The number of dysfunctional and emotionally hurting people in our society and in our churches is rapidly increasing. Even though God has called His church to "heal the brokenhearted and set the captive free," the large majority of our pastors and churches are failing to effectively meet this need. The Christian counseling community itself continues to be embroiled in controversy as to what Christian counseling should be and to what extent it should be

based on the Bible. The Greek word for salvation in the Bible means more than God's gift of eternal life: it also includes healing and complete wholeness; mind, emotions, will, and spirit in this lifetime. If, as the Bible clearly states, we are saved or made whole by faith, then it only makes sense that salvation by faith should be the foundation of any wholly Christian therapy. "Faith Therapy" provides a new narrative Biblical approach for helping these hurting people that can be easily applied by pastors and implemented in the church, integrates Christian counseling within the context of salvation by faith, applies faith to bring deep psychological healing, and develops methods for using faith to resolve many common, yet deeply-rooted problems. This book provides a psychological understanding of the process of salvation by faith, winning the trial of your faith, how to increase faith, how to assess faith, and how to apply it to meet our deepest needs for self-worth, significance, security, and love. It includes models for conquering the common problems of low self-image, pride, selfish desires, strife, fear, spiritual oppression, lust, and for developing healthy attachment. It is easily taught and applied in churches because it is completely based on the Bible.

The QRI-5 has long led the field in offering students and teachers alike a reliable and easy-to-use informal assessment instrument. This Fifth Edition continues to emphasize authentic assessment of children's reading abilities, from the most emergent readers to advanced readers. One of the keys to the success of the QRI-5 is that it contains narrative and expository passages at each pre-primer through high school level. All are self-contained selections highly representative of the structure and topic of materials found in basal readers and content-area textbooks. This new edition includes new narrative texts that are even easier than the pre-primer passages previously included. At the same time, it provides graded word lists and numerous passages designed to assess the oral reading, silent reading, or listening comprehension of a student as well as questions to assess prior knowledge. Instructors can measure comprehension by retelling passages, using implicit and explicit questions, and using other devices.

What's New in the QRI-5? # Narrative texts even easier than the pre-primer passages previously included, as well as another narrative to all primary grade levels. # Passages at pre-primer through second grade levels that are presented with and without pictures. # Map and illustrations as part of expository selections at fourth through high school levels. # Accompanying DVD content has been expanded to include \*
