The growing housing crisis cries out for solutions that work. As many as 3.5 million Americans experience homelessness each year, half of them women and children. One in four renters spends more than half of their income on rent and utilities (more than

30 percent is considered unaffordable). With record foreclosures and 28 percent of homes underwater, middle and low-income homeowners are suffering. Many congregations want to address this daunting problem yet feel powerless and uncertain about what to do. The good news is that churches are effectively addressing the housing crisis from Washington State to New York City--where an alliance of sixty churches has built five thousand homes for low-income homeowners, with virtually no government funding or foreclosures. This book not only presents solid theological thinking about housing, but also offers workable solutions to the current crisis: true stories by those who have made housing happen. Each story features a different Christian denomination, geographic area, and model: adaptive reuse, cohousing, cooperative housing, mixed-income, mixed-use, inclusionary zoning, second units, community land trusts, sweat equity, and more. Making Housing Happen is about vision and faith, relationships, and persistence. Its remarkable stories will inspire and challenge you to action. This new edition includes significant new material, especially in light of the ongoing mortgage crisis.

The Oxford English Dictionary contains 175,000 words in common usage and yet linguists estimate that a vocabulary of 3,000 is sufficient to cover ninety-five per cent of common usage in speech and print. Where have all those other words gone? The English language is a giant sponge, absorbing words from a multitude of different languages and cultures and yet it seems speakers of English are indolent at accessing the rich resources at our disposal. 1000 Words to Expand Your Vocabulary aims to ameliorate this issue by providing a fascinating lexicography to boost your word power. Alongside the elegant and archaic words are discussions of malapropisms and solecisms, words for which meaning has changed over time and words that have meanings often contrary to their common usage (and abuse). Each entry contains outlines of word origins, examples in context and a wealth of word related trivia. 1000 Words to Expand Your Vocabulary will help word lovers flaunt their prolixity without flouting the rules that govern correct meaning.

In this New York Times bestseller, the White House chief usher for nearly three decades offers a behind-the-scenes look at America's first families. J. B. West, chief usher of the White House, directed the operations and maintenance of 1600 Pennsylvania Avenue—and coordinated its daily life—at the request of the president and his family. He directed state functions; planned parties, weddings and funerals, gardens and playgrounds, and extensive renovations; and, with a large staff, supervised every activity in the presidential home. For twenty-eight years, first as assistant to the chief usher, then as chief usher, he witnessed national crises and triumphs, and interacted daily with six consecutive presidents and first ladies, as well as their parents, children and grandchildren, and houseguests—including friends, relatives, and heads of state. J. B. West, whom Jackie Kennedy called “one of the most extraordinary men I have ever met,” provides an absorbing, one-of-a-kind history of life among the first ladies. Alive with anecdotes ranging from Eleanor Roosevelt's fascinating political strategies to Jackie Kennedy's tragic loss and the personal struggles of Pat Nixon, *Upstairs at the White House* is a rich account of a slice of American history that usually remains behind closed doors.
