A story about Butch and Kane who are identical twins with an identical problem: lack of money. Though the brothers are a lot alike in most instances, Kane proved how different they really are when he targets Memphis most notorious businessman. Butch on the other hand, knows that nothing positive comes out of bad deeds. Life is hard for him, but he never realized how sweet it was until he found himself a victim of mistaken identity. *Domino Effect* is a freight train thriller that will trample every fast-paced novel you have ever read. For every action that the brothers take, there is a chain reaction that pulls them deeper into the hole before they can get out. Will they last? Can you tell what is real or what is fiction?

I never planned to fall in love. Least of all with a woman, you. But I did, and telling you was the hardest thing I ever did. I knew how you would reach first, but I never anticipated how hard it will be for me or how you reacted next. I had to write, for the first time ever, and now we face book number two. I wrote just to tell you how I feel, what I think. All the things I wanted to say to you but you didn't want to listen. So I wrote, and wrote, and wrote. Flood of thoughts, feelings, whatever came to my mind. Just to give me five minutes of strength to get out of bed. I wrote for me. I wrote for you. Most of them are here. My pain, my love, my longing, my hesitations, My certainty. I know you don't want to hear from me, don't want to read what I have to tell you. But I have to get them out of me, if not to you then just out there, to the world who doesn't know me. Maybe some day you will find your courage and return. Until then my love, You Still don't Know How Much I Love You.

When the world says, "Let your emotions lead you," we as Christ-followers must find a different course, navigating through the minor whirlpools, unpredictable winds, and sometimes ferocious hurricanes. Christ's words and actions guide our ships into deeper waters and beyond to the other shore. This book explores scriptural anchoring points, personality influence, and past experiences to give us a new vision of the weighted tension between letting loose with our feelings or cinching up and ignoring them altogether. As human beings, we are created with emotional dimension, and within Christ, we are called to surrender these feelings, using them in a healthy and biblical way.

"Like any journey, moving induces excitement and fear. Moving without an emotional map, however, induces terror. Where am I going? What am I feeling? What is happening? Am I normal? With efficient strokes of her pen, Valerie Besanceney sweeps these troubling questions aside for any child fortunate enough to receive this book. My Moving Booklet traces the contours of every move's landscape, freeing the young explorer to color in the mountains and valleys he or she encounters. Each turn of the page quietly reinforces this book's

most important message to children: someone knows where you are. Moving isn't easy. Being reassured you're still on the map makes it easier. And because children clutch tightly to the people and things that make them feel safe, My Moving Booklet will earn its title in small sets of hands everywhere." Douglas W. Ota, Author, *Safe Passage: What Mobility Does to People and What International Schools Should Do About It* "Valerie Besanceney has come up with a perfect addition to any classroom or family that deals with the comings and goings of our citizens of the world. Not only will the child enjoy the beautiful emotions icons but they will be easily able to label how certain parts of this move is making them feel. If a child can easily share their honest emotions they will more readily be able to make the most out of changes whether it is across town or across the world. It is exciting to see that caring adults now have a tool that can really benefit a child in transition. When a child is going through a move, he or she might be going through many different emotions. As Besanceney says, 'Sometimes it is easier to identify with illustrations and words than to come up with your own words.' This is why My Moving Booklet is perfect for your young child." Julia Simens, Author, *Emotional Resilience and the Expat Child: practical storytelling techniques that will strengthen the global family* "Helping a child prepare for a successful transition has just become much easier! A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-traditional memoir, filled with alphabetical vignettes not chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my recollection of things past, and as in all recollections, the more distant the memory the clearer the details.

A Spectacular Enhancement to the Skill System Mythic Skills introduces a system of skill exploits that take the basic tasks your skills allow you to perform and dials them up to amazing levels. In addition, every skill in the Pathfinder Roleplaying Game Core Rulebook also gets brand-new skill exploits, as well as greater exploits that only the most skilled masters would even attempt. This book contains rules for using these enhanced skills with mythic characters but also provides an alternative system for use in non-mythic Pathfinder campaigns! This system allows your characters to focus on their skills as a key part of their character construction and to invest more of their character's abilities in their character itself, rather than the character's gear or magical tools. You can use these rules generally with mythic characters, allowing them to attempt all manner of skill-based exploits, or you can limit the ability to pull off these amazing skill stunts to those mythic characters that have really invested in making their skills a key part of their character's identity. The mythic rules offer an opportunity to magnify what makes a character special, and the skills they choose to hone as part of their background narrative and throughout the course of the campaign should be just as

Developed as a response to Modernist art and literature, this collection of poetry and art challenges the way we appreciate artistic genre. Instead of creating art inspired by poetry or the poetry inspired by art, this work melds that two into a cohesive work, with neither being the progenitor of the other. It examines the history of blackness and looks at that history through a modern lens, changing how we see our heroes, how we see ourselves and how we see society. It questions how we communicate and how we amuse ourselves. It redraws our innate sense of beauty. It examines gender roles and abuse. Created by a mother and daughter team, this book of poetry provides image to imagery. With Katerina Canyon's poems and Aja Canyon's illustrations, this work is a conversation between them as they examine what it means to operate within the world as black women.

In his Poetics, the cornerstone of narratology, Aristotle establishes plot as the most, and spectacle as the least, important of the six elements of tragedy. This initiates a bias for time and against space that continues to shape the narratological agenda to the present day. In the

only book-length treatment of narrative space in Homer to date, Brigitte Hellwig reduces the wealth of spatial detail in the Iliad and Odyssey to a finite number of places and charts their trajectory throughout each respective epic. As such, she applies to space the structuralist methodology typically devoted to time, extracting from it as hypothetical temporality that subordinates experience to exegesis and disregards all but those spatial phenomena that survive the process of paraphrase. There exists, however, an aesthetic dimension of narrative as well, within which actions are conveyed to the audience in real time before they are abstracted into story-events. In this book, I offer a narratological reading of Homer's Iliad from the standpoint of space rather than, the usual emphasis, time. I adapt Meyer Schapiro's conception of the picture frame as "a finding and focusing device placed between the observer and the image" to the dynamic medium of epic narrative, and establish the manipulation of frames as the basis for a poetics of narrative engagement. I demonstrate how Homer employs four cinematic devices in the Iliad-decomposition, intercutting, meta-audience, and vignette-to achieve montage-like control over his audience's attention and to reveal a semantic component of the epic that manifests itself exclusively within narrative space.
