Walt Johnson has been a rolling stone most of his life, moving from town to town and living on the edges of homelessness. Now he has run out of time as lung cancer has left him only months to live. Walt then begins a quest to find the son with whom he lost contact decades earlier. Out of money, he lands a job at a small-town restaurant in an attempt to save enough to buy a bus ticket to the last known whereabouts of his son. The friends Walt makes at his new job soon become family for him, especially 14-year-old Danny who is emotionally paralyzed at the loss of his own father in Iraq. Faced with Danny's struggles to grow up and the struggles of his other new friends, Walt comes to realize he is not only on a journey to find his own son, but he is on a journey to find himself worthy of being a father.

"Like any journey, moving induces excitement and fear. Moving without an emotional map, however, induces terror. Where am I going? What am I feeling? What is happening? Am I normal? With efficient strokes of her pen, Valerie Besanceney sweeps these troubling questions aside for any child fortunate enough to receive this book. My Moving Booklet traces the contours of every move's landscape, freeing the young explorer to color in the mountains and valleys he or she encounters. Each turn of the page quietly reinforces this book's most important message to children: someone knows where you are. Moving isn't easy. Being reassured you're still on the map makes it easier. And because children clutch tightly to the people and things that make them feel safe, My Moving Booklet will earn its title in small sets of hands everywhere." Douglas W. Ota, Author, *Safe Passage: What Mobility Does to People and What International Schools Should Do About It* "Valerie Besanceney has come up with a perfect addition to any classroom or family that deals with the comings and goings of our citizens of the world. Not only will the child enjoy the beautiful emotions icons but they will be easily able to label how certain parts of this move is making them feel. If a child can easily share their honest emotions they will more readily be able to make the most out of changes whether it is across town or across the world. It is exciting to see that caring adults now have a tool that can really benefit a child in transition. When a child is going through a move, he or she might be going through many different emotions. As Besanceney says, 'Sometimes it is easier to identify with illustrations and words than to come up with your own words.' This is why My Moving Booklet is perfect for your young child." Julia Simens, Author, *Emotional Resilience and the Expat Child: practical storytelling techniques that will strengthen the global family* "Helping a child prepare for a successful transition has just become much easier! Valerie Besanceney's booklet is a great tool for schools wanting to collaborate effectively with every child and his or her parents to help ease them on their life journey. Straightforward, and well structured, it also provides lots of room for the creativity of the individuals involved and keeps the child at the centre. Thank you!" Jennifer Armstrong, Principal of Primary, La Chataigneraie Campus, The International School of Geneva

A Spectacular Enhancement to the Skill System Mythic Skills introduces a system of skill exploits that take the basic tasks your skills allow you to perform and dial them up to amazing levels. In addition, every skill in the Pathfinder Roleplaying Game Core Rulebook also gets brand-new skill exploits, as well as greater exploits that only the most skilled masters would even attempt. This book contains rules for using these enhanced skills with mythic characters but also provides an alternative system for use in non-mythic Pathfinder campaigns! This system allows your characters to focus on their skills as a key part of their character construction and to invest more of their character's abilities in their character itself, rather than the character's gear or magical tools. You can use these rules generally with mythic characters, allowing them to attempt all manner of skill-based exploits, or you can limit the ability to pull off these amazing skill stunts to those mythic characters that have really invested in making their skills a key part of their character's identity. The mythic rules offer an opportunity to magnify what makes a character special, and the skills they choose to hone as part of their background narrative and throughout the course of the campaign should be just as important in defining them as their marvelous magic and fabulous feats. With Mythic Skills in your hands, your skills will be just as spectacular!"

I never planned to fall in love. Least of all with a woman, you. But I did, and telling you was the hardest thing I ever did. I knew how you would reach first, but I never anticipated how hard it will be for me or how you reacted next. I had to write, for the first time ever, and now we face book number two. I wrote just to tell you how I feel, what I think. All the things I wanted to say to you but you didn't want to listen. So I wrote, and wrote, and wrote. Flood of thoughts, feelings, whatever came to my mind. Just to give me five minutes of strength to get out of bed. I wrote for me. I wrote for you. Most of them are here. My pain, my love, my longing, my hesitations, My certainty. I know you don't want to hear from me, don't want to read what I have to tell you. But I have to get them out of me, if not to you then just out there, to the world who doesn't know me. Maybe some day you will find your courage and return. Until then my love, You Still don't Know How Much I Love You.

