

Napoleon Hill The Road To Riches 13 Keys To Success

We are pleased to present this never before published collection from the one and only, Napoleon Hill. Along with other never before published material, this volume includes the speech that inspired the worldwide bestseller Think and Grow Rich. With a foreword by Napoleon's grandson Dr. J.B. Hill and introductory comments by Don Green, Director of The Napoleon Hill Foundation, personal letters from family members and Senator Jennings Randolph, this fascinating exploration of the speeches given by the pioneer of the personal development movement is packed with a wealth of information. It is a revealing look at one man's quest for understanding why some men succeed, why others do not, and what makes success something that can be replicated. This collection will provide you with some of Napoleon's finest speeches including: What I Have Learned From Analyzing 10,000 People The Man Who Has Had no Chance The Commencement Address at Salem College in Salem, West Virginia, 1922—likely his best-remembered and most- influential speech. Napoleon Hill dedicated much of his life to solving what he called “the most stupendous problem confronting the human race today.” That is, “How can I get what I want?” As W. Clement Stone and thousands of others can attest, Hill succeeded in this venture, and we now have a success philosophy that Andrew Carnegie once saw as a possibility. The pages within this book will tell you of the origins of a personal development legacy.

"An official publication of the Napoleon Hill Foundation."

NAPOLEON HILL was an American self-help author. He is best known for his book Think and Grow Rich (1937), which is among the 10 best-selling self-help books of all time. It offered his "secret" for achievement and insisted, like all his books, that fervid expectations are essential to achieving success and improving one's life. His Master Course was developed to help change the lives of people throughout the country. This book provides a synopsis of the original 1937 text of Hill's masterpiece, Think and Grow Rich. It extracts the key principles, instructions, and examples so that the modern professional, regardless of how busy he or she is, can benefit from the timeless wisdom found in Hill's book. To receive the greatest possible benefit from its wisdom, read no more than one chapter per day, allowing the space and time to fully digest its insights and to enable your imaginative faculties to act on the thought impulses generated thereby. You will also undoubtedly find your progress magnified by working through this content in the setting of a book club or study group, wherein the mastermind principle can be applied to reach higher-level orders of thinking.

Regardless of your approach, when you commit yourself to practicing the steps outlined in this book, you will surely open yourself up to great personal growth and momentum toward achieving your dreams. "Anything the mind can conceive and believe, it can achieve." Within this one line is distilled a success formula so simple that anyone can apply it—and yet so demanding that only a minority of the population ever fully lives it out. Upon it was built a success philosophy that explains how human desires can be translated into material reality, a framework that rests upon the power of thoughts to seek expression in physical form. Through this singular concept, the world's wealthiest and most successful individuals—rich in money, relationships, power, peace of mind, and social standing—have built and maintained their prosperity. It is the foundational principle of Napoleon Hill's Science of Success program, an achievement philosophy that effectively helped end the Great Depression and that has since made more millionaires, cultural icons, and thought leaders than any other. Hill was born in 1883 in a one-room cabin on the Pound River in Wise County, Virginia. He began his writing career at age thirteen as a mountain reporter for small-town newspapers. In 1908, as a young special investigator for a nationally known business magazine, he was sent to interview the great steel magnate Andrew Carnegie. During that interview, Carnegie shared the secrets that had enabled him to acquire hundreds of millions of dollars—a magic law of the human mind, a little-known psychological principle that was amazing in its power. Believing that this magic formula should be shared with those who did not have the time or resources to discover it on their own, Carnegie tasked Hill with spending twenty years or more developing this principle into a philosophy of personal success. This research would be conducted without pay; Carnegie merely provided Hill with access to over five hundred of America's greatest business leaders in order to test his success formula. In 1937, after twenty-nine years of research and writing, Hill published Think and Grow Rich, which contains the thirteen success principles that form the core of the Science of Success. Since its release, it has sold over one hundred million copies worldwide. No literary work in the personal development genre has had a greater creative impact than Think and Grow Rich.

The Law of Success was a precursor to Napoleon Hill's Think and Grow Rich. Hill was well known for researching what made millionaires different from the common man. The sixteen lessons in this book perfectly crystallize everything you will need to know to succeed during these hard economic times. Many of today's best known self help books take their core concepts from this book. The Secret, the Power of Positive Thinking, the Millionaire next door, and The Law of Attraction all take their basic premises from this landmark work. Now you can get it from the source. Once you've read this book you will understand what gives certain people an edge over everyone else. By following the advice laid out clearly herein you'll be the one with an edge. Think and Grow Rich has been called the "Granddaddy of All Motivational Literature." It was the first book to boldly ask, "What makes a winner?" The man who asked and listened for the answer, Napoleon Hill, is now counted in the top ranks of the world's winners himself. The most famous of all teachers of success spent "a fortune and the better part of a lifetime of effort" to produce the "Law of Success" philosophy that forms the basis of his books and that is so powerfully summarized in this one. In the original Think and Grow Rich, published in 1937, Hill draws on stories of Andrew Carnegie, Thomas Edison, Henry Ford, and other millionaires of his generation to illustrate his principles. In the updated version, Arthur R. Pell, Ph.D., a nationally known author, lecturer, and consultant in human resources management and an expert in applying Hill's thought, deftly interweaves anecdotes of how contemporary millionaires and billionaires, such as Bill Gates, Mary Kay Ash, Dave Thomas, and Sir John Templeton, achieved their wealth. Outmoded or arcane terminology and examples are faithfully refreshed to preclude any stumbling blocks to a new generation of readers.

