

National Geographic Kids Beginners World Atlas

Beginner's World Atlas National Geographic Books

Current, authoritative, and produced by the expert cartographers at National Geographic, this best-selling United States atlas is newly updated with all the latest info--sure to be welcome in libraries, classrooms, and homes. Kids will have fun learning about each and every U.S. state in this amazing 6th edition atlas, packed with maps, stats, facts, and pictures. National Geographic's world-renowned cartographers have paired up with education experts to create maps of all 50 states, U.S. territories, and Washington, D.C., that pinpoint the physical features, capitals, and other towns and cities. Discover the latest data along with colorful photography of each state and the people who live there. Key points reflect the latest information about land and water, people, and places. Lively essays cover each region of the country. Eight specially themed maps on nature, population, economy, energy, climate, and more delve deeper into key issues. State birds and state flags add to the high visual interest. This is a great reference for home and school with all the basics kids need to know to succeed in middle school, high school, and beyond.

A reference guide includes records and achievements made by humans, animals, and nature.

Introduces facts about the planets, distinguishing between the inner, gas, and dwarf planets, and discusses how scientists learn about the planets and outer space.

Provides information about the United States, including state flags, birds, flowers, and capitals, as well as key points about the water, people, and physical features of each state.

"This ... atlas takes readers through maps of the solar system, the Milky Way, and deep space, giving them a close look at and locations of planets, supernovas, and other universes. Sky maps will help kids spot these objects in the night sky and maps of planets and our solar system give the kind of ... detail that National Geographic is known for"--Amazon.com.

A latest annual installment of a best-selling middle-grade reference incorporates a new section on animal friends, an updated "Fun and Games" chapter and a new "Dino Myths Busted" feature. Simultaneous.

Contains the latest data, maps of the world, and graphs as well as lively essays about the world, geography-themed games, crosswords, and picture puzzles. Preschoolers are full of "Where?" questions, and this next book in the best-selling Little Kids First Big Book series is full of fascinating and often surprising answers for them. This charming reference book zeroes in on location, location, location. More than 200 colorful photos are paired with age-appropriate text featuring answers to questions like, "Where does the sky end?" "Where is the highest mountain?" and, "Where was ice cream invented?" Containing several kid-friendly maps designed to expand the learning experience, this book inspires kids to be curious, ask questions, and explore the world around them.

Water is all around us; we drink it every day. In this level 3 reader, kids will learn about the water cycle, discovering how rain and snow flow into our lakes, rivers, and oceans, and later evaporate into the sky again. Vivid photography and accessible text make this book an ideal introduction to the science of water.

Introduces basic concepts about outer space, from the sun and the moon to the planets and space exploration.

Maps, photographs, illustrations, and text present information about the continents of the world.

This charming reference introduces young readers to the wider world by exploring languages, landscapes, weather, animals, capital cities, mountains, deserts, and other landscapes and landforms, and more. It encourages kids to get play with activities such as creating a mini-rainforest in a bottle and singing a simple song in Spanish. More than 100 colorful photos are paired with kid-friendly and age-appropriate maps along with basic facts about each continent. This book will quickly become a favorite at storytime, bedtime, or any other time.

Learn about the 50 states in this book filled with facts, maps and colorful pictures.

Beginners USA Education map of the world for grades K-3. National Geographic's graded-series of maps are the first to address the unique needs of K-12 students as they advance their understanding of our World. Unlike other classroom poster maps, the world maps use the Winkel-Triple projection, which provides the best combination of size, shape, and distance giving the student the best visual representation of the Earth's surface in two dimensions. This solves the effect seen on other maps where Greenland appears larger than South America. Our Beginner Series, grades K-3, contains an easy to read maps of the World and United States."Map Scale = 1:30,000,000Sheet Size = 51" x 40"
Examines the Earth's geologic history, climate, vegetation, population, food,

economies, and mineral resources, and offers physical, political, and subject maps of each continent.

Presents an overview of the countries of the world, explaining how to look at a map, where people live on the Earth, and major countries and regions.

The world has changed and this new atlas from the map experts at National Geographic captures the state of the planet with completely updated maps, stats, and fun facts--the perfect hardcover reference for curious kids and students. Learn all about the people, places, trends, and developments of our world in the fifth edition of this acclaimed atlas. It's got a fresh, kid-friendly design and all the latest, greatest geographic and political information that make this such a valuable resource. New features include a thematic map on endangered species, a map about the region of Central Africa, and an expanded Antarctica section that introduces kids to the important research that is happening there. It's the perfect reference for kids to learn about lands close to home or oceans away--ideal for classroom use, homework help, and armchair exploration.

This adorable reference introduces young readers to birds of all kinds: big and small, flyers and swimmers, colorful and plain. They'll find backyard favorites, such as robins and cardinals and be introduced to more unique species that inhabit rain forests and deserts around the world. Bird behaviors kids can relate to, including singing, dancing, building, swimming, and diving, reveal fascinating insights into the avian world. More than 100 colorful photos are paired with profiles of each bird, along with facts about the creatures' sizes, diets, homes, and more. This charming book will quickly become a favorite at storytime, bedtime, and any other time.
