that we are all One! I hope this book helps clear up the general population's misconceptions and confusion about the Amish. I have read or heard things that aren't true, or even near the whole truth. This book is not written to harm anyone, but to provide information so that others might better understand how to help Amish people. There will be things written that don't apply to every community, but it's very real and true in the communities I lived in. I was born from generations of Amish and, at age 51, I did the unthinkable. I left everything I had ever known. That would've been impossible to do with all the shunning. If it hadn't been for my precious Jesus, I would have never found the strength to leave all that I'd ever known. Now it is my heart's sincere desire that everybody come to the saving knowledge of Jesus Christ and experience the joy of salvation, and that includes my loved ones, the Amish.

One major event can turn ones life around for the better: we hold true to the saying, Things happen for a reason.

Throughout history, God has used dreams, visions and the prophetic word to instruct and encourage His people. He still uses these methods to communicate with us today—all we have to do is listen. My Journey is a collection of revelations the Lord has given Linda Walker over the years. Some of these prophetic words offered direction or warning, while others were simply messages of love from the heavenly Father to His beloved child. Although Linda did not immediately understand some of these messages, looking back she can clearly see how God used each word to keep her on the right path. God speaks to each of us in unique ways. We must learn to listen for His voice. My Journey will bless and encourage you to seek God with your whole heart, and get to know Him more intimately each day. God is speaking. Are you listening?

This story explains how the Lord inspired a teenage mother to strive for greatness despite of facing obstacles.

“A funny yet surprisingly nuanced look at the legends and ideas of the self-help industry” (*People*, 3.5 stars), *Promise Land* explores the American devotion to self-improvement—even as the author attempts some deeply personal improvements of her own. Raised by a child psychologist who was himself the author of numerous self-help books, as an adult Jessica Lamb-Shapiro found herself both repelled and fascinated by the industry: did all of these books, tapes, weekend seminars, groups, posters, t-shirts, and trinkets really help anybody? Why do some people swear by the power of positive thinking, while others dismiss it as so many empty promises? *Promise Land* is an irreverent tour through the vast and strange reaches of the world of self-help. In the name of research, Jessica attempted to cure herself of phobias, followed *The Rules* to meet and date men, walked on hot coals, and even attended a self-help seminar for writers of self-help books. But the more she delved into the history and practice of self-help, the more she realized her interest was much more than academic. Forced into a confrontation with the silent grief that had haunted both her and her father since her mother's death when she was a baby, she realized that sometimes thinking you know everything about a subject is a way of hiding from yourself the fact that you know nothing at all. “A jaunty, cannily written memoir” (*Chicago Tribune*), *Promise Land* is cultural history from “a witty and enjoyably self-aware writer...Jessica Lamb-Shapiro's talent as a storyteller is undeniable” (*The New York Times Book Review*).

Charlotte Werth was born Dec. 21, 1927, in Königsberg, Germany, in what was then known as East Prussia. In this memoir, she recalls the happy times of her childhood before the Nazis took charge. At ten years old, her childhood of happy memories was about to come to an abrupt end. When the Russians seized Königsberg, she was held captive within her own city. While most ethnic Germans remaining in Königsberg died, she survived and was able to leave two years later as a refugee. Without her parents, she would have never survived what her father called "hell on earth." When she left Germany for the United States of America, he was the one who told her to make sure to tell the world her story. Despite all that she's suffered through, her zest for life comes across in full force in this tale that reveals remarkable lessons about history, perseverance, love, and forgiveness. Join her as she shares her life story in Thank You God, for Leading Me Home.

My life was full of many unexpected experiences. Some were good, and some were bad. During that time of war, mostly bad times occurred more often than good times. Those good times didnt last longer. I think there is a reason why things happen to people, and as always there are results afterward, either good or bad. My hope all these years of war in South Sudan was that someday, there would be a joyful moment for me as the outcome of my horrible suffering. I do not have many good times to remember in my past life since the day I left South Sudan until the day I arrived in the United States of America. However, even then still, I always felt like I was missing something. Of course, indeed, part of me is missing: my whole family was not with me. I never gave up on myself when I was in that horrible situation. I resisted the pain I was facing. I wish of no ravage that I should do against my foes for what they did to me. I wish for the bad day to get over and hope for better tomorrow. I never except the weakness to engage my mind. Instead, I wish to preach the word of peace to my enemies for the sake of freedom in order to save the lives of the innocent. I wish to just speak out only the word of unification. I want to make the world aware of the war situation that was going on in my hometown and convey peace among the people and avoid more lives to be lost. War is wrong; we are all human beings with only one common goal: the soul. However, the only message you should be saying to your enemies is peace. Bear in mind that when you are torturing someone, you are torturing yourself as well. You might not feel it physically but emotionally, maybe not at the moment, but afterward, in the near future, when peace comes and when justice prevails. My parents used to tell me not to be afraid but to brave and strong. The fear one is the one got kill first in battle because they panic and run randomly into ambush.