AUTHORISED BY THE NAPOLEON HILL FOUNDATION "Do it now! can affect every phase of your life... It helps you seize those precious moments that, if lost, may never be retrieved." NAPOLEON HILL Business magnate, W. Clement Stone stated that his first commandment of success was to do it now. Following this advice will make us more determined, disciplined and capable of demonstrating the full merit of our potential. Do It Now! allows you to learn, chapter by chapter, how to use your time wisely and your skills appropriately. You are no longer in danger of being left behind and unable to perform to the fullest of your abilities. You can now not only be a person who grabs the reins and advances forward, but with a little extra effort you can achieve success of extraordinary heights. As Judith Williamson says, by working through the process outlined in this book you become the scriptwriter for your life's story and the creator of your own advancement and success. Do It Now! or you will sacrifice all the goodness life has to offer if you fail to do so. Napoleon Hill, born in a one-room cabin in Wise County, Virginia, had a long and successful career writing, teaching, and lecturing about the principles of success. His work is a monument to individual achievement, the cornerstone of modern motivation. The Napoleon Hill Foundation is a non-profit educational institution perpetuating his philosophy of leadership and self-motivation. Judith Williamson is now the Director of the Napoleon Hill World Learning Center at Purdue University Calumet and has authored several books in collaboration with the Napoleon Hill Foundation. Napoleon Hill on two occasions wrote extensive memoirs about his life, starting with his youth in Wise County, Virginia, and ending, apparently, during World War II. I say "apparently" because the archives of the Napoleon Hill Foundation contain these two manuscripts, but they are obviously incomplete and end in the 1940s. Mr. Hill died in 1970. His last book, Grow Rich with Peace of Mind, was written in 1967 and sheds some light on his later years; but his own journals and memoirs of those years, if they ever existed, have not yet been found. The two memoirs were titled by Mr. Hill, Wheel of Fortune and Hand of Destiny. They contain details of his life, including his four marriages, two divorces and one annulment, which we at the Foundation have not seen in any of his other writings or speeches. They also contain many details about his successes and failures in business and there were more failures than successes, as he readily admits. The memoirs contain thoughtful insights into the state of mind of this great thinker—how he dealt with failure, profited from defeat, turned adversity into advantage, and ultimately achieved happiness with his last wife, Annie Lou, happiness which had eluded him for most of his life. Mr. Hill has said that the Master Mind principle, in which two or more minds work harmoniously to achieve a common goal, is the most important of the seventeen principles of success he studied during his decades of research into how people attain happy and successful lives. One of the many interesting stories in the memoirs is about how he and his third wife, Rosa Lee, used the Master Mind principle to discover the only one of the seventeen principles that no one had understood or realized before, Cosmic Habitforce. The Trustees of the Napoleon Hill Foundation have combined the two memoirs into one, editing out repetition and putting events in chronological order where it made sense to do so. They chose to title the combined memoirs Master Mind, in recognition of the importance this principle played in his philosophy and life, and as a tribute to the mental giant who was the greatest thinker and writer ever in the fields of personal achievement and self-improvement.

Takes a fresh look at the theme of Napoleon Hill's Think and Grow Rich and presents a new fable with a young writer setting out to interview business leaders and other influential figures about the importance of persistence.

"I knew Napoleon Hill in 1922 when I was a student in Salem College in the town of my birth. Mr. Hill came to our campus as the commencement speaker that year. As I listened to him, I heard something other than the words he spoke. I felt the substance—the wisdom—and the spirit of a man and his philosophy. Mr. Hill said "the most powerful instrument we have in our hand is the power of the mind.' Napoleon Hill compiled this philosophy of American achievement for the benefit of all people. I strongly commend this philosophy to you for achievement and service in your chosen field." —Senator Jennings Randolph, West Virginia

This easy-to-read guide is based on the principles behind the success of Carnegie, Ford, Edison, and other 20th-century tycoons. It offers tips for career advancement, increased wealth, and personal fulfillment.

In 1964, Napoleon Hill presented a series of lectures that have never been published—until now. "The subconscious mind doesn't know the difference between a penny and a million dollars. It does not know the difference between success and failure, and it'll work just as hard to make a failure out of you as it will to make a success out of you if you don't condition your mind to keep the subconscious mind working with and for the things you want and away from the things you don't want. "The majority of people spend their lives worrying and fearing and fretting over the things they don't want, and that's exactly what they're getting out of life. I try to make allowances for the weaknesses and for the mistakes of other people that affect my interest. I don't always do a good job of it but I try. I try to keep my mental attitude positive at all times toward all people about all subjects. I want to tell you that this effort on my part has gone a long way toward placing me in a position where I can say, as I said to you this morning, that I have acquired in this life everything that I need, everything that I want, everything that I desire. I have no fears, no frustrations, no disappointments. I have good, sound health. I have a happy home." —An excerpt from one of Napoleon Hill's last public lectures—available for the first time from the Napoleon Hill Foundation
