

National Geographic Kids Quiz Whiz 4 1 000 Super Fun Mind Bending Totally Awesome Trivia Questions

A collection of facts about diverse subjects such as food, animals, inventions and more.

It's the 10th anniversary of the world's best-selling almanac for kids! This year the Almanac features all-new content, interviews with explorers in each chapter, a special look at what was going on in the world when the first National Geographic Kids Almanac came out 10 years ago, plus the results of the 2019 Almanac Challenge and a new Challenge for kids who want to get involved with helping our planet. Kids can have fun keeping up with our quickly changing world with the New York Times best-selling almanac, packed with incredible photos, tons of fun facts, crafts, activities, and fascinating features about animals, science, nature, technology, conservation, and more. There's a whole chapter full of fun and games, including activities, jokes, and comics. Practical reference material, including fast facts and maps of every country, has been fully updated. Homework help on key topics is sprinkled throughout the book.

Quiz Whiz1000 Super Fun, Mind-bending, Totally Awesome Trivia QuestionsNational Geographic Books

In this fun, fascinating and full-color guide, the fan-favorite heroes of Big Hero 6 introduce young readers to the most fascinating, unusual and downright mind-boggling concepts from science, technology, engineering and math – and of the critical thinking skills they'll need to become super-brain superheroes in their own right! Jam-packed with answers to hundreds of fascinating “why” questions that are sure to keep kids turning pages for hours, this book leverages the STEM backgrounds of the Big Hero 6 characters to make every question and concept relevant to today's kids. They'll learn why robots will soon develop AI (whether we want them to or not), why our fingertips wrinkle when they get wet, why the sun is able to eject solar flares into space when there's no oxygen to feed them, why water sometimes runs uphill, and much, much more. While there are other books for children that try to answer the question “why?,” the Big Hero 6 Super-Brain Science Book of Why is the only one completely devoted to STEM topics, which are a huge focus of children's education today. What's more, this book also introduces kids to the concept of “critical thinking,” with sidebars and callouts throughout, challenging readers to understand how the scientists arrived at the conclusions to these STEM-based questions. With publication timed to coincide with the second season of this hit Disney cartoon, this book will help keep young kids educated and entertained year round.

Quiz your family and friends with this ultimate Big Quiz Book from National Geographic Kids, bursting with jaw-dropping facts that will keep everyone guessing and give you hours of fun.

Presents one thousand trivia questions and answers on various subjects, from biology and technology to mathematics, history, and popular culture.

Homework help on key topics is sprinkled throughout the book.

When middle school mishaps happen, five friends form the S.M.A.R.T. Squad and use their collective skills and the power of science to bring order to their school. Science reigns supreme with this squad of young brainiacs. Join Izzy Newton and her friends in the first adventure of this fun new middle-grade fiction series from National Geographic Kids. A crowded new school and a crazy class schedule is enough to make Izzy feel dizzy. It may be the first day of middle school, but as long as her best friends Allie Einstein and Charlie Darwin are by her side, Izzy knows it'll all be okay. However, first-day jitters take an icy turn when Izzy's old pal Marie Curie comes back to town. Instead of a warm welcome, Marie gives her former pal the cold shoulder. The problems pile up when the school's air-conditioning goes on the fritz and the temperature suddenly drops to near freezing. The adults don't seem to have a clue how to thaw out the school. Cold temperatures and a frigid friendship? Izzy has had enough of feeling like an absolute zero. She rallies the girls to use their brainpower and science smarts to tackle the school's chilly mystery ... and hopefully to fix a certain frozen friendship along the way. Will the girls succeed and become the heroes of Atom Middle School?

Presents a variety of jokes and facts, including knock-knocks, tongue twisters, riddles, and traditional question and answer jokes.

Explore one of the most recognized names in modern America with this biography of Supreme Court Justice Sonia Sotomayor. Kids will learn about her rise to be the first Hispanic Supreme Court Justice and the trials she faced along the way. The level 3 text provides accessible, yet wide-ranging, information for independent readers.

"Over 100 games and puzzles to unravel the mysteries of your mind"--T.p.

Discover 1,000 more fun, fascinating, and funny quiz questions in the latest book in this popular series, with all-new content and photos.

This is the first in a series of 4 books that will tell the true and hilarious stories of animals that love hijinks. In this book you'll meet 3 naughty animals, including Fu Manchu, the orangutan escape artist. Fu Manchu lived at the Omaha Zoo and would routinely break out of his habitat to explore the zoo on a nice day. Zookeepers were baffled as to how the ape was escaping, until one day they caught him in the act. Fu Manchu knew how to pick locks. Not only that, he had created his own tool that he used to pick the locks with, which he would store in his mouth so as not to be found out. This and two other charming stories will engage readers and leave them wondering if humans are really the smartest animals.

"First edition published 2017. Reissued and updated 2018"--Copyright page.

A second installment in a successful trivia-based series shares an abundance of engaging facts for young enthusiasts and is complemented by full-color photos and a high-energy design. Simultaneous.

Combines facts with photographs of volcanoes and earthquake-affected regions to introduce readers to such topics as underwater volcanoes and plate tectonics while offering insight into the world-changing power of natural disasters.
