Beginners USA Education map of the world for grades K-3. National Geographic's graded-series of maps are the first to address the unique needs of K-12 students as they advance their understanding of our World. Unlike other classroom poster maps, the world maps use the Winkel-Trippe projection, which provides the best combination of size, shape, and distance giving the student the best visual representation of the Earth's surface in two dimensions. This solves the effect seen on other maps where Greenland appears larger than South America. Our Beginner Series, grades K-3, contains an easy to read maps of the World and United States."Map Scale = 1:30,000,000Sheet Size = 51" x 40"

Presents fun and interesting facts about different areas of the fifty states, and includes smartphone and GPS activities for road trips, tourist-related picture puzzles, and places to visit in each state.

Examines the Earth's geologic history, climate, vegetation, population, food, economies, and mineral resources, and offers physical, political, and subject maps of each continent.

Get ready to be dazzled! This lively reference book for the younger set introduces a fascinating variety of Earth's rocks, minerals, gemstones, fossils, and shells--from granite to gold, marble to malachite, and conchs to clams. Discover how rocks are formed, the three kinds of rocks, and the difference between rocks and minerals. Learn how rocks and minerals are used in art, architecture, industry, and science. Then journey to the oceans to explore seashells and the amazing animals that once inhabited them. Packed with more than 200 stunning photos, including closeups of each specimen, this colorful book showcases breathtaking natural sites such as the Giant's

Causeway and human-built structures such as the Great Wall of China. Filled with fun facts and designed for interactive learning, the Little Kids First Big Book of Rocks, Minerals, and Shells is sure to become a favorite with young rock and shell collectors and their parents! Our world is constantly changing and this refreshed atlas from the map experts at National Geographic captures the state of the planet with colorful maps, easy-to-grasp stats, and lots of fun facts--the perfect reference for young kids and students. Learn all about the people, places, animals, and environments of our world in the fourth edition of this engaging atlas. It's got a fresh, kid-friendly design; fun, lively photos; and all the latest, greatest geographic and political information that make this such a valuable resource. It's the perfect reference for kids to learn about lands close to home or oceans away--ideal for classroom use, homework help, and armchair exploration.

Current, authoritative, and produced by the expert cartographers at National Geographic, this best-selling United States atlas is newly updated with all the latest info--sure to be welcome in libraries, classrooms, and homes. Kids will have fun learning about each and every U.S. state in this amazing 6th edition atlas, packed with maps, stats, facts, and pictures. National Geographic's world-renowned cartographers have paired up with education experts to create maps of all 50 states, U.S. territories, and Washington, D.C., that pinpoint the physical features, capitals, and other towns and cities. Discover the latest data along with colorful photography of each state and the people who live there. Key points reflect the latest information about land and water, people, and places. Lively essays cover each region of the country. Eight specially themed maps on nature, population, economy, energy, climate, and more delve deeper into key issues. State birds and state flags add to the high visual interest. This is a great reference for home and school with all the basics kids need to know to succeed in middle school, high school, and beyond.

Provides information about the United States, including state flags, birds, flowers, and capitals, as well as key points about the water, people, and physical features of each state.

When middle school mishaps happen, five friends form the S.M.A.R.T. Squad and use their collective skills and the power of science to bring order to their school. Science reigns supreme with this squad of young brainiacs. Join Izzy Newton and her friends in the first adventure of this fun new middle-grade fiction series from National Geographic Kids. A crowded new school and a crazy class schedule is enough to make Izzy feel dizzy. It may be the first day of middle school, but as long as her best friends Allie Einstein and Charlie Darwin are by her side, Izzy knows it'll all be okay. However, first-day jitters take an icy turn when Izzy's old pal Marie Curie comes back to town. Instead of a warm welcome, Marie gives her former pal the cold shoulder. The problems pile up when the school's air-conditioning goes on the fritz and the temperature suddenly drops to near freezing. The adults don't seem to have a clue how to thaw out the school. Cold temperatures and a frigid friendship? Izzy has had enough of feeling like an absolute zero. She rallies the girls to use their brainpower and science smarts to tackle the school's chilly mystery ... and hopefully to fix a certain frozen friendship along the way. Will the girls succeed and become the heroes of Atom Middle School?

Presents an introduction to penguins, discussing their physical characteristics, mating habits, migration behaviors, predators, and different species.

Learning about America is an exciting adventure with the new US atlas for kids ages 5-8. Packed with maps, pictures, facts, and fun, it entertains as it educates.
