Follow the travels of Italian merchant and adventurer Marco Polo who traveled across Asia. His major voyages, explorations, and discoveries are presented in an entertaining, tabloid-news style.

Did Marco Polo reach China? This richly illustrated companion volume to the public television film chronicles the remarkable two-year expedition of explorers Denis Belliveau and Francis O'Donnell as they sought the answer to this controversial 700-year-old question. With Polo's book, *The Travels of Marco Polo*, as their guide, they journeyed over 25,000 miles becoming the first to retrace his entire path by land and sea without resorting to helicopters or airplanes. Surviving deadly skirmishes and capture in Afghanistan, they were the first Westerners in a generation to cross its ancient forgotten passageway to China, the Wakhan Corridor. Their camel caravan on the southern Silk Road encountered the deadly singing sands of the Taklamakan and Gobi deserts. In Sumatra, where Polo was stranded waiting for trade winds, they lived with the Mentawai tribes, whose culture has remained unchanged since the Bronze Age. They became among the first Americans granted visas to enter Iran, where Polo fulfilled an important mission for Kublai Khan. Accompanied by 200 stunning full-color photographs, the text provides a fascinating account of the lands and peoples the two hardy adventurers encountered during their perilous journey. The authors' experiences

are remarkably similar to descriptions from Polo's account of his own travels and life. Laden with adventure, humor, diplomacy, history, and art, this book is compelling proof that travel is the enemy of bigotry—a truth that resonates from Marco Polo's time to our own.

Marco Polo Didn't Go There is a collection of rollicking travel tales from a young writer USA Today has called "Jack Kerouac for the Internet Age." For the past ten years, Rolf Potts has taken his keen postmodern travel sensibility into the far fringes of five continents for such prestigious publications as National Geographic Traveler, Salon.com, and The New York Times Magazine. This book documents his boldest, funniest, and most revealing journeys—from getting stranded without water in the Libyan desert, to crashing the set of a Leonardo DiCaprio movie in Thailand, to learning the secrets of Tantric sex in a dubious Indian ashram. Marco Polo Didn't Go There is more than just an entertaining journey into fascinating corners of the world. The book is a unique window into travel writing, with each chapter containing a "commentary track"—endnotes that reveal the ragged edges behind the experience and creation of each tale. Offbeat and insightful, this book is an engrossing read for students of travel writing as well as armchair wanderers.

"Yunte Huang has produced a fascinating study of what he calls 'textual travelling,' which is to say, the transformation of poetic texts (in this case Chinese ones) at the hands of American scholars, editors, translators, and especially poets. This brave and highly original study is sure to raise controversy."—Marjorie Perloff, author of Wittgenstein's Ladder

Marco Polo was nicknamed "Marco of the millions" because his Venetian countrymen took the grandiose stories of his travels to be exaggerated, if not outright lies. As he lay dying, his priest, family, and friends offered him a last chance to confess his mendacity, and Marco, it is said, replied "I have not told the half of what I saw and did." Now, in his new novel The Journeyer, Gary Jennings has imagined the half that Marco left unsaid as even more elaborate and adventurous than the tall tales thought to be lies. From the palazzi and back streets of medieval Venice to the sumptuous court of Kublai Khan, from the perfumed sexuality of the Levant to the dangers and rigors of travel along the Silk Road, Marco meets all manner of people, survives all manner of danger, and, insatiably curious, becomes an almost compulsive collector of customs, languages and women. In more than two decades of travel, Marco was variously a merchant, a warrior, a lover, a spy, even a tax collector - but always a journeyer, unflagging in his appetite for new experiences, regretting only what he missed. Here - recreated and reimagined with all the splendor, the love of adventure, the zest for the rare and curious that are Jennings's hallmarks - is the epic account, at once magnificent and delightful, of the greatest real-life adventurer in human history. Literature has the capacity to send us across time and space. Through it, we get to know people from different centuries whose experiences as well as the context and culture they inhabited can be understood and relived through the power of the written word and the marvel of human empathy. Both books included here allow us a glimpse into now extinct kingdoms, antique settlements and wild naturescapes. The stories contained within will not only expand your vision of history but will also, hopefully, thwart your expectations and help you rethink the past. The Book of the Marvels of the World, more commonly known as The Travels of Marco Polo, continues to be one of the most widely read and circulated travel books ever written. It includes the traveller's fascinating recollections of ancient kingdoms and nations all the way from Venice in the Italian Peninsula to Hangzhou in Eastern China. The Itinerary Through Wales narrates Gerald of Wales' trip to recruit soldiers for the Third Crusade around Wales in the 12th century. It contains beautiful descriptions of Welsh landscapes and historical events next to descriptions of miracles and fantastic creatures that are a reflection of its time. Both are included in full, in Modern English and are heavily annotated. Includes charts and illustrations to enliven the experience.

"I have read everything written on Marco Polo, and John Man's book is, by far, my favorite work on the subject. It's not only an over-due and important historical study, it's an entertaining ride every step of the way." — John Fusco, Creator of the Netflix original series Marco Polo The true history behind the Netflix original series Marco Polo, here is the remarkable story of the world's most famous traveler, retracing his legendary journey from Venice to China, the moment East first met West. In 1271, a young Italian merchant named Marco Polo embarked on a groundbreaking expedition from Venice, through the Middle East and Central Asia to China. His extraordinary reports of his experiences introduced medieval Europe to an exotic new world of emperors and concubines, amazing cities, huge armies, unusual spices and cuisine, and imperial riches. Marco Polo also revealed the wonders of Xanadu, the summer capital of Mongol emperor Kublai Khan. Almost 750 years later, acclaimed author John Man traveled in Marco Polo's footsteps to Xanadu then on to Beijing and through modern China in search of the history behind the legend. In this enthralling chronicle, Man draws on his own journey, new archaeological findings, and deep archival study to paint a vivid picture of Marco Polo and the great court of Kublai Khan.

Marco Polo was the most famous traveller of his time. His voyages began in 1271 with a visit to China, after which he

served the Kubilai Khan on numerous diplomatic missions. On his return to the West he was made a prisoner of war and met Rustichello of Pisa, with whom he collaborated on this book. The accounts of his travels provide a fascinating glimpse of the different societies he encountered: their religions, customs, ceremonies and way of life; on the spices and silks of the East; on precious gems, exotic vegetation and wild beasts. He tells the story of the holy shoemaker, the wicked caliph and the three kings, among a great many others, evoking a remote and long-vanished world with colour and immediacy.

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. When Marco Polo arrived at the court of the Great Khan Pekin had just been rebuilt. Kublai Khan was at the height of his glory. Polo rose rapidly in favour and became governor of an important district. In this way he gained first-hand knowledge of a great civilisation and described it with astounding accuracy and detail.

The author recounts his experiences traveling by motorcycle along the route Marco Polo described in his Travels, and clears up some puzzling aspects of the seven-hundred-year-old account

Marco Polo's sense of wonder started when he was young. As a child growing up in the streets of Venice, Italy, his imagination often turned to Asia and to what might be going on there. Little did he know that soon he would be traveling to that mysterious continent personally. You may know his name, but perhaps you've wondered, "What's so great about him?" This book (part of the "What's So Great About...") series, gives kids insight into life, times and career of Marco Polo.