Marissa has always lived in her mother's shadow-and that needs to change... Paralegal Marissa Salgado is a quiet woman, an only child who has grown up in Adriana's long shadow. When she meets and falls in love with Esteban, a fellow employee at the law firm, Marissa finally starts to break free from her shell. While Marissa's mother is overjoyed to see her daughter happy and fulfilled, both Adriana and Marissa have a blood legacy that ties them to creatures of old-and love is indeed transformative when it comes to their kind. Esteban never knew his father, nor was he aware of his half-human, half-fae heritage... Esteban O'Reilly had no idea he was descended from the feared Alexander clan, a vicious faction of the Unseelie Court that demanded their payment in blood and sacrifice. When Esteban dies in a car accident, the women in his life are shattered, and his mother and grandmother are frantic to bring him back-no matter what it takes. Magic has a price, and one life has to be exchanged for another... Answering a request from Esteban's mother, Marissa agrees to spend a weekend at Innisfree, the family's country home. During her stay, she learns the fairies who haunted the O'Reillys for generations have now set their eyes on her. When the extent of Esteban's sacrifice becomes clear, Marissa must make a choice-the truth, or the man she loves. With her life in danger, will Marissa finally acknowledge those who once swore to protect her? Will her own secrets step out of the shadows, or will she be destroyed by the Court for Fairies?

In his *Poetics*, the cornerstone of narratology, Aristotle establishes plot as the most, and spectacle as the least, important of the six elements of tragedy. This initiates a bias for time and against space that continues to shape the narratological agenda to the present day. In the only book-length treatment of narrative space in Homer to date, Brigitte Hellwig reduces the wealth of spatial detail in the *Iliad* and *Odyssey* to a finite number of places and charts their trajectory throughout each respective epic. As such, she applies to space the structuralist methodology typically devoted to time, extracting from it as hypothetical temporality that subordinates experience to exegesis and disregards all but those spatial phenomena that survive the process of paraphrase. There exists, however, an aesthetic dimension of narrative as well, within which actions are conveyed to the audience in real time before they are abstracted into story-events. In this book, I offer a narratological reading of Homer's *Iliad* from the standpoint of space rather than, the usual emphasis, time. I adapt Meyer Schapiro's conception of the picture frame as "a finding and focusing device placed between the observer and the image" to the dynamic medium of epic narrative, and establish the manipulation of frames as the basis for a poetics of narrative engagement. I demonstrate how Homer employs four cinematic devices in the *Iliad*-decomposition, intercutting, meta-audience, and vignette-to achieve montage-like control over his audience's attention and to reveal a semantic component of the epic that manifests itself exclusively within narrative

space.

Developed as a response to Modernist art and literature, this collection of poetry and art challenges the way we appreciate artistic genre. Instead of creating art inspired by poetry or the poetry inspired by art, this work melds that two into a cohesive work, with neither being the progenitor of the other. It examines the history of blackness and looks at that history through a modern lens, changing how we see our heroes, how we see ourselves and how we see society. It questions how we communicate and how we amuse ourselves. It redraws our innate sense of beauty. It examines gender roles and abuse. Created by a mother and daughter team, this book of poetry provides image to imagery. With Katerina Canyon's poems and Aja Canyon's illustrations, this work is a conversation between them as they examine what it means to operate within the world as black women.

Confused by conflicting exercise and nutrition "information?" Frustrated by too many sizes in your closet? Determined to "not quit this time" - but not sure how? Go Forward: 28 Days to Eat, Move, and Enjoy Life God's Way will help you understand what God's Word teaches about exercise, nutrition, stress management, sleep, and other health topics. But understanding what to do is only the first step. Through this book you will also begin the second step: practicing how to make a habit for a lifetime. Broken into topical sections, you are encouraged to learn at your own pace and areas of interest. Scripture study is central to growing in your health, so several references and ample space is provided to write what God teaches you. Whether you are starting your health journey for the first time or the fiftieth time, you will find your footing here. If you are ready for the health and energy you need to accomplish your God-given dreams, if you want to find your unique path and fulfill your potential, then it is time to Go Forward! A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-traditional memoir, filled with alphabetical vignettes not chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my recollection of things past, and as in all recollections, the more distant the memory the clearer the details.
